GENERAL INFORMATION

EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19.000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Dubai, Kuala Lumpur and Bogota.

ABOUT THE WORKSHOP

The O&G industry's motto/goal is to explore and produce hydrocarbons in the most efficient and effective ways possible. As such, it's crucial to focus on exploring and developing carbonate reservoirs, which are significant contributors to global hydrocarbon reserves, we would like to focus on exploring and developing them. However, their exploration and development can be very challenging due to their heterogeneous nature, diagenesis, cementation, and variability in porosity and permeability. Moreover, with oil resources becoming increasingly difficult to discover, it is essential to maximize the recovery from existing mature fields to ensure production sustainability and meet growing energy demand. Therefore, it's essential to address challenges of carbonate reservoirs by exploring the latest technology applications and tools needed to manage these complex reservoirs with greater efficiency and effectiveness.

The objective of this workshop is to address the opportunities & challenges associated with complex carbonate reservoirs. This includes frontier exploration for carbonate plays, reservoir characterization, production optimization, and management approaches that involve work processes, technology, and people. This workshop provides a forum for experts in the industry to share their knowledge, exchange ideas & experiences, collaborate on solutions, share best practices and lessons learned to meet the immediate and long term business needs and support the industry to improve recovery from these Carbonate reservoirs.

SPONSORING OPPORTUNITIES

With an array of unique promotional opportunities, we can help you design the perfect programme to enhance your company's experience at First EAGE Advances in Carbonate Reservoirs: from Prospects to Development. The Main Sponsor Programme exposes attendees and businesses to your company and promotes your presence within the industry.

EAGE strives to realize recognition, long term exposure, benefits and publicity for companies that sponsor EAGE workshops.

WHY BECOME A SPONSOR

When you are a corporate sponsor you get high visibility in a qualitative and uncluttered environment that makes your message stand out. EAGE is synonymous with quality, with proven track records in the past. The workshop programme offers a diverse menu that will help you reach your target audience.

Sponsoring will enable you to:

- Increase your visibility to a national, regional and international audience
- Enhance your corporate image
- Reach an influential and exclusive audience
- Break through the media clutter
- Associate your company with EAGE – World's truly multi-disciplinary geosciences society

Please note that sponsoring opportunities are not restricted to packages in this guide. We would be delighted to explore ideas to fit your budget.
