

SHORT INTRODUCTION

The 82nd EAGE Annual Conference & Exhibition, held in Amsterdam, The Netherlands between 18-21 October 2021, proved to be a successful return to events after a challenging year. Regardless of the different circumstances, the annual event accomplished its mission of bringing together professionals, academia and industry to share their experiences, learn from one another and explore new developments and technologies.

Following the positive feedback, we would like to present this report, containing the event highlights and relevant statistics. We would like to thank everyone who participated for making the event a success, and we hope to see you in Madrid, 6-9 June 2022.
