## GENERAL INFORMATION

### EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19.000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Moscow, Dubai, Kuala Lumpur and Bogota.

## ABOUT THE WORKSHOP

The objective of this workshop series is to identify practices and ways, including collaborative actions, to boost exploration and appraisal activities globally in frontier and emerging domains of Western Africa. The need for collaboration in Geosciences and Operations is promoted by the EAGE since the conference held in Paris in 2017, and was the main theme of the Annual Conference in Copenhagen in 2018. Regional workshops such as this one aim to bring concrete actions into play.

This workshop encourages working across boundaries that we may not have explored in the past. Results from this kind of workshop has led to examining, sharing experiences and enabling cooperation in licensing, permits and ideas for standardisation in HSE. This workshop will bring focus on Western Africa exploration experiences and challenges.

For this first edition, the program will be focused around four main themes:

1. Petroleum Systems and Play Understanding
2. Technology advances
3. Commercial/Above Ground
4. Energy Transition

With discoveries made as far back as the early 2000s, plus relative political and economic stability in recent years, the exploration and production possibilities are promising. The targeted audience is Authorities representatives, Exploration, Geosciences and Operations managers and specialists, Universities and Institutes, involved in the preparation and execution of exploration activities (approvals, studies, environmental, geophysical, drilling, logistics...) in West Africa.

Parallel focus sessions will be implemented into the programme including a poster area for service companies and research projects, so that the entire audience remains engaged around their specific challenges.

The expected deliverable is for each delegate to exchange and capture potential actions, inherited from past and current practices, to achieve efficient exploration programs.

## SPONSORING OPPORTUNITIES

With an array of unique promotional opportunities, we can help you design the perfect programme to enhance your company's experience at First EAGE Western Africa Exploration and Production Workshop. The Main Sponsor Programme exposes attendees and businesses to your company and promotes your presence within the industry.

EAGE strives to realize recognition, long term exposure, benefits and publicity for companies that sponsor EAGE events.

### WHY BECOME A SPONSOR

When you are a corporate sponsor you get high visibility in a qualitative and uncluttered environment that makes your message stand out. EAGE is synonymous with quality, with proven track records in the past. The forum programme offers a diverse menu that will help you reach your target audience.

Sponsoring will enable you to:

- Increase your visibility to a national, regional and international audience
- Enhance your corporate image
- Reach an influential and exclusive audience
- Break through the media clutter
- Associate your company with EAGE – World's truly multi-disciplinary geosciences society

Please note that sponsoring opportunities are not restricted to packages in this guide. We would be delighted to explore ideas to fit your budget.
