

## Presentation Title (on first page only), max 16 words (NO authors or affiliations!)

### Introduction

This is the first paragraph of the introduction. The font for this template is 11pt Times New Roman. The Section Headings are bold. The paragraphs are justified and separated by a blank line. Abstracts will be published online exactly as they are submitted. EAGE staff will not edit or retype the copy.

A short abstract should be between 1-2 pages total, and an extended abstract should be up to 2-4 pages total including all figures and references. (Please do not count the cover page.)

AUTHORS AND SUMMARY MUST NOT BE INCLUDED IN THESE PAGES! This information is provided in a cover page, automatically generated from the information you provide during the online submission form.

### Method and/or Theory

Requirements for submitted abstracts:

- Please write your abstract in English.
- Authors are responsible for sizing and positioning their illustrations.
- Figures can be in black and white or colour (include at least one figure).
- Embed into the text of the paper figures, equations, charts, graphics, etc. Build your document with: LATEX -> PDF or LATEX -> PS -> PDF.

### Examples (Optional)

The lay-out of the references should be consistent with the style guide for references in the First Break guidance to authors. Please ensure every citation has a reference and vice versa. As an example, we placed the First Break example references in the correct format at the end of this document. You can use First Break's BibTeX bibliography style file by putting `\bibliography{<yourbibfile>}` just before the `\end{document}` command.

### Results (Optional)

This is the first sentence of the result section. If you have a chart, graphic, equation, etc., you will need to embed them in the document. An example of a figure is put on the next page, which we included in L<sup>A</sup>T<sub>E</sub>X by:

```
\begin{figure}[!htb]
\centering
```

```
\includegraphics[width=0.6\textwidth]{....eps}
\caption{...}
\end{figure}
```

**Figure 1** This is an example figure imported from eps (courtesy of Gilles Lambaré). Figures should be included in the usual way, where the picture should have an Encapsulated Postscript format. Number the figures sequentially, according to their appearance in the text, and check that each figure is cited in the text. Supply a short caption for each figure; more detailed discussion of the figure can be reserved for the text. In this template figure caption are 11pt italic Times New Roman. Further information about the use of figure captions and figure numbering can be found in the *First Break guidelines for authors*.

## Conclusions

This is the first sentence of the conclusions.

## Acknowledgements (Optional)

This is the first sentence of the acknowledgements.
