GENERAL INFORMATION

EAGE

The European Association of Geoscientists and Engineers (EAGE) is a global professional, non-profit association for geoscientists and engineers with 19.000 members worldwide. The objective is to collect and distribute technical knowledge. EAGE organizes events and publishes a monthly magazine for its members and 5 scientific journals. All members of EAGE are professionally involved in (or studying) geophysics, petroleum exploration, geology, reservoir engineering, mining and mineral exploration, civil engineering, tunneling and environmental matters. EAGE's head office is located in the Netherlands with regional offices in Dubai, Kuala Lumpur and Bogota.

AAPG

Since its founding in 1917, the American Association of Petroleum Geologists has been a pillar of the worldwide scientific community. The original purpose of AAPG, to foster scientific research, to advance the science of geology, to promote technology, and to inspire high professional conduct, still guides the Association today.

AAPG provides publications, conferences, and educational opportunities to geoscientists and disseminates the most current geological information available to the general public.

ABOUT THE WORKSHOP

We are excited to welcome you to this novel workshop covering the wide tectonostratigraphic framework of the Arabian Plate and the associated effects of tectonics on the region's lithostratigraphy and its relationship to the major structural and stratigraphic phases throughout the geological history. This workshop is designed to provide a comprehensive understanding of the principles and techniques used to analyze structural forces that shaped the rock formations of the Arabian Plate. Participants will explore various topics, including regional structural geology and sequence stratigraphy, as well as the interpretation of geological maps and cross sections. Through a combination of lectures, hands-on activities, and field-trip exercises, we aim to equip the participants with the skills and knowledge necessary to identify and analyze the main structural features within the Arabian Plate. Whether you are an industry professional, researcher or student, this technical event offers valuable insights into the dynamic processes and tectonics that formed the extensive stratigraphy of the Arabian Plate.

SPONSORING OPPORTUNITIES

With an array of unique promotional opportunities, we can help you design the perfect programme to enhance your company's experience at EAGE/AAPG Workshop on Tectonostratigraphy of the Arabian Plate: Structural Evolution of the Arabian Basins. The Main Sponsor Programme exposes attendees and businesses to your company and promotes your presence within the industry.

EAGE/AAPG strives to realize recognition, long term exposure, benefits and publicity for companies that sponsor EAGE/AAPG workshops.

N.B.: All sponsorship rates are in US Dollars

WHY BECOME A SPONSOR

These sponsorship packages are designed to provide maximum exposure and engagement opportunities at our EAGE/AAPG Middle East and Africa workshops. Partner with us to elevate your brand presence and connect with industry leaders.

Sponsoring will enable you to:

- Enhance your company's presence at a regional, national and international level
- Enhance your corporate image pre-event, on-site and post-event
- Reach an influential and exclusive audience
- Break through the media clutter
- Associate your company with EAGE/AAPG – World's truly multi-disciplinary geosciences societies

Please note that sponsoring opportunities are not restricted to packages in this guide. We would be delighted to explore ideas to fit your budget.

PLATINUM SPONSORS

Being a Platinum Sponsor provides you with the maximum exposure and opportunities to enhance your brand.

Benefits:

- 4 complimentary registrations

ADDITIONAL EXPOSURE

EAGE has a number of other products to promote your company.

Advertising

First Break is the leading publication in Europe serving the geoscience and engineering community and covers the fields of applied geophysics, petroleum geoscience and reservoir engineering. Special topics include, but are not limited to: Digitalization / Machine Learning, Tectonostratigraphy, Near Surface Geo & Mining and Energy Transition. Advertising starts from € 1450,- and is designed to create a high attention value of your presence in the industry.

Institutional Subscription to EarthDoc

Did you know that EarthDoc, EAGE's online Geoscience database contains more than 1,010 papers about Tectonostratigraphy of the Arabian Plate, with in total over 75,000 event papers and journal articles? With an institutional subscription you will have access to papers two weeks prior to the workshop, among other benefits.
