

EDCTP

The power of sharing science

Tenth EDCTP Forum, 17-21 October 2021

Theme: Equity in Research for Health

Programme Tracks

Track A Advancing biomedical interventions towards improved and equitable health
Track A sub-themes <ol style="list-style-type: none">1. HIV2. TB3. Malaria4. Neglected Infectious Diseases (NIDs)5. Emerging and re-emerging diseases6. Respiratory infections and diarrhoeal diseases7. Innovations from research in pandemics to advance biomedical interventions
Track B: Equity challenges in cross-cutting issues
Track B sub-themes <ol style="list-style-type: none">1. Coinfections and comorbidities2. Antimicrobial resistance3. Climate crisis and health4. Implementation science5. Vaccine development and vaccination challenges6. Pharmacovigilance7. Cross-cutting issues in pandemics
Track C: Addressing inequities in research
Track C sub-themes <ol style="list-style-type: none">1. Leadership and science diplomacy2. Advancing women in global health science3. Community engagement and good participatory practice in research4. Equity challenges in research5. Innovations and lessons learned from pandemics to address inequities
Track D: Capacity strengthening, collaborations, enhancing the research environment, knowledge translation
Track D sub-themes <ol style="list-style-type: none">1. Partnerships and alliances to enhance coordination, collaboration, and cooperation2. Ethics and human rights3. Regulatory affairs4. Fostering the next generation of African scientists5. Capacity strengthening of institutions6. Precision medicine7. Big data and artificial intelligence8. Innovation and opportunities in capacity strengthening: lessons from research in pandemics
