

# Cell culture

With a combination of carefully selected suppliers and our own **in-house cell culture lab**, at Caltag Medsystems you will find a wide portfolio of cell culture tools at a competitive price without compromising on quality. **Talk to us to find out more!**

## Cells and Tissues

Primary cells  
Cell lines  
Blood  
Skin  
Hepatocytes  
Cell pellets

## Media

Classical  
Specialist  
Animal free  
Media kits  
3D culture kits

Great pricing

Quality products

Approachable team

Logistics expertise

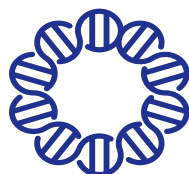

## Culture Reagents

Serum  
Trypsin & TNS  
Buffers  
Tissue-culture-grade water  
Growth factors

## Cell-based Assays

Cell viability  
Apoptosis  
Enzyme activity  
Cell modelling kits  
Cell staining kits

## Transfection Reagents

For transfection of DNA, siRNA, mRNA, Viral RNA, & more.

Via lipofection and Magnetofection

## Additional tools

Coated plates & flasks  
CELLvo Matrixes  
HLA typing kits

Extraction, isolation and purification kits
