

KODA SOLO DATASHEET

Effortless single tube code reading, instant results.

DESCRIPTION

The KODA Solo reads all 2D codes on single sample tubes. The code is read instantly when the tube is placed on the scanner's window. It reads 1D, 2D and QR codes and supports a wide range of export options to swiftly send your codes where needed.

TECHNICAL DATA

Dimensions

Length: 111 mm (4.37 inches)

Width: 75 mm (2.95 inches)

Height: 70 mm (2.75 inches)

Weight

0.8kg (1.76lbs)

Supported Operating Systems

Windows 10 & 11, macOS

Connectivity

USB 2.0 or 3.0 Port

Power

5V via USB connection

Certifications

Conforms to CE & FCC

Warranty

24 months parts & labour

FEATURES

- ✓ **HIGH SPEED DECODING:** Reads all tubes with 2D Data Matrix codes, including cryogenic tubes, and is capable of reading both 1D barcodes and QR codes.
- ✓ **PLUG & PLAY:** No software installation required. Transforming your workflow from box to bench in minutes.
- ✓ **ALERTS:** Receive audio and visual alerts with each successful code read (beep and green LED flash).
- ✓ **KEYBOARD WEDGE:** Acts as a keyboard, sending characters belonging to a code directly to connected applications when scanned.
- ✓ **DATA EXPORT OPTIONS:** Data can be exported via Keyboard Wedge or COM port.
- ✓ **COMPACT FOOTPRINT:** Designed with a compact size to fit on a workbench without taking up too much space.
- ✓ **2-METER USB CABLE:** Provides flexibility and extended reach for connecting to your computer. Plus convenience of power supply and data export through a single cable.
