WOMEN
IN PHARMA

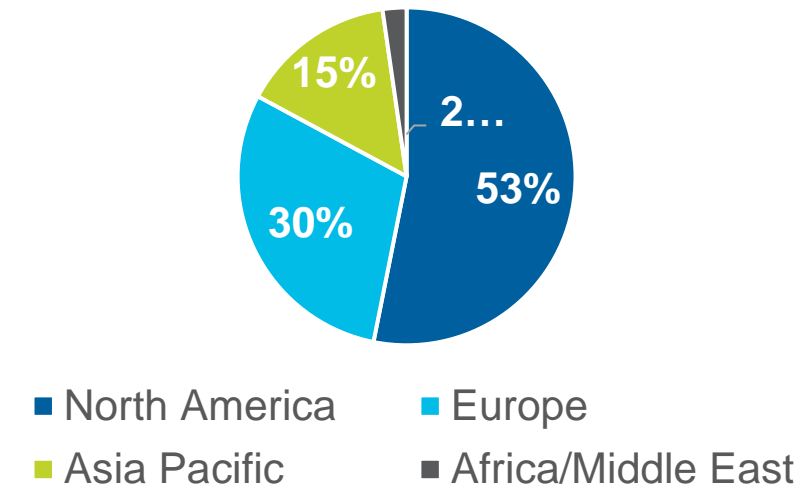

Attendance and Demographics – Recent Webinar

350 Registrants
183 Attendees
52% Attendance Rate

Additional Demographics:

- Almost half the audience (48%) registered their Company Type as “Pharmaceutical/Biotech Manufacturer (Not CMO)”
- The Job Level with the most attendance was “Team Lead/Operator/Technician”, followed by “Manager/Section Head/Supervisor”
- During registrations, we saw 93 attendees that submitted questions before the webinar on this topic.

Where is the audience joining from?

Africa is not really featuring!

Why attend Woman in Pharma?

Reason for joining a WIP event

- Woman in Pharma® was started to provide women in the pharmaceutical industry with a forum for connecting and collaborating on technical and career advancement topics
- Inclusive community leverages a network of mentors, role models, and resources across all levels to foster balanced professional success
- The events are not just for ISPE members and any woman working in the pharmaceutical industry is welcome!
- Learn more: <https://youtu.be/PwGlwsdFGBo>

Topics to be looked at...

- How to uplift women in the industry
- How to work with other women
- Leadership, influencing change, change management, strategies for building strong business cases, how to build/promote diversity in our industry
- Challenges faced during career progression
- Women in Pharma – sharing their path with their own experiences and lessons learned
