Helge Seifert

Switzerland

Prof. Seifert is chief of the department of Urology and the urooncological tumor center in the university hospital Basel since 2018. He is certified in the subspecialty of operative urology and is one of the most experienced DaVinci Surgeons (bladder, kidney, prostate) in the Basel area. He is also known for his expertise in the field of operative BPH treatment including innovative minimally invasive treatments (Greenlight-Laser, REZUM, Aquabeam). He habilitated on the topic of «Cancer Pathways in Bladder Cancer». He has worked as chief of the urology/pedourology department of Hegau-Bodensee-Klinikum in Singen, Germany as well as senior consultant in the university hospital of Zurich and consultant in the university hospital of Düsseldorf, where he also completed his urology residency.
