## Urban Challenges and Sustainable Technological Revolution

### Special Session Proposal

#### **Ageing society: spatial socioeconomic challenges**

Rosella Nicolini (Universitat Autònoma de Barcelona)

José Luis Roig Sabaté (Universitat Autònoma de Barcelona)

Riccardo Turati (Universitat Autònoma de Barcelona)

#### **Abstract**

Modern society faces structural socioeconomic challenges associated with demographic changes. This session aims to provide an overview of a few selected issues related with the previous dimension. In particular, the session will focus on the efficiency of ageing city finances at urban level (in particular in the case of smart cities), the spatial wellbeing in ageing society and technical strategies to implement the quantitative formalization of housing satisfaction, loneliness and service accessibility in cases of ageing population.
