20 years of sharing knowledge to save lives

## **Friends of African Nursing 20 Anniversary Conference 2**

Following the great success of our first on-line conference, we have decided to hold another during our twentieth anniversary year. We continue to celebrate 20 years of delivering education to theatre nurses in Africa. The topic in December is Safe Surgery.

Since WHO highlighted the need for Operating Theatre practice to improve to reduce errors in surgical practice, the world has paid far more attention to systems and processes as well as staff training to ensure safer surgery. Speakers have been selected from around Africa and beyond, ensuring that you will have the proper context for the education.

Friends of African Nursing was set up initially – all those years ago, to ensure that perioperative nurses in Africa had the opportunity to hear and see the best international practice on safe surgery (and infection prevention) – it is no wonder we have chosen these topics for our first conferences. We have much to learn from each other on the most important elements of our practice and to improve the quality of our care to patients.

Friends of African Nursing is a small UK based charity run voluntarily by a group of perioperative nurses.

Do not miss the chance to register for and attend conference on December 4<sup>th</sup>! As before, we will start the programme at a time in the afternoon which seemed to be popular with delegates.

We look forward to seeing you there.
