ASPiH BIC | Bournemouth

2025
11 - 13 Nov

SIMULATION FOR IMPACT:
culture, co-production and
creativity

Poster Presentations Day 1

Wednesday 12th November

As a Poster presenter you will have 4-minutes (maximum) to present your work, with an additional minute for questions (maximum), during one of the parallel sessions at the conference. The poster presentations sessions are allocated dependent on theme and type. Please see allocated sessions and times below.

10h30-12h00

Education 01				
Poster Board Zone	Type	Poster Number	Title	Presenter
1	Work in progress	354	Outcomes assessed by debriefing frameworks used in interprofessional education in a simulation setting: systematic review	Aya Elhage
1	Work in progress	105	Co-Producing the Future: Partnering with Students as Simulated Patient Actors in Research and Education	Amy Fradley
1	Work in progress	262	Improving Communication in the Emergency Department Using SBAR: A Work in Progress to Enhance Referrals and In-House Discussions	Eleanor Smith
1	Work in progress	352	Multi-disciplinary Simulation in Adult Major Haemorrhage	Azab Khan
1	Work in progress	49	Managing Physical Health Emergencies in Mental Health Wards: An Inter-Professional Simulation based Educational Approach	Bronagh McCarragher
1	Work in progress	227	Evaluating the Impact of Simulation-Based Education on GP Trainees' Clinical Decision-Making and Confidence in Primary Care Scenarios	Cathy Mullen
1	Work in progress	345	Challenging Stereotypes in Clinical Practice: A Simulation Workshop to Improve Bias Awareness, Cultural Competence, and Communication	Dana Le Carpentier

1	Work in progress	25	Student Doctor Shuffle- Applying gamification to aid development of patient scripts in medical students.	Danielle Pollitt-Walmsley
1	Work in progress	119	Can simulation be used to prepare senior Paediatric Registrars to become Consultants?	Emma Smith
1	Work in progress	359	Integrating technical and non technical skills team training into Daily Ward Rounds: A Flashcard-Based Pilot Study	Amna Mahmood

Transformation 01

Poster Board Zone	Type	Poster Number	Title	Presenter
2	Research Work	16	'Moulin Rouge' – Emergency Preparedness, Resilience & Response (EPRR) and simulation: a case study assessing the impact of a	Thomas Hayes
2	Research Work	75	Simulating Change: Co-produced Multi-Disciplinary Team Simulations for Transformation in a Newly Built Maternity Department	Olivia Cole
2	Research Work	81	A business case narrative to support funding for simulation activity	Birdie Jones
2	Research Work	97	Simulating allyship through experiential learning to enhance NHS staff support for colleagues with disabilities.	Erin Power
2	Research Work	217	Resuscitating New Life into CT Radiography Training Through In-situ Simulation.	Kate Olson
2	Research Work	226	Simulation in oncology – introducing a novel multidisciplinary programme, NI-ONC sim.	David Johnston
2	Research Work	229	Unexpected Beginnings – A Creative, Cross-Specialty Simulation to Improve Emergency Maternity Care in a Paediatric Emergency	Emma Sang

Education 01

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	66	Teaching hot debriefing to paediatric resident doctors: cultivating a culture of reflection and psychological safety	Sabah Hussain
3	Research Work	38	A multi-professional team approach to developing and delivering simulated training for patient safety incident investigators: a systematic mapping of	Deinniol Owens
3	Research Work	68	Simulating Confidence: A Pilot Programme for Surgical Multi-Disciplinary Team Training in Peri-Operative Complication Management	Ashraya Harish
3	Research Work	71	Instilling readiness to supervise practice and participate in Collaborative Learning in Practice in first- and final-year undergraduate adult nursing	Matthew Ng
3	Research Work	77	Thematic evaluation of learning from a regional Emergency Medicine simulation course	Luke Mills
3	Research Work	85	Investigating the utility of High-Fidelity Multi Professional Simulation for management of acute scenarios	Ren Estacio
3	Research Work	87	International Medicine Graduates and work in the NHS (National Health System): could simulation help their integration?	Valentina Zaccarini
3	Research Work	104	Paediatric simulation on the move; in situ simulation to increase safe paediatric care on non-paediatric wards.	Brigit Vincke
3	Research Work	109	Enhancing Clinical Competence: The Role of Procedural Simulation in Nursing Education	Sanni Lahti
3	Research Work	150	Active Participation Versus Observation in High-Fidelity Simulation: A Comparative Study of Skill Retention and Clinical Performance in Medical	Akshay Doshi
3	Research Work	95	Comprehensive communication skills training for ward staff: listening to patients and relatives	Scarlet Herbertson

Technovation 01				
Poster Board Zone	Type	Poster Number	Title	Presenter

4	Work in progress	42	"Awaiting Results": Simulating Real-World Delays in an On-Call Simulation	Thomas Brisk
4	Work in progress	101	A Mixed Reality and Conversational AI Virtual Patient System to Train Healthcare Support Workers in Clinical Triage and Soft Skills	David Hallett
4	Work in progress	128	Carotid Blowout - Psychological safety vs Technovation- Just because you can....should you?	Emma Williams
4	Work in progress	178	Transforming Clinical Communication Through AI-Powered Virtual Reality: A Scalable and Inclusive Approach	Cola Chen
4	Work in progress	196	Race Against Capacity: A Budget-Friendly Escape Room to Teach Mental Capacity Assessment for FY2 Doctors	Ghaith Alhumairi
4	Work in progress	215	Gamified Approach to Medical Education in the Emergency Department (GAME-ED): Enhancing Non-Technical Skills Through Gamification in Simulation	Finlay McMunn
4	Work in progress	218	Safeguarding Psychological Wellbeing in Simulation-Based Education: A Virtual Reality Approach to Challenging Content	Charlotte Desbrieres
4	Work in progress	238	"Is There A Doctor Onboard?" Using 360VR Simulation To Upskill Off Duty Doctors.	Channon Nixon
4	Work in progress	239	360 Virtual reality simulation incorporating interactive software features: Enhancing regional education of paediatric penetrating chest trauma and delivering new regional guidance.	George Pughe
4	Work in progress	371	www.ntsbingo.co.uk : an app for sim participants to take notes and recognise non technical skills in others	Tim Mason
4	Work in progress	399	Can virtual reality address educational gaps in paediatric training?	Joe Williams

Poster Presentations Day 1

Wednesday 12th November

13h00-14h30

Education 02				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
1	Work in progress	36	Reviewing the wheel – heading back to basics fundamentals of insitu simulation at a district general hospital	Matthew Moon
1	Work in progress	47	Exploring the use of immersive room technology to enhance learning from the 'lived experience' in healthcare	Steve McCarthy- Grunwald
1	Work in progress	55	Integrating simulated learning into a Health Care Support Worker Induction Programme	Richard Kelly
1	Work in progress	73	STEPWise – The development of a theatre-of-the-mind stepwise surgical simulation	Sofia Baldelli
1	Work in progress	92	Piloting an 'F1 On-Call' Simulation to Enhance Preparedness for Clinical Practice	Matt Young
1	Work in progress	114	Implementing Mental Health-Focused Simulation for Third-Year Adult Nursing Students: A Qualitative Pilot Study	Zahra Rahim
1	Work in progress	118	Care of the Psychiatric Patient in the Acute Setting: A Quality Improvement Project Using Simulation-Based Education to Improve	Charles Pearson
1	Work in progress	127	Can simulation provide practise context for public health in pre-registration nurse education?	Carly Le Marechal

| 1 | Work in progress | 133 | Challenging Conversations - A pilot project to enhance nursing skills in facilitating end-of-life care conversations through simulation- | Paul Bailey |
| 1 | Work in progress | 377 | Iterative Approach to Improving Simulated A-E Assessment and SBAR Handover Workshop for Final Year Medical Students | Megan Battenfield |

Education 02				
Poster Board Zone	Type	Poster Number	Title	Presenter
2	Research Work	315	The prerequisites of faculty support network group to meet effective simulation delivery	Priya Agarwal
2	Research Work	132	Enhancing Engagement and Skill Development through Virtual Reality in Physiotherapy simulation-based Education (Placement): A Pilot	Anurag Bhatnagar
2	Research Work	289	The Missing Perspective: A Scoping Review on Autistic Learners in Simulation-Based Healthcare Education	Matthew Bowker
2	Research Work	32	Beyond Role-Play: Innovating Mental Health Nursing Simulation for Crisis and Risk Assessment	Emily Brooks
2	Research Work	135	Interprofessional Martian Mayhem: An Alien Invasion Major Incident Simulation for Education and Teamwork	Una Brosnan
2	Research Work	160	Embedding Human Factors in Foundation Training through Simulation: A Systems-Based Approach	Malcom Smith
2	Research Work	185	Enhancing the NHS Transition Experience: Evaluating the Impact of Simulation Training for International Medical Graduates (IMGs)	Radha Brown
2	Research Work	207	Development of a simulation-based paediatric education course in a children's emergency department.	Rosalind Brown
2	Research Work	340	Everything, Everywhere, All At Once – A simulation scenario to aid prioritisation, delegation and multi-tasking.	Emma Graianger-Allen
2	Research Work	154	Co-Creating Impact: Patient Partnership in Bariatric Simulation	Ruth Willmott

	Technovation 01			
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
3	Research Work	48	Delivering an educational immersive escape room experience to teach undergraduate nursing students about wound care	Russell Sinclair
3	Research Work	70	Is table-top simulation an effective teaching method amongst healthcare practitioners? A narrative review	Hajnalka Huszka
3	Research Work	139	Locked in: Introducing simulated practice to undergraduate pharmacy students through a novel escape-room themed simulation	Ryan Jones
3	Research Work	166	Transformative, technology-enabled simulation - combining the use of Peer-led simulation (PLS) and iRIS Scenario Design System to enhance	Tracey Valler
3	Research Work	175	Exploring the Efficacy of Mixed Reality Simulations in Enhancing Human Factors in Virtual Endoscopy Training	Fortune Amadi
3	Research Work	241	"It Really Brought Us Together": Trialling an Escape Room Simulation in a Paediatrics Department	Rowena Mills
3	Research Work	286	"I never get to see sick kids!": Using "in house" 360 video to provide acute paediatric teaching for medical students	Tim Mason
3	Research Work	247	Typing with Empathy: enhancing inclusive clinical practices with AI chatbots.	Nikita Mascarenhas
3	Research Work	110	Using Virtual Reality (VR) for Simulated Practice Learning (SPL) to develop pre-registration nursing students' knowledge and peer supervision skills.	Hayley Lawson-Wood

	Transformation 01			
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
4	Work in progress	106	The Voice of Patients: What Are They Really Saying?	Joanna Morley

4	Work in progress	151	Nitric oxide dump anyone? How to incorporate wellbeing practices into everyday simulation-based education	Anuprita Harne
4	Work in progress	167	Sustainable Teaching Practices in Simulation: Reducing Waste in Clinical Skills Education	Rahina Inayat Ali
4	Work in progress	248	Training 100,000 Lifesavers: Scaling CPR Education for a Safer Future	Makani Purva
4	Work in progress	361	Simulation-Based Clinical Training in Assisted Reality Head-Mounted Displays to Optimise Surgical Ward Rounds and Acute Care	Frederico De Santana Miranda
4	Work in progress	372	Address Matters: Exploring the Influence of Communication Style on Team Participation in Simulation	Timothy Glass
4	Work in progress	61	How to de-mystify the Inquest process for Healthcare professionals: The COURTS Course (Coroner's court Opportunity Using Real-world	Cedar Andress
4	Work in progress	334	Using simulation to support Radiographers adapting to a new shared working environment and integrating teams	Bethany Chandler

Poster Presentations Day 1

Wednesday 12th November

15h00-16h30

			Education 03	
Poster Board Zone	Type	Poster Number	Title	Presenter
1	Work in progress	177	To investigate simulating a virtual ward with an emphasis on patient care to prepare our future nurses for work within the rapidly transforming	Sally Richardson
1	Work in progress	204	"Empowering Future Healthcare Professionals: The Role of Human Factors Simulation in Enhancing Emotional Resilience, Confidence and Clinical	Helen Fowler
1	Work in progress	200	Using simulation to design a tool box for critical care outreach nurses to deal with difficult communication scenarios within Martha's Rule referrals	Zoe Campbell
1	Work in progress	201	Practice before perfect: Embedding simulated prescribing training in undergraduate pharmacy education	Jonathan Davies
1	Work in progress	206	Enhancing medical student readiness for the operating theatre through video-based simulation	Lewis Turmeau
1	Work in progress	227	AI-driven immersive digital simulation: insight from a global collaboration in upper limb prosthetics	Leah Greene
1	Work in progress	228	Implementation of a National Specialty-specific Simulation Training Programme for Medical Trainees	Andrea Baker
1	Work in progress	259	Further Development of Chest Invasive Surgical Procedure Models - Paediatric Surgical Chest Drain	Ashley Horsfall
1	Work in progress	261	"Not the Bleep: The Cutting Edge"; a novel tabletop simulation to improve decision making and task prioritisation for on-call surgical trainees	Riya Rajendran

ASPiH

2025
11 - 13 Nov
SIMULATION FOR IMPACT:
culture, co-production and
creativity

| 1 | Work in progress | 380 | Evaluating a comprehensive simulation training approach for High Acuity, Low Occurrence (HALO) procedures in Emergency Medicine – looking | Harrison Gray |

Education 03

Poster Board Zone	Type	Poster Number	Title	Presenter
2	Research Work	108	Lifting the Foundations: Early Career Leadership Training using Simulation	Cedar Andress
2	Research Work	270	The effect of Immersive Rooms on the competence of paramedic students	Emily Browne
2	Research Work	26	Title: 'Ready for Winter'. The benefits of utilising low-fidelity 'tea-trolley' simulation to deliver education on preparing for	Richard Buckley
2	Research Work	86	Developing Leadership & Confidence Through Peer Mentorship in Simulation: A Quality Improvement Approach	Samantha Burns
2	Research Work	376	Using low cost high fidelity vascular access models to teach ultrasound guided peripheral venous cannulation to	George Dykes
2	Research Work	245	A novel MDT breaking bad news simulation training in the ICU	Amish Patel
2	Research Work	157	The longer-term benefits of using Peer-led Simulation as an andragogical approach for student nurses.	Tracey Valler
2	Research Work	188	Co-Production in Practice: AIMSim	Rachel Cichosz
2	Research Work	381	Enhancing Interprofessional Communication through Simulation: Forum Theatre and Fish Bowl Approaches in	Jamie Cooper
2	Research Work	156	Simulated Learning and Class Size: A Lecturer's Perspective	Julia Stockton

ASPiH BIC | Bournemouth

2025
11 - 13 Nov

SIMULATION FOR IMPACT:
culture, co-production and
creativity

Education 04

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	170	Faculty of the future: Introducing a weeklong simulation faculty training placement for final-year MPharm students	Jonathan Davies
3	Research Work	187	Fostering a culture of shared knowledge and expertise in faculty development	Rachel Cichosz
3	Research Work	194	The Severn Emergency Department Thoracotomy Course: establishing a multi-disciplinary multimodal learning	Jack Dryburgh-Jones
3	Research Work	203	Year 5 Medical Student Communication Skills – Ethics and Law	Eleanor Jane East
3	Research Work	205	Effect of Varied Levels of Complexity in Simulation Scenarios on Educational Outcomes for Healthcare	Kevin Stirling
3	Research Work	210	The practical management of emergencies in primary care; evaluation of a brief simulation-based teaching for	Emily Lyness
3	Research Work	221	Empowering open conversations through ward round simulation	Karen Bryan
3	Research Work	230	Health Literacy Live Stream Simulation: A novel approach to improve Health Literacy awareness in the NHS	Samuel Thomas
3	Research Work	231	Simulation in Motion: In-Ambulance Clinical Simulation for Mobile Paediatric Extracorporeal Membrane	Daniel Carter
3	Research Work	391	'Murder on the Orient Sim-Spress': using a murder mystery simulation to enhance knowledge consolidation	Sarah Wood

11 - 13 Nov
SIMULATION FOR IMPACT:
culture, co-production and creativity

Education 04				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
4	Work in progress	236	Development of a novel training model for diagnosing parapneumonic and malignant effusions and practicing performing pleural taps and US	Eren Keskin
4	Work in progress	290	Hearing More than Symptoms: Co-production to Strengthen Safety Netting of Children in Primary Care	Leone Walker
4	Work in progress	292	Creating an Internal Medicine Training (IMT) specific simulation programme. A mixed methods study analysing trainees' views and	Annabelle Li Kam Wa
4	Work in progress	295	The development of a robotic training manikin to support occupational therapy students' seating assessment skills foregrounding touch	Minna Nygren
4	Work in progress	298	Advancing Clinical Competence in Nasogastric Tube Management: A Teaching Innovation	Amy Younger
4	Work in progress	313	SONIC: Development and evaluation of Sonographic Intercostal Chest drain phantom (SONIC), a phantom model used to simulate adult	Robert Pritchard
4	Work in progress	320	Can compassionate care really keep us safe? - A service improvement project utilising simulation to equip staff with the necessary skills to	Sarah Davis
4	Work in progress	321	Does using an immersive simulated ward environment improve confidence in newly qualified nurses?	Helen Pushon
4	Work in progress	323	Guiding Observing Learner Debrief (GOLD) in Sim: A tool for engaging non-participant learners	Karen Botsford
4	Work in progress	393	How can the implementation of trust-wide simulation strategy training workshops enhance educational outcomes and facilitate faculty	Inthuja Anantharajah
4	Work in progress	400	Mind Matters: a simulation-based approach to supporting the interprofessional team	Jane Lai
