Poster Presentations Day 1

Thursday 26th November

As a Poster presenter you will have 4-minutes (maximum) to present your work, with an additional minute for questions (maximum), during one of the parallel sessions at the conference. The poster presentations sessions are allocated dependent on theme and type. Please see allocated sessions and times below.

All Poster Sessions will be in Hall D

10h30-12h00

Education 01				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
1	Work in progress	232	From Escalation to Independence: A Multi-Professional Simulation-Based Ultrasound-Guided Cannulation Programme for Difficult	Aya Amir
1	Work in progress	405	Feasibility of implementing a Physiotherapy On-call Simulation for student physiotherapists.	Pearlene Antoine-Pitterson
1	Work in progress	103	Co-designing simulation-based scenarios to improve clinical confidence and safety in continuous glucose monitoring and hybrid	Ana Sofia Antunes Costa Santos
1	Work in progress	162	Exploring Foundation Doctors' Perceptions of Simulation-Based Training and Its Impact on Clinical Practice: A Mixed-Methods Study	Krishaan B Ravintharan
1	Work in progress	227	A bespoke simulation-based lumbar puncture teaching programme for doctors rotating through infectious diseases.	Laura Bellamy
1	Work in progress	314	Escaping the Lecture: Escape Room Simulation in Undergraduate Nursing Programmes.	Erin Bergin

1	Work in progress	295	Reclaiming Contact Time in Clinical Skills Training: A Flipped Classroom Approach	Olaoluwa Bolujoko
1	Work in progress	51	Bridging the Gap: Implementing Realistic Drug Simulation Training to Enhance Paediatric Medication Safety.	Claire Brattle
1	Work in progress	357	Simulation-Based Training for the Management of Acute Exacerbations of COPD Requiring Non-Invasive Ventilation in a General Ward Setting:	Sharon Cassidy

Education 02				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
2	Research Work	407	Building a Culture of Simulation: A Multi-Site Quality Improvement Programme Introducing Weekly In Situ Simulation in Emergency	James Allsopp
2	Research Work	198	Bringing Risk to Life: Using Simulation-Based Education to Expose Psychiatry Core Trainees to Acute Psychiatric Presentations and Risk	Helen Anderson
2	Research Work	376	A sustainable, Low-Cost, High-Fidelity Lateral Canthotomy Training Eye Model	Leonardo Bareli
2	Research Work	426	APEX in Emergency Medicine (EM): A Sustainable, Hybrid Simulation Model for High-Acuity Low-Occurrence (HALO) Procedural Training	Leonardo Bareli
2	Research Work	84	In Situ, Multi-disciplinary Team, Deteriorating Patient Simulation in the Acute Medical Unit Corridor.	Lorna Barton
2	Research Work	384	Practising the Hardest Conversations: Simulation-Based Training in Advanced Care Planning and End-of-Life Care	Olivia Bates
2	Research Work	27	SCBU EQUIP: Education in Preparing for Qualification In Speciality Pathway	Ellie Bebee
2	Research Work	31	US2U (Ultrasound-to-You): an in-situ clinical skills model piloting ultrasound-guided cannulation and its expansion into a trust-wide	Michael Papadopoulous
2	Research Work	149	Simulated Psychiatric Emergencies in the Emergency Department (SPEED)	Oriana Bezzina

2	Research Work	12	‘Bringing simulation to you’- A pilot scheme to deliver in-situ simulation training to all radiology department staff focused on assessing and	Sophie Birch
2	Research Work	60	‘Escaping from your usual teaching methods’ - a pilot medical escape room as an alternative to traditional simulation for third year medical	Paul Thomas

Education 03

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	40	Title: The Doctor Will Hear You Now? – A Simulation Supported Practical ENT GP VTS Training Session	Andrea Ellner
3	Research Work	38	Getting to the Heart of the Matter – A Regional Simulation Pilot Induction Programme for Cardiology Resident Doctors (ST4/5)	Andrea Ellner
3	Research Work	41	“Sim-Neph”: People, Performance and Procedures – Nephrology Simulation, Human Factors and Procedural Skills for Nephrology Resident Doctors: A	Andrea Ellner
3	Research Work	36	Equal, Diverse and Inclusive Simulations? Not Today! Introducing Microaggressions and Affinity Bias into a Programme for Overseas Doctors	Andrea Ellner
3	Research Work	429	Simulated Palliative Care in Practice: The development and delivery of a high-fidelity Palliative Care simulation training day for resident medical doctors	Vanessa Farnan
3	Research Work	166	Interprofessional undergraduate simulation to support frailty-based care in the UK: A Literature Review	Tendayi Hove
3	Research Work	81	Better Sweat Tests, Better Care: The role of simulation	Ansel Godinho
3	Research Work	228	A Simulation-Based Bronchoscopy Skills Course for Anaesthetic and Intensive Care Trainees	Arwa Hagana
3	Research Work	129	Beyond the Breakroom: Addressing Discrimination through Immersive Simulation	Clare Hawker
3	Research Work	98	Evaluating Human Factors Skills training through simulation for South West London Pharmacy Trainees.	Annabel Healey

Education 04

Poster Board Zone	Type	Poster Number	Title	Presenter
4	Work in progress	315	Using Iterative Evaluation to understand the impacts of a VR enhanced communication skills programme	Zoe Lawrence
4	Work in progress	409	Using Visually Enhanced Mental Simulation to Support A National Standardised International Medical Graduate Training Programme in Ireland	Clare Crowley
4	Work in progress	442	A Sustainable Video-Triggered Simulation Approach for International Medical Graduate Induction in Ireland	Clare Crowley
4	Work in progress	443	Building Bridges, Strengthening Care	Signe Hassan
4	Work in progress	278	Evaluation of an Advanced course as part of a National Simulation Faculty Development Programme for Wales (SimFD Wales)	Clare Hawker
4	Work in progress	125	Developing the Gloucestershire Simulation Quality Checklist (SQC)	Harry Nuttall
4	Work in progress	192	Swimulation: A Pilot of Poolside Interprofessional Simulations for Medical Students and Lifeguards	Arjun Vyas
4	Work in progress	373	The Element of Surprise: Designing an Unexpected Pre-Hospital Trauma Simulation to Evaluate Authentic Clinical Performance	Chelsea Walton
4	Work in progress	195	Training Needs Analysis (TNA) – Informed Virtual Reality (VR) Scenario Design to Support the Promoting a Positive Employment Culture (PPEC) Project at a Mental Health NHS Trust	Chinwendu 'Wendy' Wokoma
4	Work in progress	306	Expanding access to consultation practice through curriculum-integrated AI-simulated patient encounters	Hana Woods
4	Work in progress	152	Home and Away: Developing an Inter-professional Acute Oncology Simulation Programme	Ava Zamani

Poster Presentations Day 1

Thursday 26th November

13h00-14h30

Education 05				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
1	Work in progress	110	Contextualising the Sustainable Development Goals in Public Health: developing a global simulation to test knowledge and skills.	Helen Dring-turner
1	Work in progress	340	Evaluating video-supported forum theatre in allied health student education.	Leisle Ezekiel Ezekiel
1	Work in progress	191	Scaffolding Early Human Factors Learning Using Low Fidelity Immersive Simulation in Undergraduate Medical Education	Cara Fallon
1	Work in progress	52	One Size Does Not Fit All: One-to-One Simulation for Foundation Doctors with Complex Learning Needs	Sarah Fathima
1	Work in progress	400	Like stepping into Narnia: A child with complex care needs, an at home simulation.	Ellie Forbes
1	Work in progress	265	Simulation-Based Education for Locally Employed Doctors: A Scalable, Co-Produced Model	Catherine Foster
1	Work in progress	186	An evaluation of Interprofessional simulation focusing on palliative care within the childbearing continuum using video-based	Hannah Garrity
1	Work in progress	133	Extending Simulation-Based Training to Maternity Support Workers: Enhancing Recognition and Escalation of the Deteriorating Maternal	Rachel cavill
1	Work in progress	399	Cultivating a Thriving Learning Culture Among Simulation Faculty: Challenges and Opportunities	Clair Graham

1	Work in progress	188	Creating a Transformative Virtual Simulated Interprofessional Healthcare Placement Experience: Advancing Collaborative Learning	Abigail Green
1	Work in progress	450	Developing Public Health insight in Radiography through online, case-based simulation	Leah Greene
1	Work in progress	279	Evaluation of the effectiveness of an immersive VR animated storytelling experience as a means of developing empathy in Y4	Marc Handford

Education 06

Poster Board Zone	Type	Poster Number	Title	Presenter
2	Research Work	20	Co produced Multi Agency Burns Simulation: Designing Experiential Learning Across Fire, Ambulance and NHS Services	Gemma Blaza
2	Research Work	200	Going beyond core training: Supporting the transition to medical registrar through simulation-based teaching of non-technical skills.	Radha Brown
2	Research Work	203	Enhancing confidence in International Medical Graduates through an immersive simulation-based communication skills course.	Radha Brown
2	Research Work	204	Improving Patient Safety through the delivery of Immersive Simulation Enhanced Induction Programme for International Medical Graduates	Radha Brown
2	Research Work	130	Co-Producing Simulation for Practice Readiness: Student-Led iRIS Design to Enhance Theory–Practice Integration in Undergraduate Nursing	Samantha Burns
2	Research Work	113	Birth-ED: A Multidisciplinary Simulation-Based Training Initiative to Enhance Emergency Department Management of Maternity Presentations	Rachel cavill
2	Research Work	117	Enhancing clinical communication: Teaching medical abbreviations in undergraduate medical education.	Janelle Chicilo
2	Research Work	33	Enhancing Palliative Care Education for Internal Medicine Trainees Through Simulation	Georgina Clarke
2	Research Work	224	Improving radiology decision making and communication skills: a simulation-based teaching session for foundation doctors	Kirsty Clayton

2	Research Work	26	Implementing a Geriatric Simulation at North Bristol Hospital	Alice Hindmarsh
2	Research Work	20	Co produced Multi Agency Burns Simulation: Designing Experiential Learning Across Fire, Ambulance and NHS Services	Gemma Blaza
2	Research Work	200	Going beyond core training: Supporting the transition to medical registrar through simulation-based teaching of non-technical skills.	Radha Brown

Education 07

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	34	Improving Foundation Doctor Satisfaction in Trauma & Orthopaedics Departmental Teaching Through Simulation-Based Training	Joe Hocking
3	Research Work	142	Rethinking Simulation Design: A Two-Room Medical Escape Room to Improve Inter-Team Communication Among Medical Students	Enida Hoxha
3	Research Work	335	Collaborative Practice in Action: An Inter-professional Simulation for Occupational Therapy, Physiotherapy and Social Work.	Heather Hurst
3	Research Work	434	Bridging the Gap: Preparing Medical Students for Roles as Simulation Educators Through a Structured SSM	Saqlain Hussain
3	Research Work	266	Boosting Equity in Speciality Recruitment: A BSAPCH Dual-Simulation Programme for Paediatric ST 1 & ST 3 Interviews	Issra Ibrahim
3	Research Work	241	Simulation in Practice: Utilising Replicable Models for Ultrasound-Guided Cannulation Training Among Foundation and Locally Employed Doctors	Junha Kang
3	Research Work	431	Trauma, tots and toxins: harnessing simulation to introduce students to trauma medicine, emergency paediatrics and toxicology	Neil Kinnear
3	Research Work	418	Dream Big, Squeak Bigger: The Evolution of M.I.C.E Through Simulation Based Education for ICU Nurses Practicing Locally and Nationally	Kimberley Kirkbright
3	Research Work	147	The Effect Of A Home-Based Parenteral Injection Training Module On Nursing Students' Skill Performance And Self-Efficacy	Rukiye Kokkiz

3	Research Work	328	Bridging the Skills Gap: Clinical Instructors' Perceptions of SimuNaledi for Audiology Training	Nomonde Kunene
3	Research Work	16	Optimising Clinical Learning: A Mixed Methods Evaluation of Simulation, VR, and Placements	Himani Limbu
3	Research Work	151	Applying Cognitive Load Theory to Design a Specialty Interview Course Curriculum	Claire Lloyd-Davies

Technology 01

Poster Board Zone	Type	Poster Number	Title	Presenter
4	Work in progress	428	Development of an integrated facilitator-support platform with a scenario library, cached characters and phrases, digital investigation	Moath Naim Ahmad Abusheikha
4	Work in progress	261	From Quick Thinking to Click-Thinking: Authenticity and Safety in AI-Driven VR for Multi-Professional Communication-Skills Training	Zoé Andersen-lawrence
4	Work in progress	264	Magnetorheological Actuation for Biomechanical Joint Simulation	Sylvain Bouchigny
4	Work in progress	119	Team-Based Virtual Reality Serious Game for Developing Communicative Adaptability in Undergraduate Medical Students	Jacqueline Bowers-clark
4	Work in progress	253	The Art of Injury: Elevating Fidelity of Trauma Simulation with Wound Moulage in the European Trauma Course	Andrea Ellner
4	Work in progress	282	Extended Reality: A National Scoping Exercise in Wales	Clare Hawker
4	Work in progress	270	Designing Immersive Simulation in CAVE Environments: A Scenario Template Informed by Simulation-Based Education Standards	Katarzyna Koniuszaniec
4	Work in progress	348	From Eye Patch to Eye-Saving: Wearable Simulator for Lateral Canthotomy	Egle Mattar

Leadership 01

4	Research Work	132	From constraint to capability: developing a simulation workforce and embedding The Association for Simulated Practice in Healthcare	Rachel Cavill
Transformation 01				
4	Work in progress	245	'Lean Sim' Economical yet transformative in situ simulation for general practice using the MAGIC (Management of Acute emergencies in	Helen Beaumont Waters
4	Work in progress	446	From neuroinclusion to transferability: an immersive audio simulation methodology in cross-cultural and interprofessional contexts	Jorge Lopes Ramos

Poster Presentations Day 1

Thursday 26th November

15h00-16h30

Education 08				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
Poster Board Zone	Type	Poster Number	Title	Presenter
1	Work in progress	240	Simulated Parents and Peer Observation: A Small Group Simulation Pilot for Teaching Challenging Conversations in Paediatrics	Lauren Hetherington
1	Work in progress	86	Experiential Learning Approaches in Mental Health Education: A Hearing Voices Simulation Using Bone-Conduction Headphones to Enhance Empathy and	Oliver Hodson
1	Work in progress	180	Training for the Unexpected: A Faculty Development Simulation of a Disrupted Debriefing	Jenny Houston
1	Work in progress	92	Beyond participation: co-designing simulation as an interprofessional learning intervention	Jack Mansfield
1	Work in progress	193	Co producing a Life Course Approach to Inequalities Simulation Training: Learning from Community Voice, Creative Health, and Cross-System Collaboration	Evgenia Kovryga
1	Work in progress	293	Rehearsal Room: A Forum Theatre-Based Simulation to Enhance Critical Thinking, Inclusivity, and Assessment in Adult Community Learning	Amanda Leese
1	Work in progress	32	Improving Local FY1 Induction – A Simulated, Shadowbox Technique	Beatrice Lofthouse

1	Work in progress	334	Impact of a simulation event on the attitudes and confidence of adult undergraduate nursing students towards palliative and end of life care in one Higher	Oonagh McCloy
1	Work in progress	249	Exploring Clinicians' Experiences of an AI Driven Communication Simulation Tool in Emergency Medicine: A Mixed Methods Study	Matthew Moon
1	Work in progress	172	Blue Light Major Incident Simulation: Immersive Human Factors Focused Learning at Scale	Sara Morgan
1	Work in progress	230	Escape the failed system: A simulation based escape room for teaching human factors in healthcare settings	Sami Nour
1	Work in progress	125	Developing the Gloucestershire Simulation Quality Checklist (SQC)	Harry Nuttall

Education 09

Poster Board Zone	Type	Poster Number	Title	Presenter
2	Research Work	73	Bridging the Gap: A Simulation Based Physiotherapy Module to Support Transition to First Clinical Placement	Jorge Costa
2	Research Work	390	What challenges do neurodivergent learners face in health education, and can virtual/simulation-based teaching improve accessibility? A literature review.	Avinash Das
2	Research Work	229	Introducing a prescribing-focussed simulation placement based in General Practice for final year Master of Pharmacy students	Jonathan Davies
2	Research Work	57	Psychological Safety as a Core Simulation Competency: A Multinational Study of Learner and Educator Perspectives	Ana Carolina del Pozo
2	Research Work	212	AI Virtual Patients as Preparation for Simulated Patient Training: A Pilot Study in Undergraduate Medical Education	Ana Carolina del Pozo
2	Research Work	210	Designing Longitudinal Simulation Pathways: Advancing from Clinical Reasoning to Integrated Performance in Undergraduate Medical Education	Ana Carolina del Pozo

2	Research Work	214	Optimising Large-Scale Simulation: Differential Effects on Non-Technical Skill Development in Undergraduate Medical Education	Ana Carolina del Pozo
2	Research Work	15	Simulated Ward Round to Improve Final-Year Medical Student Preparedness for Foundation Year 1	Joss Digweed
2	Research Work	258	Bridging the Gap Between Theory and Practice: Interprofessional Simulation for Paediatric Emergencies in the Emergency Department	Aoife Doherty
2	Research Work	109	The impact of learner-created mis and disinformation on a virtual outbreak simulation	Helen Dring-turner
2	Research Work	243	Enhancing Real-World Clinical Preparedness and Patient Safety Through In-Situ Simulation in Acute Internal Medicine	Devni Edirisinghe
2	Research Work	39	Learning Under Lock and Key: Using a Gamified Simulation Escape Room to Transform Foundation Doctor Training	Andrea Ellner
2	Research Work	73	Bridging the Gap: A Simulation Based Physiotherapy Module to Support Transition to First Clinical Placement	Jorge Costa

Education 10

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	141	Simulation - Not just for medics and nursing!	Clare Lord-Hatton
3	Research Work	387	Learner-Perceived Gaps in Simulation-Based Education: A Multi-Specialty Survey of Resident Doctors	Philippa Mallon
3	Research Work	362	Transforming Community Nursing Education Through Student-Led Simulation: Addressing Gaps in Undergraduate Adult Nursing Education	Gemma Matthews

3	Research Work	70	Development and Delivery of a Virtual Reality (VR) Simulation Course to deliver Endoscopic Non Technical Skills (ENTS) training within the	Dominic Maxfield
3	Research Work	220	Building Comfort and Confidence with Trans Patients Through Simulation	Madeleine Mckernan
3	Research Work	175	Development of a multidisciplinary simulation course designed to allow anaesthetic ODP's to practice both common and uncommon	Andrew McNutt
3	Research Work	107	Escaping the Linear: A Pilot Study of a Synchronous Digital Escape Room for Postgraduate Frailty Education	Emma Mellors
3	Research Work	80	Using an Escape Room Simulation to Enhance Student Learning of Community Mental Health Legislation and Ethical Practice	Penny Crawley
3	Research Work	58	Preparing Final-Year Nursing Students for Registered Practice Through Whole-Hospital Immersive Simulation	Graham Messitt
3	Research Work	375	SETS (Screen-Based Endoscopy Technical Skills) course: A mixed reality simulation intervention for early endoscopy training in pre-specialty	Sophie Mounouchos
3	Research Work	74	Playing with Fire: A Burns-Themed Escape Room for Teaching Assessment and Management	Madeleine McKernan

Transformation 01

Poster Board Zone	Type	Poster Number	Title	Presenter
4	Research Work	140	Reaching Further, Training Smarter: NHS Scotland's Mobile Skills Unit driving transformative simulation training and building resilience in	Lynn Hardie
4	Research Work	263	Using Simulation to Identify Systems Issues in the Newly Designed Paediatric Major Haemorrhage Policy	Sini John
4	Research Work	182	When Seconds Matter: Multidisciplinary Team In-Situ Simulation of Cardiac Emergencies within the Catheter Laboratory Setting	Moncef Seddiki

4	Research Work	136	Responding, not reacting' - Evaluating the impact of a Simulation based Workshop on increasing confidence in the assessment and management	Eshe Douglas-Winchester
4	Research Work	46	Ready in Radiology: Transformational Cardiac Arrest Simulation in the CT Department	Andrea Ellner
4	Research Work	365	Answering the Call: From Slides to Extended Reality (XR) Enabled Simulation in Psychiatric On-Call Induction – an evaluation	Huw Evans
4	Research Work	174	Preparing for Safe Escalation at 'Transition to Practice': Adopting Martha's Rule	Victoria Gray
4	Research Work	433	Use of Tabletop Simulation for Latent Risk Identification During Early Operational Planning of a New Hospital Build	Deborah Glennie
4	Research Work	393	Creating a sustainable maternity and newborn multidisciplinary team in-situ simulation programme	Karl Holden
4	Research Work	300	Lights, Camera, Action: Maternity Simulation Reimagined - Transformational Learning Through Longitudinal Patient Video Narratives	David Holland
4	Research Work	134	Where is the Allergy Clinic?	Dr Kubra Boza
4	Research Work	206	From Debriefing to Coaching: Creating a Psychologically Safe Wellbeing Drop-in as a Reflective Learning Space for Resident Doctors	Karen McIntosh
