ASPiH2026
25 - 27 Nov | HCC, Harrogate
SIMULATION: THE NEXT ERA

Oral Presentations Day 1

Thursday 26th November

10h30 - 12h00

As an oral presenter you will have 8-minutes (maximum) to present your work, with an additional two minutes for questions (maximum), during one of the parallel sessions at the conference. The oral presentation sessions are allocated dependent on theme. Please see allocated sessions and times below.

10h30 - 12h00 - Education 01 (Auditorium)			
Paper Number	**Title**	**Presenter**	**Time**
394	The Escape Womb	Sarah Alvi	10.30 - 10.40
168	Enhancing Medication Safety Competence: A Simulation-Based Approach to Patient Safety Incident Investigation for Final-Year Nursing Students	Charlotte Bates	10.40-10.50
105	Defusing the Pressure: A multi-site tertiary provider's interprofessional maternity simulation delivered in collaboration with a specialist maternity organisation	Navdeep Bilkhu	10.50-11.00
298	Debrief Inception: Using Layered Simulation to Train Emergency Clinicians in Hot Debriefing	Olaoluwa Bolujoko	11.00-11.10
337	MEDREG: a simulation approach to preparing internal medicine trainees for transition to the medical registrar role	Catrin Byrne	11.10-11.20
238	Establishing a Simulation-Based Education Service in an Irish Model 3 Hospital: From Inception to Systems-Probing Simulation	Sharon Cassidy	11.20-11.30
112	A Simulation-Based Multidisciplinary Training Initiative to Enhance Pre-Hospital and Maternity Teamworking in Community Obstetric and Neonatal Emergencies	Rachel cavill	11.30-11.40
296	Improving recognition and escalation of the deteriorating patient through human factors simulation: development and system-wide implementation of the ATHENS (Assessment, Treatment, Human Factors, Escalation and NEWS monitoring in Simulation) programme across a regional NHS partnership following a serious patient safety incident.	Eirini Kasfiki	11.40-11.50

Transformation 01 (Queen Suite 4)			
Paper Number	**Title**	**Presenter**	**Time**
199	Simulation- based evaluation of Operational Systems and Processes during the Pre- Opening Phase of Community Hospital Theatres to ensure service readiness.	Radha Brown	10.30 - 10.40
201	Optimising Emergency Thrombolysis Preparedness for Acute Pulmonary Embolism Through Simulation-Based Education: A Two-Cycle Quality Improvement Study.	Radha Brown	10.40-10.50
404	Interprofessional In situ simulation to improve the Neonatal–Surgical Interface	Mervat Elyas	10.50-11.00
115	From Single-Site to System-Wide: Expanding Stress Testing the Neonatal Major Haemorrhage Across Non-Co-Located Hospital Services	Natalie Gallagher	11.00-11.10
318	Identifying and reducing resuscitation risks during building maintenance via transformative simulation.	Phil Gurnett	11.10-11.20
273	Hidden labour in simulation: supporting simulated participants in emotionally demanding roles	Scarlet Herbertson	11.20-11.30
432	Using Simulation and Healthcare Failure Mode and Effects Analysis (HFMEA) to Identify Latent Safety Threats During the Building and Commissioning of a New Three-Floor Hospital Wing	Deborah Glennie	11.30-11.40
321	From Incident Reports to Simulation Design: A Thematic Analysis of Patient Safety Incidents in a Mental Health Trust.	Michelle Keag	11.40-11.50

Oral Presentations Day 1

Thursday 26th November

13h00 - 14h30

Education 02 (Auditorium)			
Paper Number	**Title**	**Presenter**	**Time**
44	Simulation Suite to Countywide Reach: Livestreaming interactive healthcare simulations	Olivia Cole	13.00 - 13.10
226	Sequential simulation for developing awareness of transitional patient care in undergraduate Master of Pharmacy (MPharm) students	Jonathan Davies	13.10-13.20
382	From opportunistic Events to Integrated Learning: Developing a Coordinated Simulation Programme in a Large Children's Hospital	Aala Farah	13.20-13.30
454	Human Factors in Clinical Practice: Development of a Simulation-Based Training Day for Senior Medical Trainees in an NHS Trust	Vanessa Farnan	13.30-13.40
25	Enhancing Reflection from Simulation: Developing an AI Tool in Nursing Education	Aby Mitchell	13:40-13:50
277	From variability to consistency: implementing a digital training framework for simulated participants	Scarlet Herbertson	13.50-14.00
237	"Paeds Made SIMple": A Needs-driven Multidisciplinary Simulation Programme to Improve Confidence in Acute Paediatric Care	Lauren Hetherington	14.00-14.10
423	From Paper To Practice: The Use Of Documentation Simulation To Prepare Final Year Medical Students For FY1	Josephine Hodson	14.10-14.20

Technology 01 (Queen Suite 4)			
Paper Number	**Title**	**Presenter**	**Time**
114	Virtual Simulation in Postgraduate Healthcare Education: Definition, Models, Potential Emerging AI-Technologies and Applications in Emergency Medicine: A Scoping Review	Mohammed Almarhabi	13.00 - 13.10
260	Filling A Fidelity Gap: Upcycling Equipment To Create Bespoke Simulators	Daniel Carter	13.20-13.30
422	Utilising 360-Degree Virtual Reality Simulation for Intravitreal Injection Training: A Mixed-Methods Evaluation of Perceptions and Knowledge Acquisition in Novice Medical Students	Simran Dhugga	13.30-13.40
448	TinyDocs Talk: On-Demand Audio Simulation Supporting Paediatric ST 1 & ST 3 Interview Preparation for International Graduates	Issra Ibrahim	13.40-13.50
185	Generative AI vs Education Fellow: Who Creates Better Simulation Scenarios?	Philippa Mallon	13.50-14.00
363	Getting behind the headset: a mixed methods study to explore clinical reasoning in virtual reality simulation.	Lauren Medwell	14.00-14.10
Leadership 01			
303	SPARK at 10: Strengthening Simulation Practice Through Networking, Shared Learning and Collaboration	Jessica Clappison	14.10-14.20

ASPiH2026
25 - 27 Nov | HCC, Harrogate
SIMULATION: THE NEXT ERA

Oral Presentations Day 1

Thursday 26th November

15h00 - 16h30

Education 03 (Auditorium)			
Paper Number	**Title**	**Presenter**	**Time**
177	Developing simulation educator competence through an international blended intensive programme: Insights from the Sim Fusion initiative	Emer Lodge	15.00-15.10
352	Integrating Physical and Mental Health in Paediatric Education: A Co-Designed Simulation	Sabrina Alam	15.10-15.20
327	Embedding Human Factors and Social GRACES in Foundation Simulation Training: A Paired Pre and Post Course Evaluation	Ahalya Malachira	15.20-15.30
408	Novel Phantom for practicing US assisted reduction of Colles' fracture (CollesSim)	Ahmed Mostafa	15.30-15.40
378	Using simulation to improve confidence and skills for consultants to have end of life conversations with patients	Ruth O'Dowd	15.40-15.50
380	Developing Tomorrow's Leaders Today: Using Fully Immersive Simulation to Prepare Foundation Doctors for the Career Ladder Leaps.	Alex Parker	15.50-16.00
331	Competing demands: Simulating cognitive overload in medical registrars	Alexander Symonds	16.00-16.10

Technology 02 (Queen Suite 4)			
Paper Number	**Title**	**Presenter**	**Time**
146	Development of a "Home-made" Model to Simulate the Visual and Tactile elements of Ultrasound-Guided Pericardiocentesis, Using Readily Accessible Components	Eric Richardson	15.00-15.10
392	More than skin deep: combining visual, haptic, and sonographic realism in a low-cost pericardiocentesis phantom	Ash Riddington	15.10-15.20
343	The Impact of Sensor-Based Feedback Systems on Cardiopulmonary Resuscitation Performance in Simulation-Based Training: A Systematic Review and Meta-Analysis	Matthew Denney	15.20-15.30
401	No More Paper Cuts: Integrating Electronic Patient Records into Interprofessional Simulation	Chelsea Walton	15.30-15.40
159	Exploring Digital Twinning in MRI: A Systematic Review of Current Applications, Barriers, and Future Opportunities	Julien Greggio	15.40-15.50
302	Agreement between AI-generated and human examiner scores in simulated clinical communication assessments	Hana Woods	15.50-16.00
