Poster Presentations Day 2

Friday 27th November

As a Poster presenter you will have 4-minutes (maximum) to present your work, with an additional minute for questions (maximum), during one of the parallel sessions at the conference. The poster presentations sessions are allocated dependent on theme and type. Please see allocated sessions and times below.

All Poster Sessions will be in Hall D

11h00-12h30

Education 11				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
1	Work in progress	47	Conflict at the desk: an innovative simulated workshop empowering operational staff in primary care.	Menaka Jegatheesan
1	Work in progress	236	Implementing Simulation-Based Education to Support Confidence in On-Call Physiotherapy Practice.	Esther O'Flaherty
1	Work in progress	388	From rare to ready: Drilling skills confidence into healthcare professionals in training using simulation-based sessions.	Alex Parker
1	Work in progress	305	Beyond Technical Skills: Embedding Psycho-social Complexity into Obstetric Emergency Simulation	Samantha Phillis
1	Work in progress	173	A Sequential Simulation for Gender Affirming Care in Children, Co-Produced with People with Lived Experience	Lauren Philpott
1	Work in progress	456	An Interprofessional Simulation to enhance understanding of the Gut-Brain connection in Irritable Bowel Syndrome (IBS)	Billiejoan Rice

1	Work in progress	165	Co-designing an immersive simulation scenario to support medication error recognition and response in undergraduate nursing education: a work in	Talita Sallai
1	Work in progress	93	Clinical Partners Perspectives on Simulated Physiotherapy Practice Placements	Emily Scott
1	Work in progress	257	Including Unregistered Healthcare Staff in Simulation-Based Training for Recognition and Escalation of the Deteriorating Patient	Kirsty Stephenson
1	Work in progress	259	Embedding Inclusive Scenarios in Simulation Based Education: Enhancing Communication, Neurodiversity Awareness, and Equity in Clinical Training	Kirsty Stephenson
1	Work in progress	421	Tapping into Heart Sounds: Evaluating the impact of a Manual Heart Sound Simulation Model on Medical Undergraduate Student Confidence in Cardiac	James Stoker
1	Work in progress	67	Learning how to be a doctor: introducing professional behaviours through simulation.	Katherine Taylor

Education 12

Poster Board Zone	Type	Poster Number	Title	Presenter
2	Research Work	289	From Classrooms to Clinics: Interactive Micro-Simulation to Engage Young Minds in Healthcare	Michael Moneypenny
2	Research Work	215	Enhancing Diagnostic Accuracy and Physical Examination Skills Through A Revision Focused Escape Room Simulation	James Oldham
2	Research Work	308	A Scoping review to support understanding of Interprofessional Simulation- Based Education (SBE) amongst Learning Facilitators Working in the Learning and Development Department (L&D).	Gabriele Ortu
2	Research Work	223	When Primary Care is not Secondary: an example of including School & Public Health Nursing within a Major Incident Simulation Event	Sara Oxbury Ellis

2	Research Work	135	High-Fidelity Simulation to Enhance Preparedness for Practice in Palliative and End-of-Life Care: A Sequential Explanatory Mixed-Methods Study	Humaira Patel
2	Research Work	155	CLOSING THE GAP IN TRAUMA CARE: A MULTIDISCIPLINARY APPROACH TO TRAUMA INTERMEDIATE LIFE SUPPORT TRAINING IN THE WESTERN TRUST	Ellen Patterson
2	Research Work	274	Implementing high fidelity Simulation based Learning (SBL) to enhance students' development of Clinical Physiotherapy skills.	Jane Priest
2	Research Work	99	Developing Leadership, Prioritisation and Communication through a Tabletop Emergency Department Simulation for Final Year Nursing Students: A Practice Initiative	Zahra Rahim
2	Research Work	83	Simulation-Based Training to Support Implementation of a Nurse-Led Lidocaine Infusion Service	Jessamy Reece
2	Research Work	196	The use of simulated 'on-call' teaching in preparing final year medical students for foundation year 1	Annie Rees

Education 13

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	161	Improving Efficiency, Reducing Cost, and Standardising Simulation-Based Training: The PRISM-IMT Model	Jonathan Spann
3	Research Work	156	From Learners to Leaders: A Pilot Study of Physiotherapy Students as Simulation Faculty	Robyn Stiger
3	Research Work	53	'Summary of Learning' Posters – Sharing Learning from Paediatric and Neonatal In-Situ Simulation	Joanne Stock
3	Research Work	108	Evaluating the Added Educational Value of Cardiac Arrest Simulation Beyond Basic Life Support Training: Impact on Self-	Megan Stride

3	Research Work	178	Virtual Reality OSCEs in Post-Registration Clinical Education: Exploring Performance, Experience, and Possibility	Ann Sunderland
3	Research Work	78	Children talk…but do we listen?	Mary Taylor-Coldwell
3	Research Work	411	"Seasonal escape room-based simulation" Improving engagement and anxiety in team-based learning in Paediatrics	Jayne Thompson
3	Research Work	97	Gamification as a Tool for Developing Non-Technical Skills A Titanic Investigation Approach	Jennifer Trafford
3	Research Work	96	Traitors' Style Gamification for Civility & Psychological Safety	Jennifer Trafford
3	Research Work	255	Preparing Foundation Doctors for Off-Duty Emergencies	George Turner
3	Research Work	368	Does the introduction of structured simulation days into hospital practice learning improve nursing student educational	Asli Ucyigit
Transformation 03				
4	Research Work	116	Barriers and Enablers to In Situ Simulation in a UK NHS Trust: A Mixed Methods Original Research Study	Nicole Pollock
4	Research Work	369	From simulation to the ward: Bringing human factors learning to life at the bedside.	Evelyn Shennaike

Education 14				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
4	Research Work	271	Quantifying neonatal intubation biomechanics: a sensorised jaw phantom with impedance-controlled jaw stiffness	Lucia van den Boogaart Castro
4	Research Work	242	Enhancing Cardiac Arrest Preparedness Among Foundation Doctors Using an Innovative Simulation Model: A Reproducible, Practice-Based Intervention	Shreevatsa Udupa
4	Research Work	299	Simulating the On-Call Shift: A Tabletop Exercise to Develop Problem Solving and Clinical Prioritisation Skills in Gynaecology Trainees.	Harriet Welch
4	Research Work	356	Enhancing Clinical Reasoning and Confidence in Intellectual Disability Nursing Students Through Virtual Reality Simulation: A Pilot Study	Ciara White
4	Research Work	218	From Classroom to On-Call: A Scalable, Low-Resource Simulation Programme Preparing Final-Year Students for Practice	Eleanor Wreford
4	Research Work	364	Exploring the use of SimConverse to support multidisciplinary team conversations	Jacqueline Yip
Scholarship 01				
4	Research Work	389	Rethinking Debriefing: A Conceptual Framework of Culturally Shaped Student Experiences	Aseelah Alnazawi
4	Research Work	437	Title: Learner-perceived gaps in undergraduate simulation: a service evaluation of feedback, certification, character delivery, and information access in a UK district general hospital	Moath Naim Ahmad Abusheikha
4	Research Work	256	Beyond fidelity: what actually makes simulation work for nursing students?	Katherine Batley-Heath
4	Work in progress	425	Preparing a New NHS Workforce: Simulation-Based Education in Clinical Exercise Physiology	Eddie Caldow

4	Research Work	286	Listening in Simulation: Using Patient Voice to Shape Clinical Skills Learning	Joanna Morley
4	Research Work	137	Simulation at the Bedside: Patient Perspectives on In Situ Training in Clinical Care Spaces	Joanna Morley
4	Research Work	406	Educational Outcomes of In-Person, High-Fidelity Simulation for Interprofessional Teamwork in Emergency Care: A Narrative Review	Alex Parker
4	Research Work	233	Skin Deep, Life Critical: A Service Evaluation of Inclusive Moulage in Obstetric Simulation.	Emma Vickers

Poster Presentations Day 2

Friday 27th November

13h30 – 15h00

Transformation 03				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
1	Work in progress	330	RELATE: Pilot To Improve Communication and Empathy through Simulation.	Pearly Leow Zi May
1	Work in progress	446	From neuroinclusion to transferability: an immersive audio simulation methodology in cross-cultural and interprofessional contexts	Jorge Lopes Ramos
1	Work in progress	225	The power of words: language and transformation in health and social care practice	Sara Oxbury Ellis
1	Work in progress	323	Breaking Silos, Building Skills: Overcoming operational challenges to deliver a national standardised skills and simulation induction programme	Caroline Richardson
1	Work in progress	438	Starting Safe: Co-designing a National Prescribing Induction Programme for International Medical Graduates	Stephanie Ryng
1	Work in progress	179	Evaluation of involvement of clinical nurses in HEI simulated practice	Julia Stockton
1	Work in progress	413	Improving Staff Engagement, Knowledge Acquisition, and Confidence Through Nurse-Inclusive In Situ Simulation Embedded in Routine Paediatric Teaching.	Rajesh Lall

1	Research Work	194	Use of healthcare simulation activities to foster effective teamwork, communication, and problem-solving among non-healthcare professionals.	Michelle Shuker

Education 15				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
2	Research Work	287	High-Fidelity Simulation for the Next Era: A Vertical Peer Learning Approach to Mitigate Reduced Clinical Placement Hours in Obstetrics	Sophia Chow
2	Research Work	111	Building Simulation Capability: Embedding scalable practice across Critical Care and the wider workforce	Mark Ridgway
2	Research Work	381	Transfer of learning from simulation to practice: Readiness, enactment, and context in undergraduate nursing”	Sam Rogers
2	Research Work	283	Designing a simulation-based workshop that focuses on non-technical skills in the context of multidisciplinary teamwork	Eva Rooney
2	Research Work	89	Digital diabetes technologies in simulation-based education: A scoping review	Sarah-Jayne Rowe
2	Research Work	290	Under Oath: A High-Fidelity Coroners’ Court Simulation for Foundation Doctors	Liam Rudd
2	Research Work	104	Developing a Neuroinclusive Clinical Feedback Phrasebook for Healthcare Education	Ekta Sahu Sahu
2	Research Work	436	Evaluating a Structured Simulation Programme for Internal Medicine Trainees: Fidelity, Learning Value, and Intent to Change Practice	Tunav Sehgal

2	Research Work	280	High Fidelity, Face to Face Simulation as a Driver of Clinical Readiness and Practice Change in F2 Doctors: The Evolving Role of SimWard Wolverhampton.	Aman Sharma
2	Research Work	148	Developing a Simulation Programme for Stage 3 Anaesthesia Residents.	Ushani Siriwardena
2	Research Work	370	Utilising Sequential Simulation for Multi-Agency Simulation of a Diving Emergency: From Sea to Chamber	Ayesha Sithirapathy
2	Work in progress	18	Beyond Careers Day: An Immersive Simulation of the Specialty Application Journey	Caterina Begliardi Ghidini
2	Work in progress	312	Enhancing DNACPR conversations through AI technology.	Sean Pellow

Technology 03

Poster Board Zone	Type	Poster Number	Title	Presenter
3	Research Work	427	Scaling Primary Care Simulation: Real-World Implementation of an AI-Powered Virtual Patient Platform Across UK Medical	Mohammed Taiyyib Arshad
3	Research Work	100	No more paper patients! Embedding simulated Electronic Patient Records (EPR) into the curriculum	Josie Hodson
3	Research Work	262	Combining Emerging Technologies in Immersive Simulation	Luke Cox
3	Research Work	395	From Paper to Digital: Introducing Tablet-Based Documentation in Undergraduate Healthcare Simulation	Clare Crowley
3	Research Work	453	'I would find it more helpful to personally be able to get involved' – A Mixed-Methods Evaluation of Third Year UK Medical Students	Simran Dhugga
3	Research Work	246	Bespoke Fidelity on a Budget: Rapid Development of a Localised Simulated EPR using Generative AI	Andrew Lawrence
3	Research Work	21	Keeping Humans at the Heart of AI Adoption: Co-Creating and Implementing Responsible AI Enhanced Simulation with	Liz Leggott

3	Research Work	79	Developing structured AI-supported prompting to accelerate development of complex pharmacy simulation scenarios for use	Natalie Lewis
3	Research Work	35	Integrating Immersive Virtual Classroom Environments into Doctoral Research: Implementation, Challenges, and	Catherine Roets

Transformation 04				
Poster Board Zone	**Type**	**Poster Number**	**Title**	**Presenter**
4	Work in progress	17	Emergency Robot Undocking: Standardising Robotic Surgical Crisis Response Through In-Situ Simulation	Caterina Begliardi Ghidini
4	Work in progress	435	Using Simulation to Increase Compliance with Orthopaedic Standards in the Management of Acute Compartment Syndrome	Alexander Brown
4	Work in progress	54	Improving inclusive communication with trans and gender-diverse patients: a co-designed simulation-based quality improvement	Megan Docksey
4	Work in progress	379	In Situ Simulation as a Driver for System-Level Learning and Patient Safety in Intensive Care	Beatriz Domingues
4	Work in progress	219	SimSelf: Transforming Inclusive Simulation Through Embedded Adjustment Planning	Charlotte Green
4	Work in progress	441	Bedside-at-a-Distance: A Future Ready Virtual Neonatal Rounds (VNR) Model for Conflict and Remote Contexts	Issra Ibrahim
4	Work in progress	69	Training for Assessment for Simulated Participants (TASP)	Katherine James
4	Work in progress	316	Practicality and Value of In Situ Simulation in a Tertiary Hospital Setting: A Scalable Model for Education and System Improvement	Josephine Valsa Jose
