

Preparing for the EHDS: Insights from TEHDAS2, VALO and a Finnish perspective

Elina Drakvik

Senior Lead & Project Lead, Sitra, the Finnish Innovation Fund

**TEHDAS2 EXPECTED
RESULTS**

**Guidelines and technical
specifications**

for

**data users, data holders
and health data access
bodies**

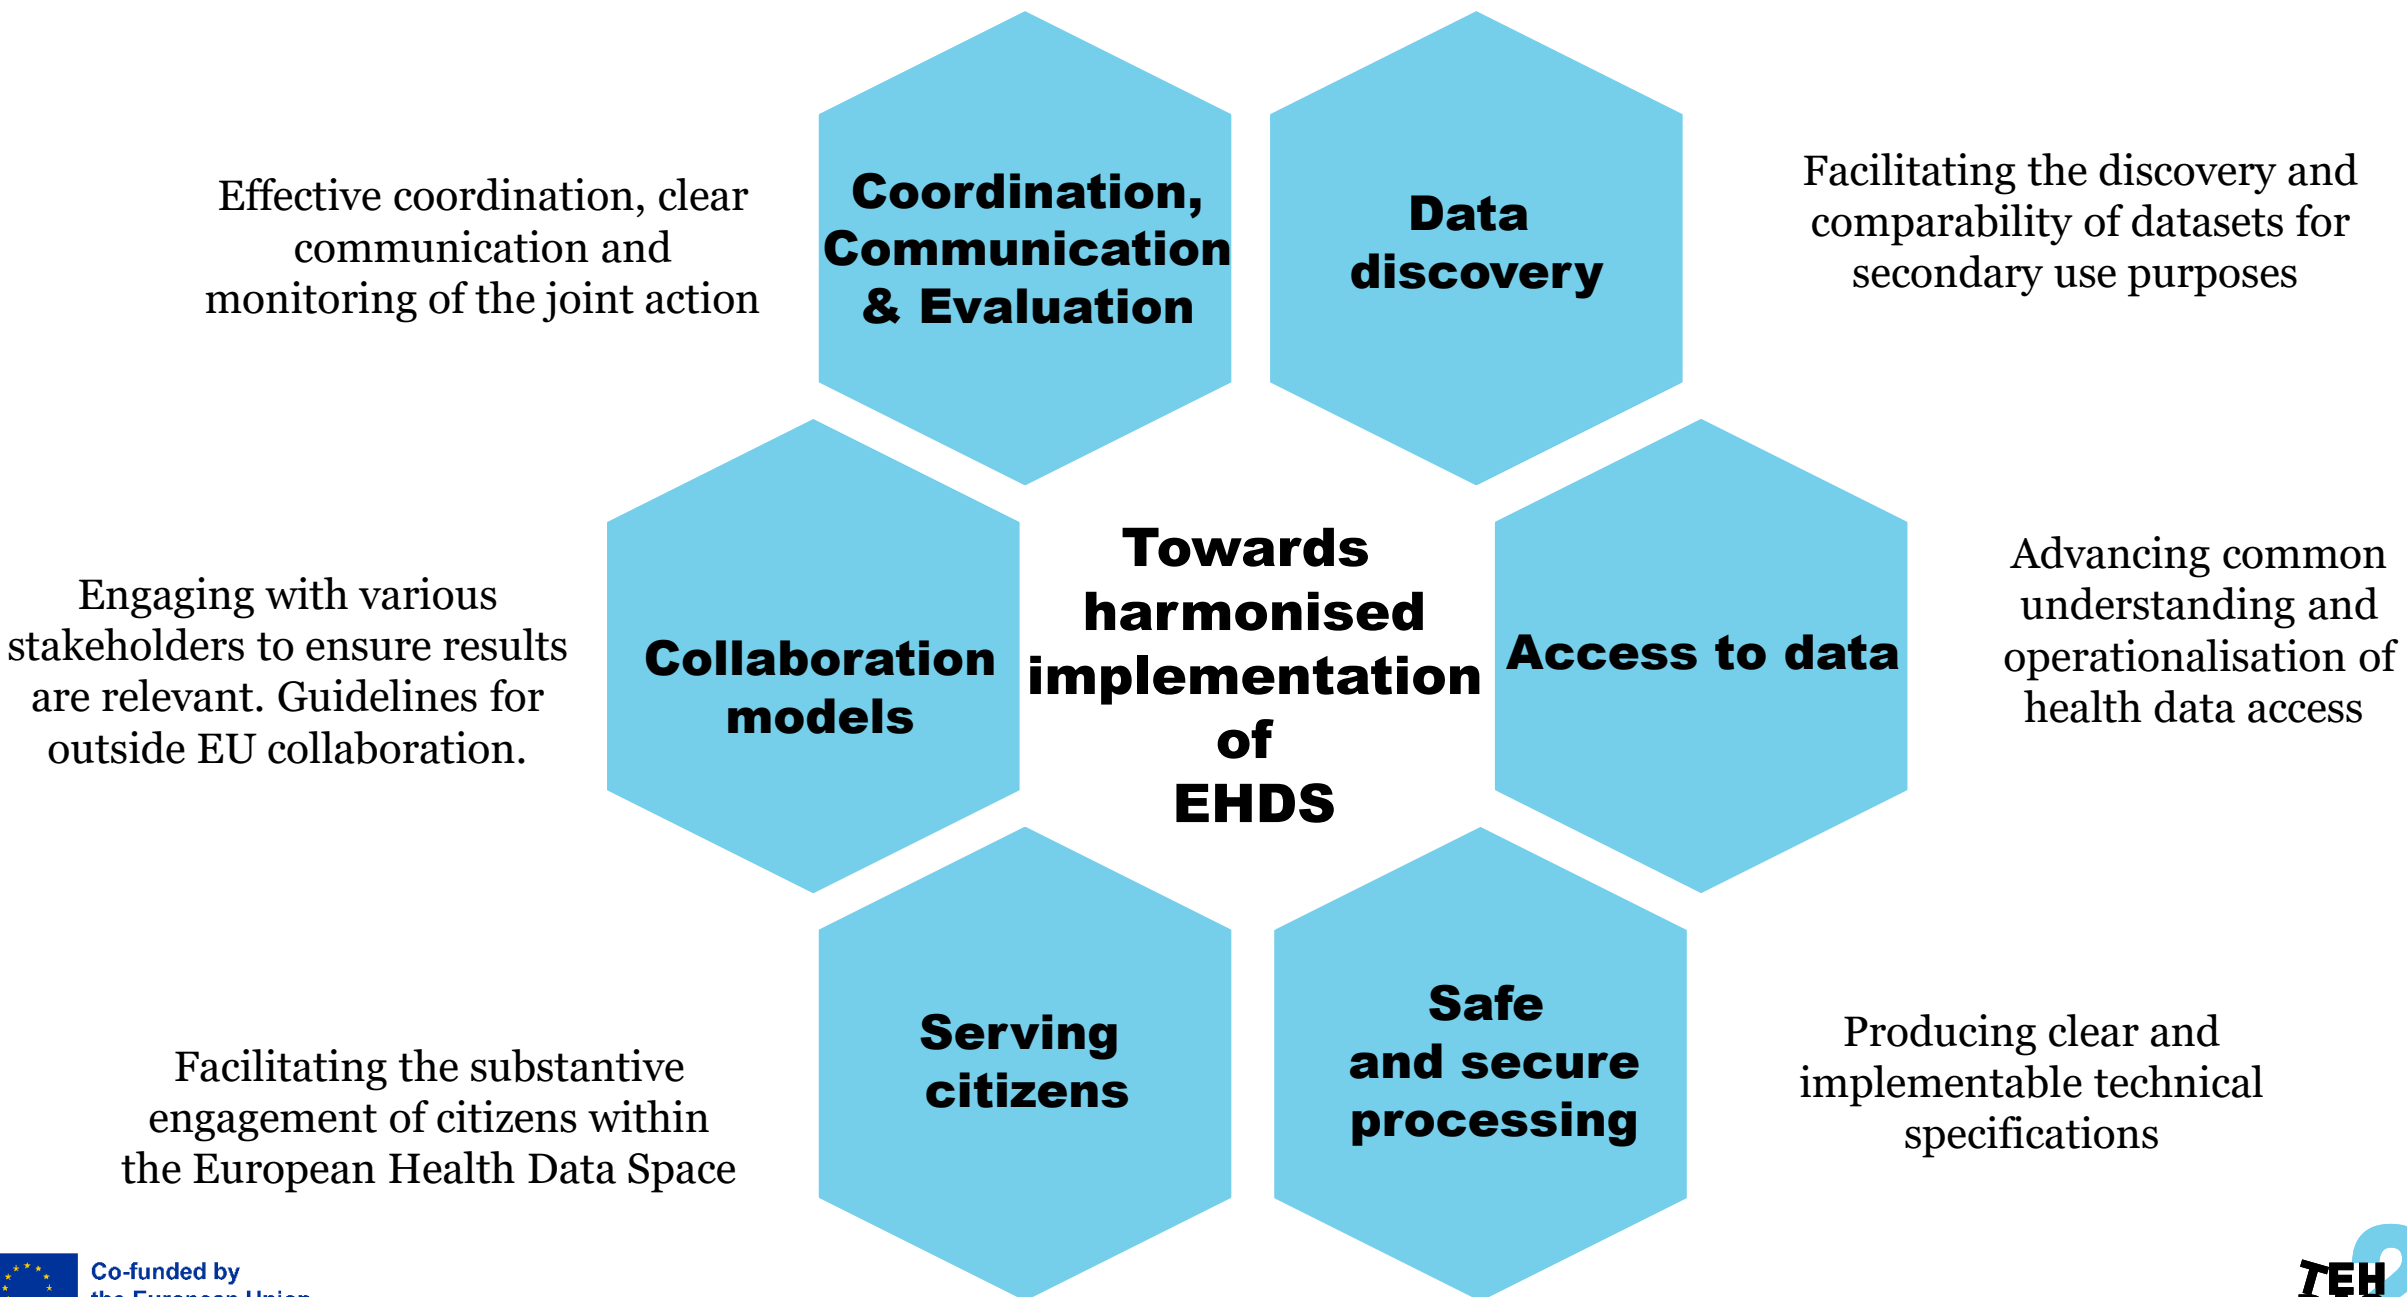

**TEHDAS2 EXPECTED
IMPACTS**

**Better preparedness for
implementing EHDS**

and

**better coordination on
policies and less
fragmentation
on practices for secondary
use of health data**

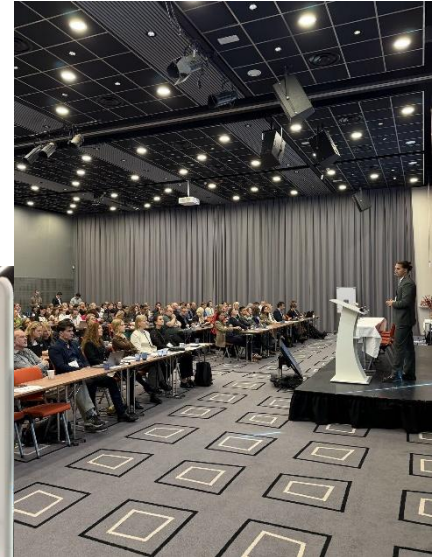

Your voice matters!

- 3 TEHDAS2 public consultations: tehdas.eu/public-consultations

Third public consultation open: 5 May – 28 June

- 3 stakeholder forums:
Warsaw, Copenhagen, and Limassol
- 3 topic-specific workshops, and
ad hoc consultations based on WP needs
- National Expert Groups
- External Advisory Board
- **TEHDAS2 Final conference in November 2026 in Brussels**

Value from Nordic Health Data – VALO

- **Strengthens Nordic co-operation** in the secondary use of health data
- Establishes **common principles** in the Nordic countries for implementing the EHDS
- **Tests the use of data** across country borders
