

Innovation at the Edges

Building Healthcare in the High North

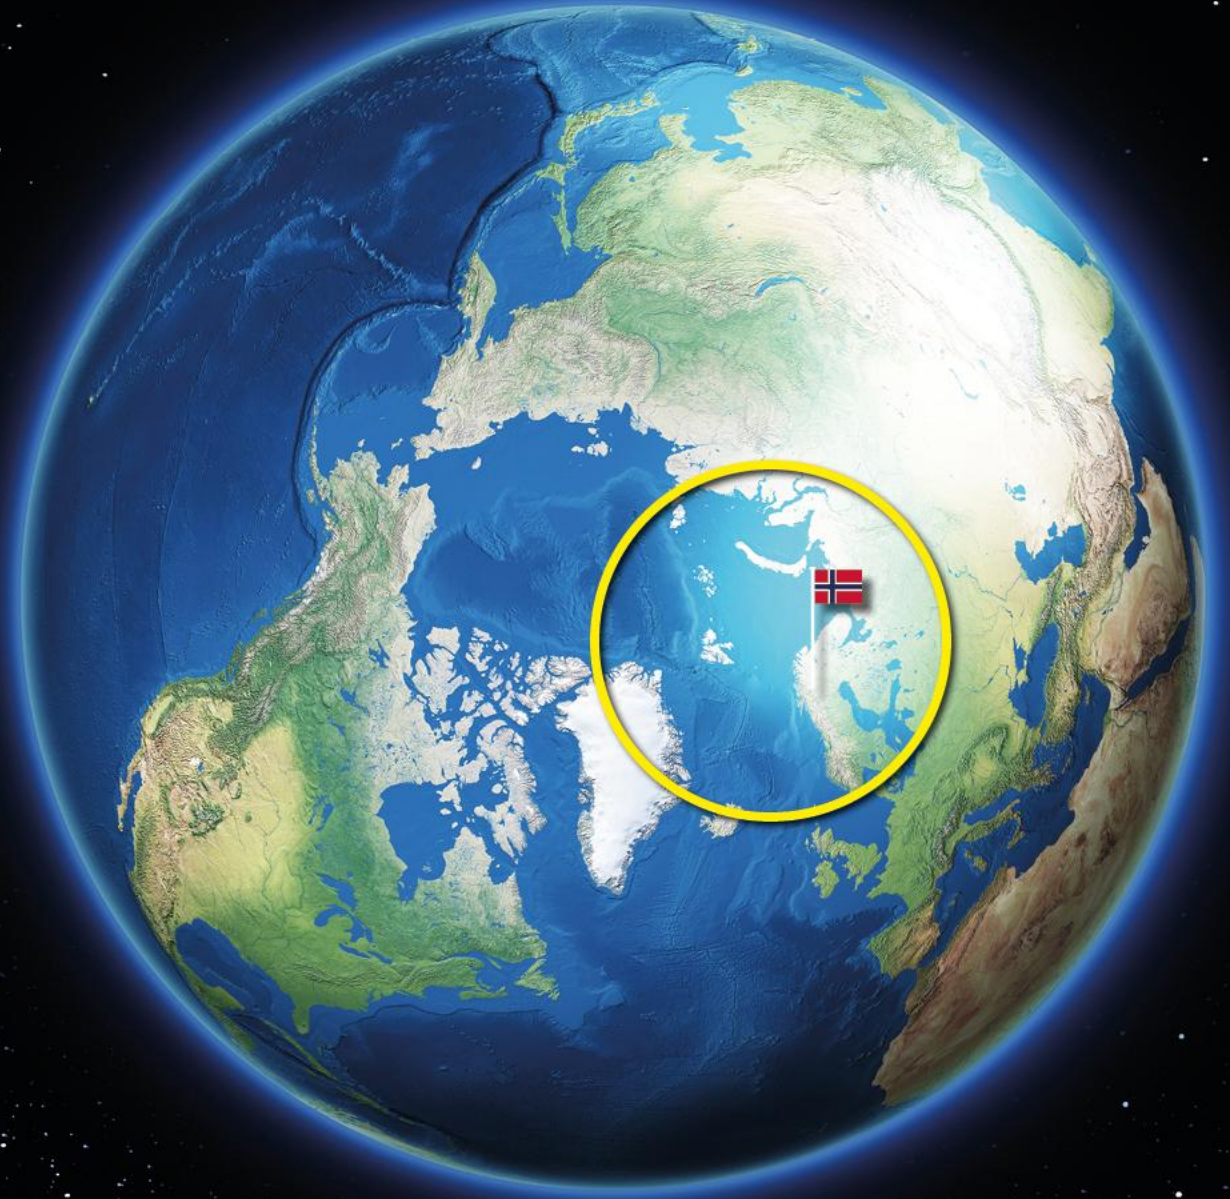

Re-designing the system to deliver sustainable, high-quality healthcare for all

Markus Rumpsfeld, MD, PhD

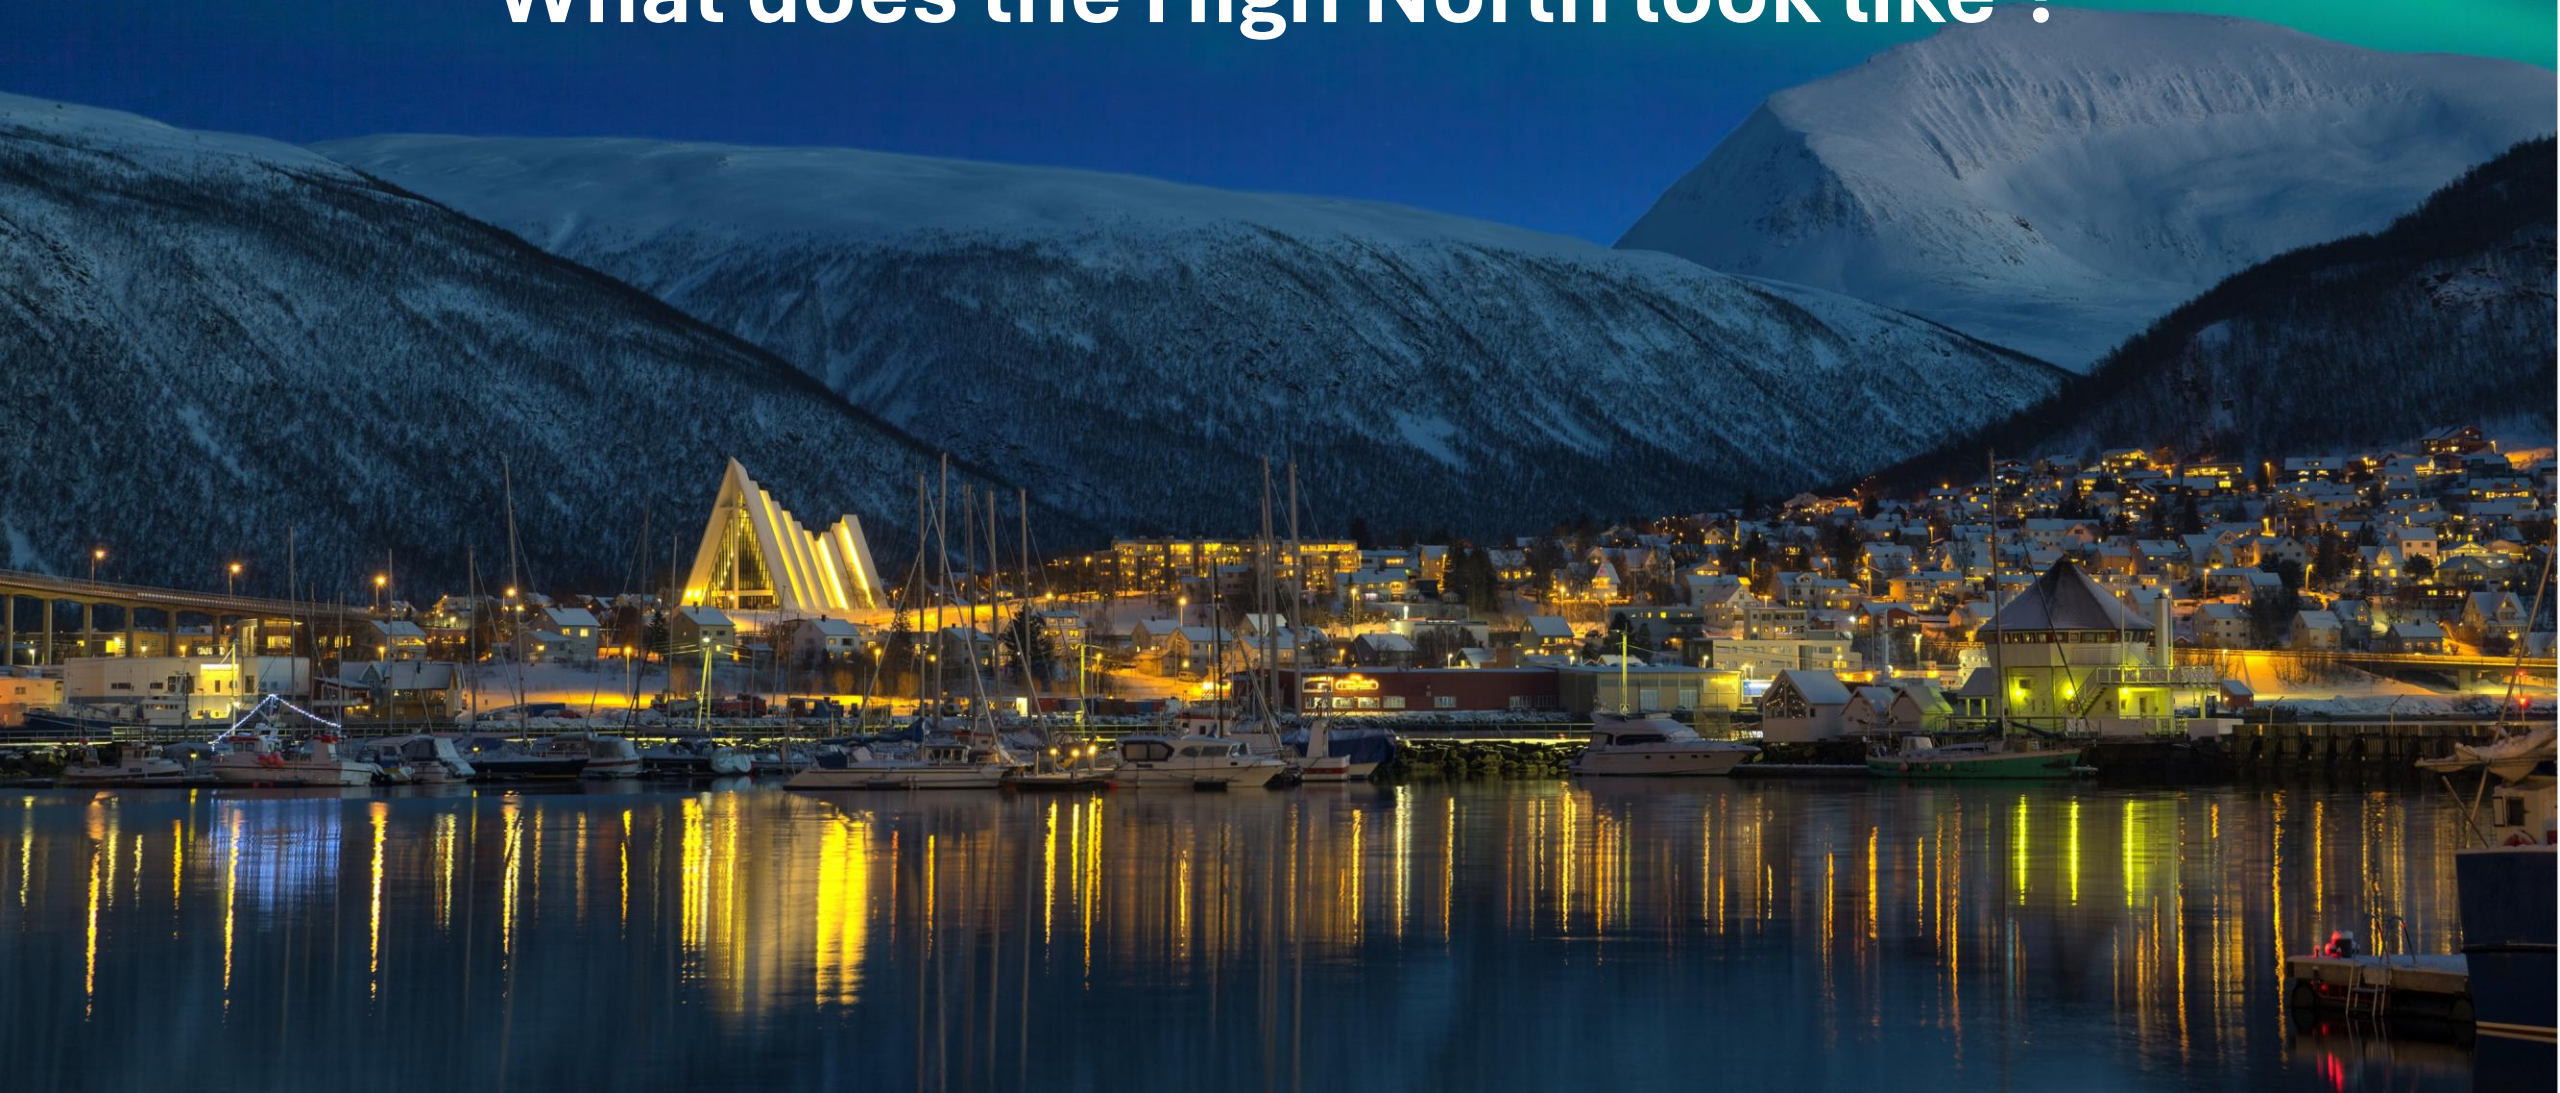

Director for the Centre for Digitalization, Development and Integrative Care
Chief Research Officer at the
University Hospital of North Norway (UNN)

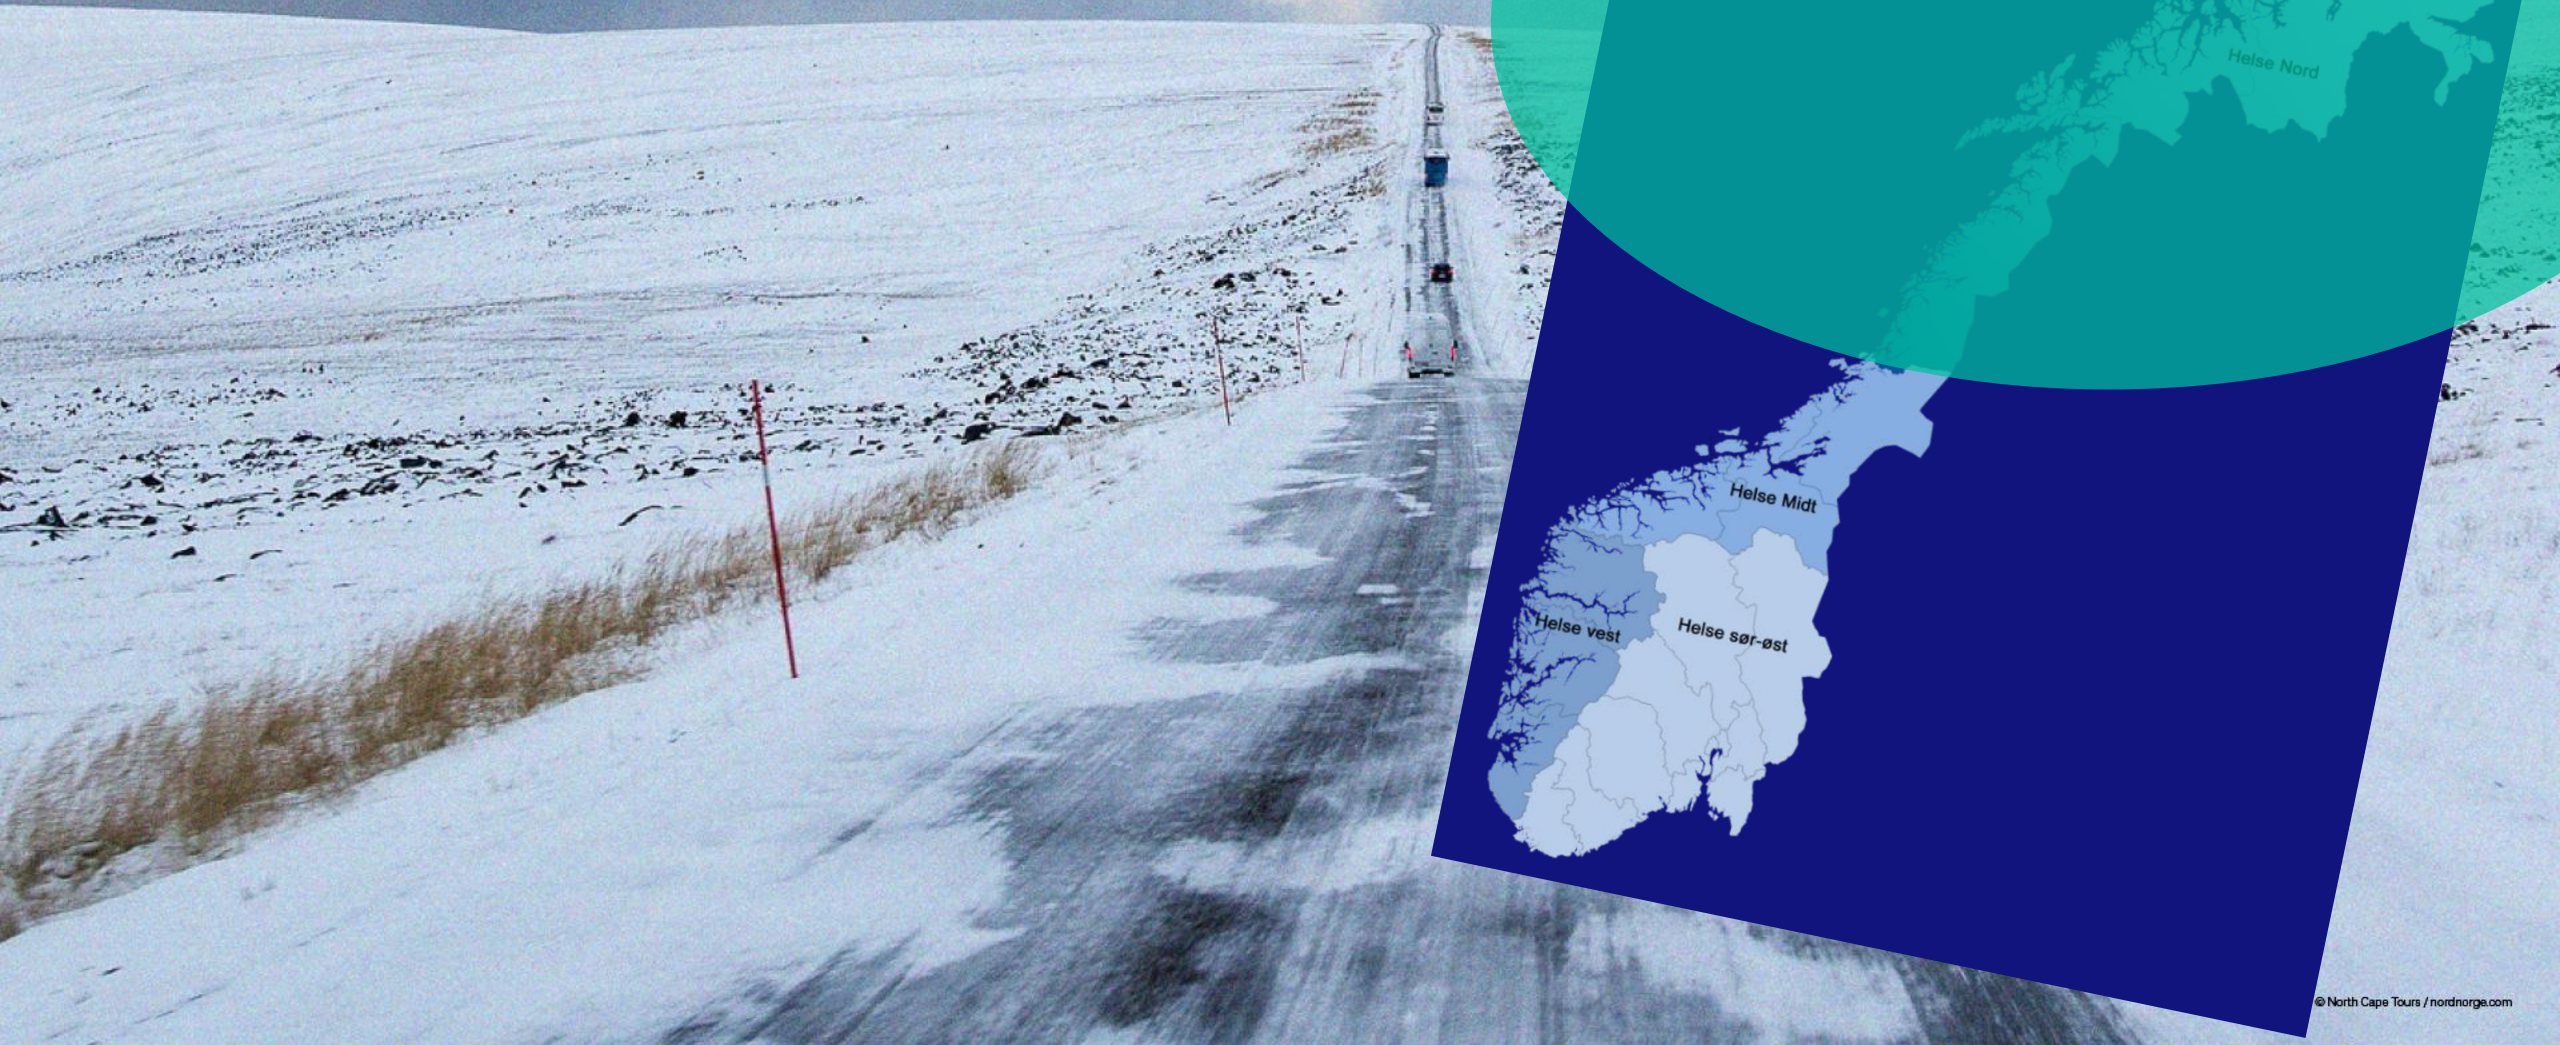

Central.

What does the High North look like ?

Remote.

At home when I can.
In hospital when I need to.

Digital support in patient pathways

Patient-centered healthcare

We live and work in the Arctic

Preparedness.

Hub**

From the High North Experience to your homes and lifes....

From organisational boundaries to patient centernes and the question “What matters to you?”

From reactive care to prevention and earlier support

From isolated tools to digitalised pathways at scale

Centralise what must be concentrated. -Distribute what should be close to life
