

8th Superconductivity Summer School

9–12 July 2024, Wolfson College, University of Oxford, UK

Organised by the IOP Superconductivity Group in collaboration with The European Society for Applied Superconductivity (ESAS) and IEEE-CSC

Organising committee:

- **Professor Ziad Melhem**
(conference chair)
Oxford Quantum Solutions,
Oxford, UK
- **Dr Mark Ainslie**
King's College London, UK
- **Professor David Larbalestier**
ASC-NHMFL, USA
- **Professor Yuri Pashkin**
Lancaster University, UK
- **Professor Susannah Speller**
University of Oxford, UK

Four-day Summer School on Superconductivity will deliver an introduction to superconducting materials and applications covering:

- Fundamentals of superconductivity
- Small applications
- Large applications
- Materials
- Modelling
- Measurements
- Superconducting Quantum Computing
- Superconducting Quantum Devices
- Poster session
- Panel discussion session
- Site visit to Oxford Instruments

The school is aimed primarily at postgraduate students but is also open to undergraduates, academics, engineers, consultants and other practitioners.

Key dates:

- Registration opening:
March 2024
- Abstract submission deadline:
1 May 2024
- Registration deadline:
28 June 2024
