

EMAG 2024: Focus on Functional Materials

3–4 July 2024
Belfast, Northern Ireland

Research Slam

Calling all EMAG postdocs and students!

Can you outline your research in 60 seconds, in an informal and perhaps engaging way?

There's no need for props, slides, or stress, just a bit of pattern and a little enthusiasm for your work. It's an excellent opportunity to give delegates a taster for your work, outline a shiny new experiment or to highlight something that didn't make it into the main programme.

Royce Institute has kindly funded **prizes** for this event!

The research slam will be held during the Social event, Wednesday **July 3rd**.

For more details, email the local organiser:

Dr. Miryam Arredondo (m.arredondo@qub.ac.uk)
