

ROYAL GARDEN HOTEL  
LONDON

## Sustainability at The Royal Garden Hotel

Waste minimisation, waste is separated into different bins

Food waste is collected via ReFood

Bed linen is changed every 2 days or upon client request

Heating & cooling pumps have been replaced for more energy efficient units

Glass water bottles in hotel rooms & event spaces

Origin Kensingtons produce is all locally sourced from sustainable suppliers

We have a dedicated ESG taskforce who are currently working on achieving a green accreditation for the hotel. We are hoping for this to be in place once the refurbishment is finished in August

Responsibly sourced, water, tea & coffee

Most of our paper work is done online to reduce paper waste

Electronic noticeboard for staff

Our newly refurbished bedrooms have recycled wooden flooring as well as wallpaper made from recycled materials

Working on replacing all plastic key cards with bamboo keycards

All toilet paper in the hotel is made from bamboo.
