

ESSD 2024

23 - 27 September 2024

"From bench to bedside"

14th Annual Congress

<https://essd2024.org/>

ESSD Videofluoroscopic Swallowing Study (VFSS)

Pre-congress course Muenster 2024

Faculty:

Stefanie Duchac

Daniele Farneti

Andrea Hofmayer

Peter Pokieser

Martina Scharitzer

Renée Speyer

Virginie Woisard

Who is the course suitable for?

Health care professionals from the multi-disciplinary team of dysphagia management with interest in the interpretation and reporting of videofluoroscopic swallowing studies.

Format: Lectures, workshop, case presentations

Learning Outcomes

At the end of this course, participants will be able to

- Identify the anatomical structures and the signs and symptoms of dysphagia using VFSS in the adult population
- Recognize and understand the roles of MDT professionals in the conduct and analysis of VFSS
- Be aware of the technical basics, safety procedures and the requirements for performing VFSS in the adult population
- Interpret the normal and abnormal swallow response in VFSS and plan management accordingly
- Utilize VFSS assessment findings to inform clinical decision making.

The course is not intended to authorize participants to perform VFSS independently.

Onsite Program

DAY 1 TUESDAY				
TIME	DURATION	CONTENT	CONTENT DETAILS	WHO?
09.00	30	Welcome & Introduction	Introduction of participants (incl questionnaire experience)	Martina Scharitzer Virginie Woisard
09.30	30	General basics	Scope of VFSS; Indications + contraindications for VFSS, history taking in the MDT	Andrea Hofmayer
10.00	45	Normal I	Oral, pharyngeal and esophageal transit (including ageing)	Peter Pokieser Virginie Woisard
10.45	15	COFFEE		
11.00	45	Normal II	Norm data in the metrics (timing, space, velocity, flow variables)	Daniele Farneti
11.45	75	HANDS-ON I	HANDS ON: normal VFSS: oropharyngeal	Martina Scharitzer + faculty
13.00	45	LUNCH		
13.45	45	Tailored examination	Volumes, number of trials, consistencies, position of patient, measures	Renée Speyer
14.30	60	How I do it	How to do the investigation: the VFSS environment	Stefanie Duchac
15:30	15	COFFEE		
15.45	30	Tailored examination	Using protocols: pros and cons	Andrea Hofmayer
16.15	45	HANDS-ON II	normal VFSS: entire swallowing tract + individual variance	Peter + Martina + faculty
17:00		End of Day	Discussion, concluding remarks	Martina Scharitzer Virginie Woisard
DAY 2 WEDNESDAY				
TIME	DURATION	CONTENT	CONTENT DETAILS	WHO?
09.00	30	The diagnostic study	Pathology I: Oral and pharyngeal phase	Martina Scharitzer
09.30	75	HANDS-ON IV	Analysis of VFSS videos in <i>small groups</i> : oropharyngeal	Martina + Peter + faculty
10.45	15	COFFEE		
11.00	30	The diagnostic study	Pathology II: pharyngoesophageal segment + esophagus	Peter Pokieser Martina Scharitzer
11.30	60	HANDS-ON V	Analysis of VFSS videos in <i>small groups</i> : PES + esophageal + all phases combined	Martina + Peter + faculty
12.30	30	Therapeutic strategies	Protective, provocative and therapeutic strategies during VFSS	Andrea Hofmayer
13.00	45	LUNCH		
13.45	45	VFSS report	How to build a patient report based on VFSS (SLP & other health professionals) – MDT	Andrea Hofmayer + Martina Scharitzer
14.30	60	HANDS-ON VI	Analysis of VFSS videos in <i>small groups</i> – therapeutic strategies	Andrea + Stefanie + faculty
15:30	15	COFFEE		
15.45	45	HANDS-ON VII	Analysis of VFSS videos in <i>small groups</i> – complex cases (15 min each)	Europe Team + faculty
16.30	30	Conclusion	How to implement VFSS in your department	Stefanie Duchac
17:00		End of Day	Feedback	Martina Scharitzer Virginie Woisard

Pre-recorded lectures for online education prior to the onsite-course

VFSS - anatomical basics

VFSS – technical basics

and links to follow the webinars of the ESSD are accessible through <https://sites.google.com/view/w36s1ccs12g1ma8l6imwi32/>

Screening and assessment of oropharyngeal dysphagia	Renée Speyer
Fiberoptic Endoscopic Evaluation of Swallowing: Pathophysiological and clinical implications in the pediatric population	Daniele Farneti
Dysphagia and multiple etiologies	Eric Verin
Oropharyngeal dysphagia as a geriatric syndrome	Pere Clavé
Videofluoroscopy of multilevel swallowing disorders	Peter Pokieser
Videofluoroscopic diagnostic case studies: interactive work up	Peter Pokieser
Videofluoroscopy of multilevel swallowing disorders: case presentations	Peter Pokieser
Zenker diverticulum: diagnosis and treatment	Laura Baijens
FEES_Phenotypes of Neurogenic Dysphagia- Theoretical Background and Practical Considerations	Rainer Dziewas
