

Professor Susanne Scherrer received her D.D.S (1984), her doctorate (1986) and her Privat Docent (2003) from the University Clinics of Dental Medicine, University of Geneva, Switzerland. She is Full Professor and Head of Biomaterials within the Division of Fixed Prosthodontics-Biomaterials. Since 2022 she is serving as President of the University Clinics of Dental Medicine. She is a Fellow of the Academy of Dental Materials and the Academy of Prosthodontics and has served as President of the Academy of Dental Materials (2002-2004) as well as President of the Dental Materials Group of the IADR (2001-2002). In 2014 she was awarded the IADR-Distinguished Scientist Wilmer Souder Award from the IADR-Dental Materials Group. Her primary area of research and publishing involves dental ceramics, mechanical properties and failure analysis using fractography. As a clinician, she has worked from 1984 until 2015 in extramural family private practices half of her time.
