Regional Eastern Africa Fire Monitoring Resource

Center: the role of open access spatial tools for
stakeholder engagement in fire management

Rakoto Ratsimba H., Tahintsoa G. H., Raherinjatovoarison D., Rakotoarinivo
H. Z., Ratsimandresy R. N., Goldammer J. G.

REA-RFMRC GFMC

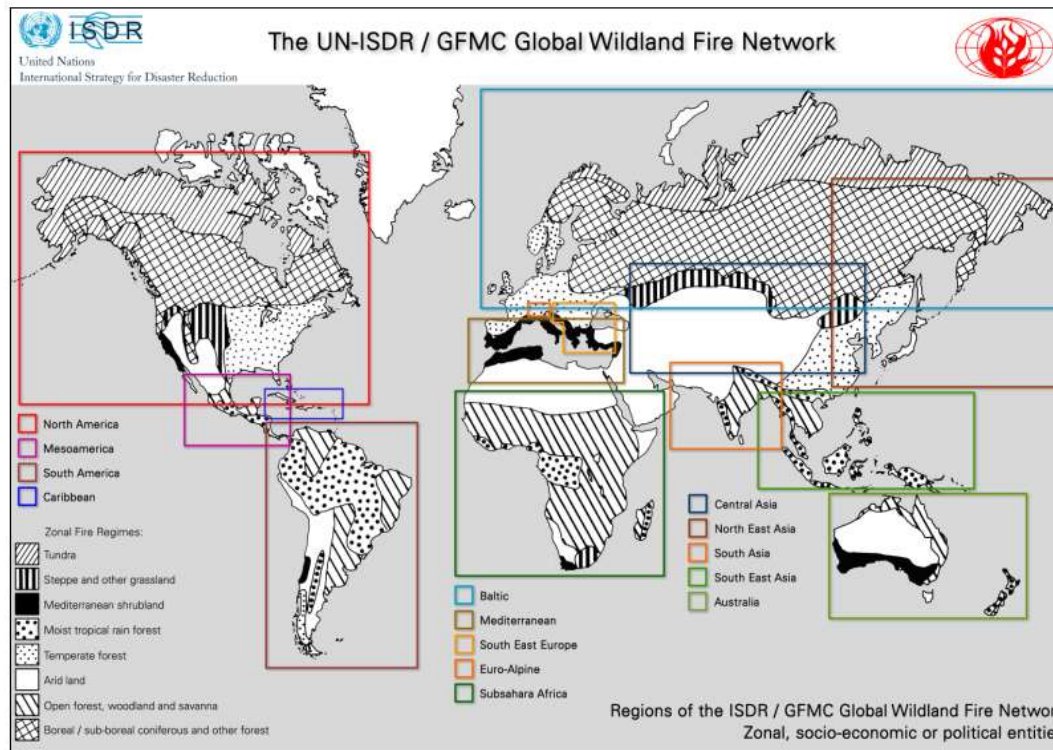

Regional Eastern Africa Fire Management Resource Center
(REA-FMRC)

- serving countries of East Africa: provisioning, archiving and interpreting scientific-technical information and satellite-derived near-real time and historic data on landscape fires
- to decentralize the role of the Global Fire Monitoring Center (GFMC) for an adapted response to the local, national and regional needs of stakeholders in fire management data.
- Specific geoportal
 - Madagascar
 - All eastern Africa countries

The screenshot shows the website for the Regional Eastern Africa Fire Management Resource Center (REAFMRC). The browser address bar shows the URL www.rfmrc-ea.org. The website header includes logos for UNDRR and REAFMRC, and navigation links for "About GFMC", "About REAFMRC", and "Global Cooperation". A red box highlights a menu with the following items: "1 Day Fire Danger Forecast", "Active Fire Data", and "Burned Area Monitoring". The main content area features the title "REGIONAL EASTERN AFRICA FIRE MONITORING RESOURCE CENTER (REAFMRC)" and a section titled "REAFMRC Mandates" with a paragraph of text and a bulleted list of three items. On the right side, there are logos for REAFMRC, "Global Fire EWS", and "GFMC ...News...". The bottom of the screenshot shows a Windows taskbar with the date 12/05/2023 and time 21:25.

- 1 Day fire forecast
- Active fire data
- Monthly burned area
- Annually burned area
- Archive starting from 2016
- On demand (near real time)
- At needed scale
