implementation of Commission Recommendation (EU) No. 2023/397 of February 17, 2023
regarding statistical standards of data and metadata.

Quality reports based on the European standard Single Integrated Metadata Structure (SIMS)

2023 - preparation has started, 29 quality reports have been prepared

2026 - quality reports are prepared for all state statistical observations

Documentation of the SSSU Quality Management System

in accordance with the ISO 9001:2015 Standard
«Quality management systems. Requirements»

The purpose of the System development is to create a concise, clear and accessible system that is convenient to be used for ensuring the quality of activities.

National activity model of the state statistics bodies

According to the Generic Activity Model for Statistical Organization (GAMSO)

SSSU website https://www.ukrstat.gov.ua/norm_doc/dok/onmd_ODS.pdf

The National activity model, the classifier of activities, contains:

X. X. X. X

X -

X -

X -

X -

level -

4 levels

process -

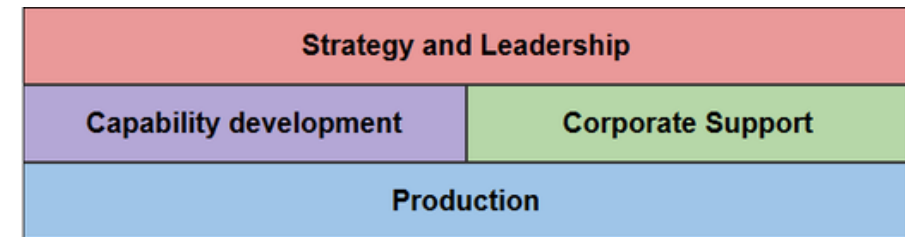

25 processes

subprocess -

100 subprocesses

activity -

265 works

The National model of the activity of the state statistics bodies

basis for the planning, analysis and monitoring of activities

The SSSU makes use of the National Activity Model to:

- ❖ Develop the Quality Management System documentation;
- ❖ Form the Technological Program of the State Statistical Observations;
- ❖ Analyze data of the Automated system of accounting for working time spent;
- ❖ Form the SSSU Activity Plan;
- ❖ Implement risk identification and assessment;
- ❖ Prepare the activity report;
- ❖ Make an inventory of the state statistical observations;
- ❖ Implement other activities

Commission for Coordination of Quality Management Activities of the SSSU

The SSSU permanent advisory body

The Commission composition includes the representatives of 10 SSSU functional and sectoral divisions.

As part of the SSSU planning, development and international cooperation department, the division for statistical activity **quality assurance is functioning.**

Basic documents of the SSSU quality management system

❖ **Quality policy in the state statistics bodies**

approved by SSSU Order No. 228 of 11/30/2016

❖ **Risk management policy**

developed as a result of cooperation with Statistics Norway,
approved by SSSU Order No. 402 of 12/17/2019

A standard framework for describing all SSSU activity processes

has been standardized in accordance with the ISO 9001:2015 Standard
«Quality management systems. Requirements».

The descriptions of all 25 processes have been prepared

For the National model of activity of the state statistics bodies according to the approved standard structure.

Technological maps of statistical production processes

8 processes Generic Statistical Business Process Model (GSBPM)

SSSU website - https://www.ukrstat.gov.ua/norm_doc/dok/tehn_map.htm

Questionnaire for monitoring activity quality indicators

to analyze the principles of the European Statistics Code of Practice

National statistical system

- SSSU
- Ministry of Finance
- National Bank

2022 – The Questionnaire has been used to prepare the action plan for the Program to Develop the Official Statistics until 2028.

Members of the national statistical system participate in the **inventory of the state statistical observations**.

The working group on making the inventory considers the issue related to compliance of the methodology for compilation of data from the state statistical observations with the the European Union aquis.

Action Plan to implement the European Commission recommendations

For the Ukraine's Progress Report within the framework of the 2023 EU Enlargement Package

- ❖ Implement the measures aimed at strengthening the institutional and administrative capacity of the SSSU, informing the Cabinet of Ministers of Ukraine about the results of their implementation;
- ❖ Increase the production and timely transfer of quality data to Eurostat.

SSSU measures to increase production of data transmission to Eurostat

- ❖ Improve the methodology of statistical data compilation in accordance with the European norms and standards;
- ❖ Get familiar with the list of indicators and tools for data transmission to Eurostat;
- ❖ Prepare the draft Law on amendments to the current legislation, according to which the respondents will be required to submit reports to the state statistics bodies during the period of martial law.

THANK YOU FOR YOUR ATTENTION
