

Metadata Integrated System in Eustat

Authors: M. Mas, M. Ayestaran. Eustat - Basque Statistics Office

CLASSIFICATIONS

For years, statistical procedures in **Eustat** has been documented by means of so-called **“Technical Projects”**.

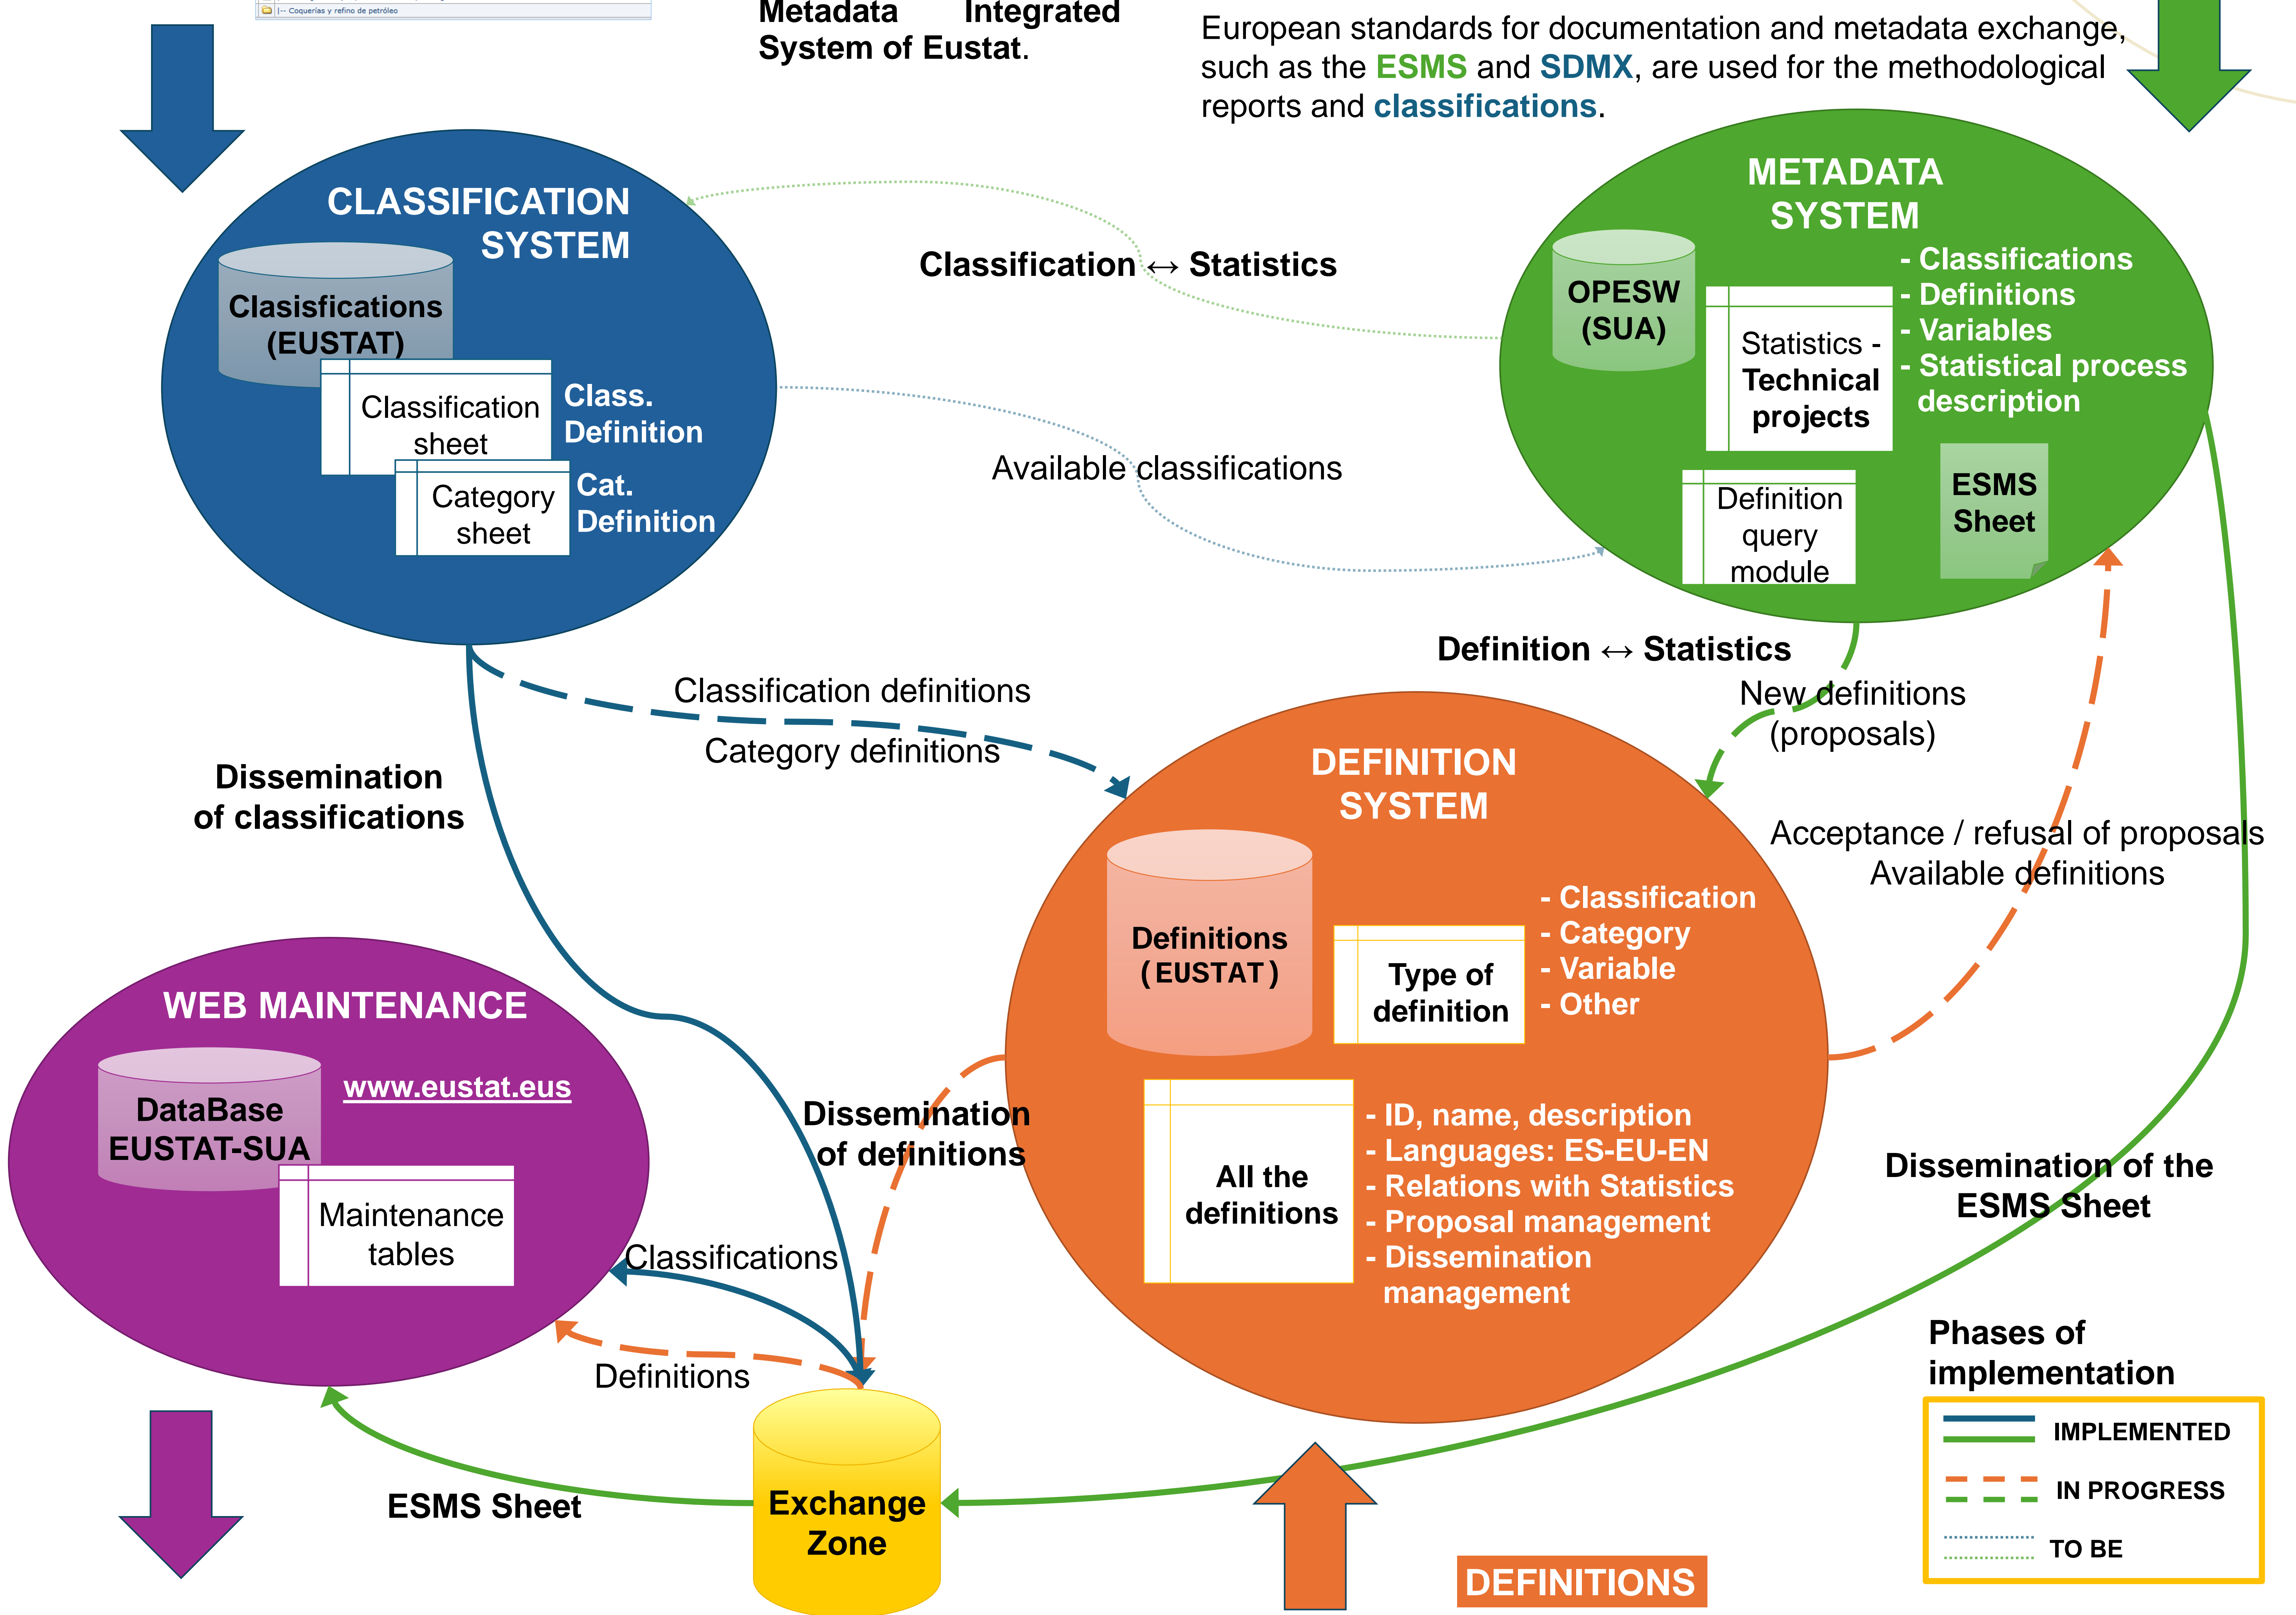

Those projects contain several data description products as **definitions**, **classifications**, and **methodological sheets**. All these elements are the basis of the current

DOCUMENTATION OF STATISTICS

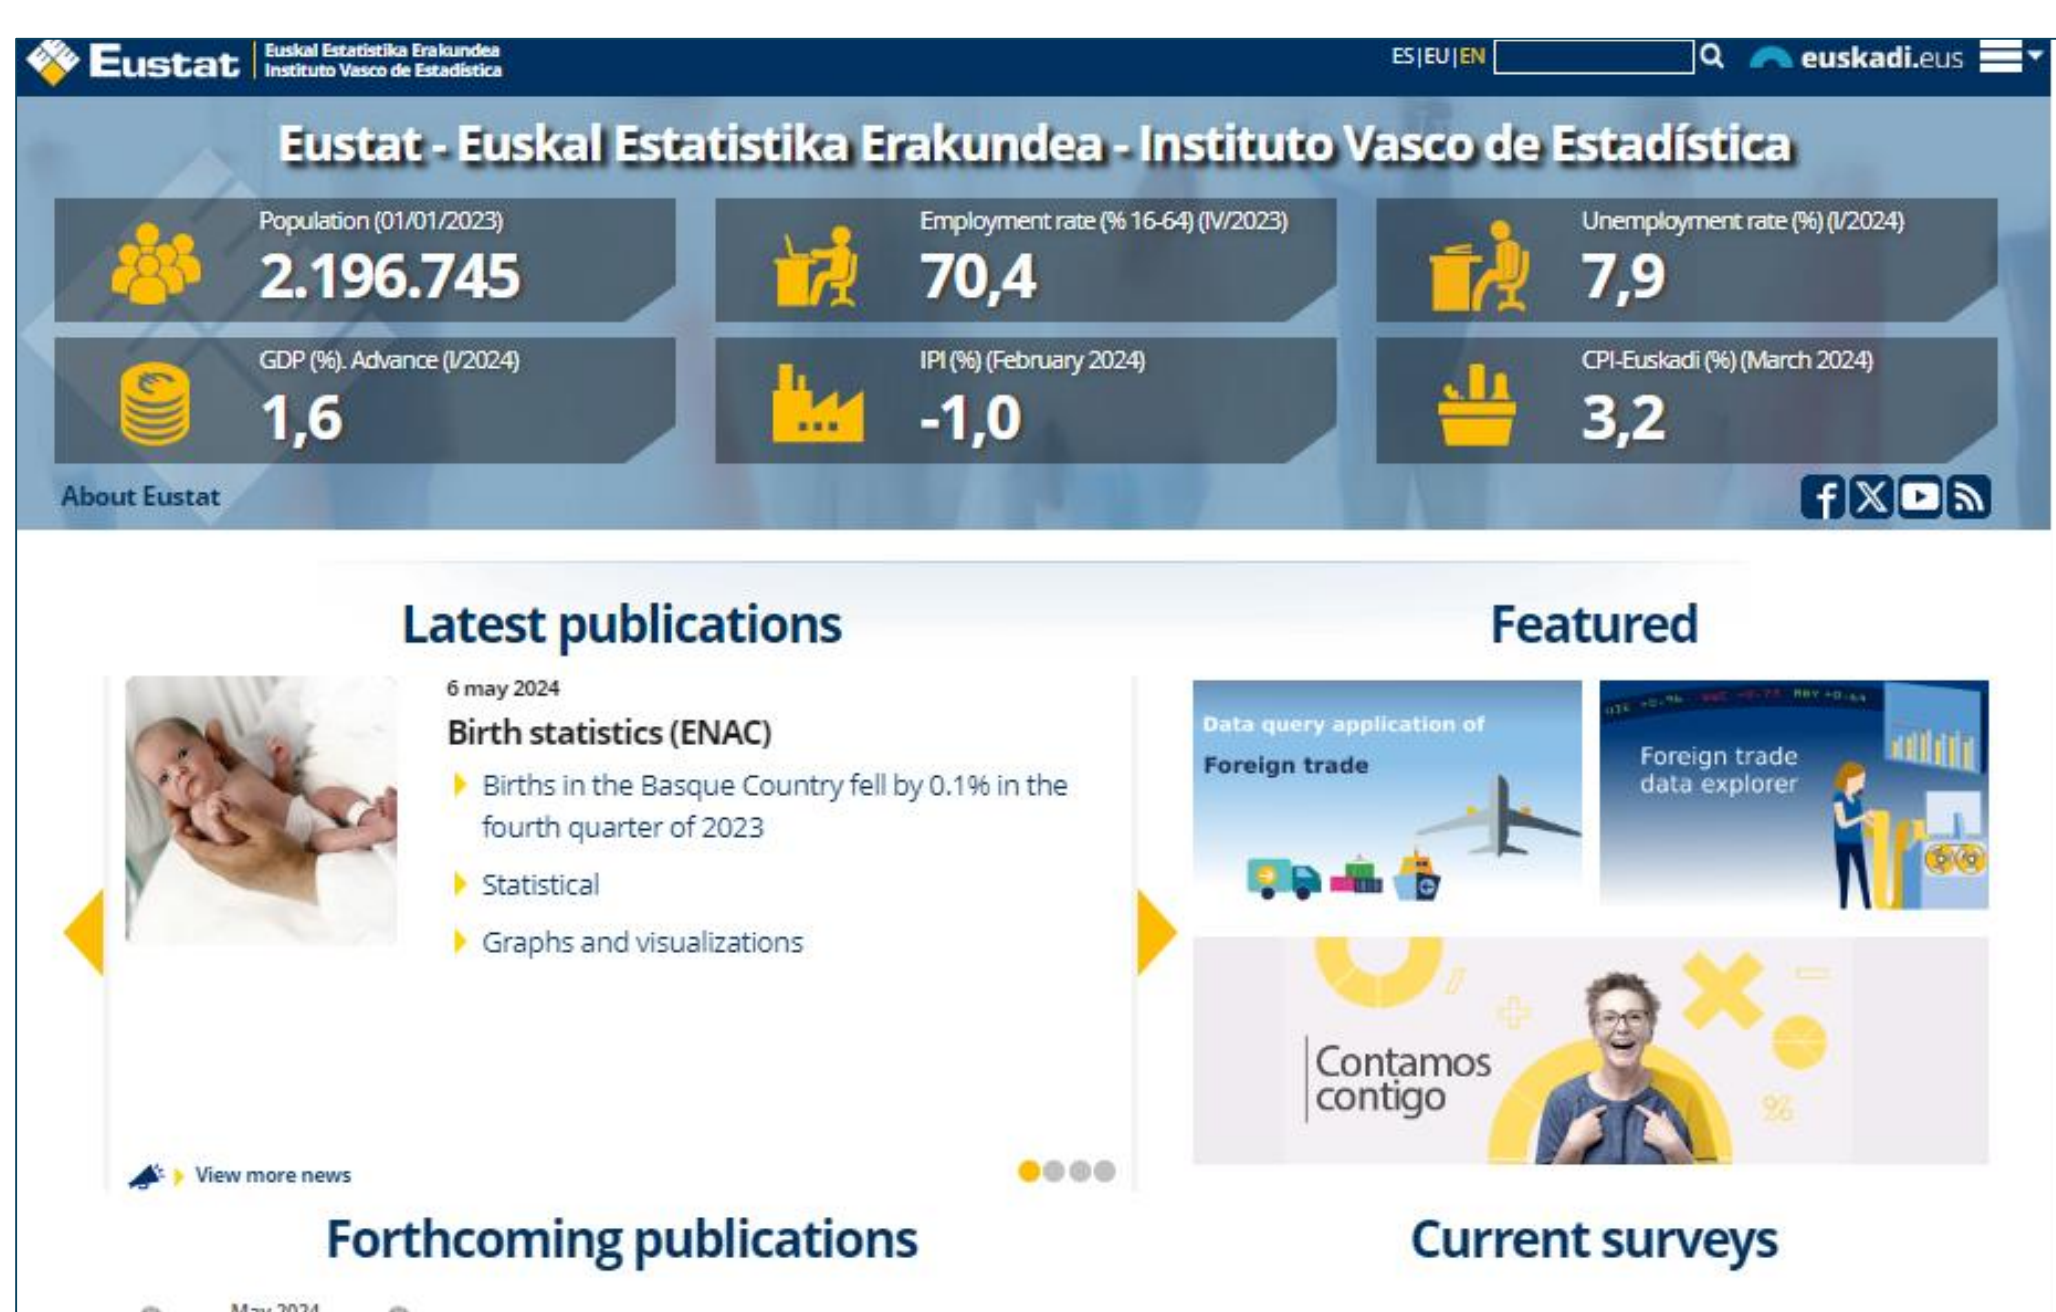

European standards for documentation and metadata exchange, such as the **ESMS** and **SDMX**, are used for the methodological reports and **classifications**.

Metadata Integrated System of Eustat.

www.eustat.eus

After a cleaning and standardisation process, the list of **concepts and definitions** used in each of the statistics will be available to statistics producers in order to promote **reuse** and **clarity**.

CNAE: National Classification of Economic Activities
ESMS: Euro SDMX Metadata Structure
SDMX: Statistical Data and Metadata Exchange
