

Challenges with implementing technologies in the Arctic

Sheila Christiansen

Co-founder & Chief Visionary Officer at Sheilex

Henrik Navntoft Sønderskov

Chief of Quantum at DeiC

SHEILEX

Grand solution visions and their obstacles in the Arctic.

Sheila M. S. Christiansen

Co-founder & Chief Visionary Officer at Sheilex

From problems and challenges to better scientific results.

Michael Linden-Vørnle

Astrophysicist and Chief Advisor at DTU Space

SHEILEX

The challenges in collecting data from the Arctic and how technology can help us solve common obstacles.

Alexandru Csete

Co-founder & Chief Technical Officer at Sheilex

Infrastructure and data needed to provide a backbone for implementation in the Arctic, and the problems implementing them.

Nanna Vangkilde

Founder of Green Vision IT
