

Transition to phase E2

Bjoern Frommknecht

EarthCARE mission manager

1st ESA-JAXA EarthCARE In-Orbit Validation Workshop

14 – 17 January 2025 | VIRTUAL EVENT

Transition to phase E2

Transition to E2 is practically completed:

- Flight control team in place
- Satellite maintenance in place
- Data processing in place
- Data quality (DISC) in place
- Science support in place
- Budget for nominal mission life time of 3 years (May 2027)
- Extensions subject to approval by EO programme board.
- Conservative life time estimate: 4 years minimum
