1

ISHA 2022 will be THE world meeting on hip arthroscopy and hip preservation for surgeons, scientists, researchers, allied health professionals, sports medicine professionals, physiotherapists and commercial organisations.

2

Face-to-face exposure, for the first time since 2019, with physiotherapy, sports injury and rehabilitation specialists as well as the physician community in one place.

3

Creates an opportunity to establish new relationships and catch up with existing customers.

4

ISHA 2022 will offer specific educational and hands-on practical skills training addressing Hip Injury and Return to Sport Rehabilitation from expert international instructors.

5

Provides your company and your products the visibility by supporting ISHA 2022, the premier international meeting dedicated to the latest practices for hip preservation and return to sport rehabilitation following hip injury.

Dear Industry Partners

We are delighted to invite you to join us as a partner for the physiotherapy and return to sport educational programme which will be held in conjunction with the 14th Annual Scientific Meeting of ISHA - The Hip Preservation Society (ISHA 2022), in Glasgow, UK. Due to the global Covid-19 pandemic, this is the first time since 2019 that international participants with an interest in hip preservation, hip injury rehabilitation and return to sport will be able to travel and come together to meet in person with local and national professionals, and participate in hands-on practical skills training at this premier international education programme focusing on hip rehabilitation.

The dedicated physiotherapy programme will be held alongside the ISHA 2022 Annual Scientific Meeting, enabling surgical and physiotherapy specialists to come together to discuss prevention and the importance of rehabilitation prior to and post hip surgery.

The physiotherapy focused educational programme will be held on Wednesday, 12 October 2022 at the Crowne Plaza Hotel Glasgow, adjacent to the Scottish Event Campus (SEC), which will be the host venue for the main ISHA 2022 Annual Scientific Meeting. The practical skills course will be held on Saturday, 15 October 2022 at a sports training facility within Glasgow.

Topics being addressed within the educational programme include:

- Extra-Articular Pathology of the Hip: Greater Trochanteric Hip Pain
- Extra-Articular Pathology of the Hip: Posterior Hip Pain
- Management Considerations with Dysplasia
- Rehabilitation Considerations about the Hip

The ISHA annual meeting is one of the most important and powerful concentrations of hip surgeons, hip preservation and rehabilitation professionals worldwide and constitutes a chance for bottom line networking and collaboration opportunities. The focused programme for the physiotherapy and rehabilitation community offers you an opportunity to engage specifically with the professional community that is of most relevance to you. It would be a great pleasure to welcome you amongst the supporters of ISHA 2022 Physiotherapy Programme in Glasgow and we look forward to discussing your requirements with you in the near future.

Warmest regards

Dr Allston Stubbs, MD
ISHA President 2021 - 2022

Dr Michael L. Voight, PT
ISHA 2022 PT Programme Co-Chair

Ass Prof Amir Takla, PT
ISHA 2022 PT Programme Co-Chair

Our Society has been the creation of many individuals, each united by a common interest in the expanding arena of hip preservation.

Officially formed in Paris (France) in May 2008, ISHA's Founding Members represent but a few of the many individuals around the world who are interested in this evolving area of hip surgery. At its outset, hip arthroscopy attracted the surgical and scientific innovator, the clinician with an eye for the unusual idea.

Instrumentation was often handmade and company support was lacking. Now, training courses around the world are frequently oversubscribed, peer-reviewed publications are increasing in number and hip arthroscopic surgery is well established.

Over the years since its conception ISHA has formed an active physiotherapy community, for physiotherapists and sports injury practitioners who work closely with the surgical community, to ensure that rehabilitation is an integral component of patient treatment plans to ensure optimum injury prevention and rehabilitation outcomes.

ISHA's role is to provide a focal point for its further development, to be a Society whose vision is to be the premier international society for education and research in arthroscopic hip surgery, with the ultimate objective of improving patient outcomes.

Cancellation & Refunds

Cancellation post contracting until 1st August 2022:

Cancellations and reductions will be subject to a 50% deduction of the total contracted costs and charges.

Cancellation after 1st August 2022:

Any cancellation or reduction after 1st August 2022 will be subject to 100% of the total contracted costs and charges.

Meetings & Social Activities

Sponsors must receive permission to hold any educational or social event (of any kind) taking place on the ASM meeting or shoulder dates in Glasgow. Please submit all requests to the ISHA Secretariat by 1st July 2022.

Display Activities

Sponsors with packages that include display tables are not permitted to broadcast audio from their display area. You may provide pop up display banners to sit adjacent to the display space provided. Equipment may not be demonstrated, or machinery utilized in such a way as to give off noxious odours, fumes, dust or other material.

The sponsor will be permitted to display only products that are suited for the uses suggested by the sponsor. Experimental products whose efficacy has not been determined or which are not commercially available will be permitted to be exhibited only when clearly identified as such.
