

# ISHA 2024 Annual Scientific Meeting

June 2024

Dear ISHA 2024 ICL Chairs,

Congratulations on having your ICL submission for the ISHA 2024 meeting in Washington DC accepted! This was a very competitive year for ICLs – with a record number of submissions, over 60 for around 20 sessions. We look forward to this session immensely at the annual meeting.

The ISHA Instructional Course lecture book (ISHA-ICLB) is a publication we would like to re-introduce for the ISHA 2024 Annual Scientific Meeting, as it is 6 years since we last published one and there have been lots of advances in best practice during the intervening years, so it would seem a good opportunity to produce an update. We hope that this year's ICL book will provide our attendees with the highlights of each of your highly rated and selected ICL sessions.

Our goal is to have this edited and available in time to have accessible and available to delegates in digital format in time for this year's Annual Meeting.

Our hope is that this will not be too onerous task a task for you as chair, but rather an opportunity for each ICL speaker to highlight the takeaway points from his/her talk. As session chair, we would ask that you engage with each of your session presenters to ask them to produce these highlights, and that you consolidate these into one summary for the session you are chairing. As Chair, we would also ask that you draft a short session introduction.

The electronically published ICL book will be an opportunity for you to share with the annual meeting attendees the comprehensive and up-to-date information you will be covered during this ICL session at the Annual Scientific Meeting. As such, our request is that this short write-up be submitted by Friday, September 6, 2024.

We are exploring the possibility of having the ICL book published as a supplement to JHPS, but this is still to be confirmed.

Please feel free to reach out to me or Caroline with any questions.

I look forward to seeing you in DC!
