## About ECHSA

---

The aim of the European Congenital Heart Surgeons Association ([www.echsa.org](http://www.echsa.org)) is to advance surgery for congenital heart defects, to improve the treatment of patients with congenital heart disease in Europe, and by all means promote the research and treatment related directly or indirectly to congenital heart diseases, irrespective of the patient's race, religion, origin, wealth, or other discriminative factors. For realization of this aim, the Association carries on research of surgery for congenital heart diseases, and organizes courses, seminars and conferences for congenital heart disorders. To support these ECHSA activities, the Association receives donations, grants and sponsorships.

## ECHSA Events

---

ECHSA organizes its Annual Scientific Meeting each Spring, and may also organize additional specialized courses and seminars. Every 4 years since 2004, ECHSA has been organizing a Joint Meeting with the Congenital Heart Surgeons' Society ([www.chss.org](http://www.chss.org)), which is ECHSA's "sister" association in the United States.

Traditionally, ECHSA Meetings were open only to the Members of the Association. However, since the 2017 Annual Meeting held in Leicester-UK onwards, all ECHSA Meetings are open to the entire congenital heart scientific community. This creates a unified platform for everyone involved in the care of patients with Congenital Heart Disease to participate and exchange experiences: cardiologists, cardiac surgeons, anesthetists, intensivists, pathologists, researchers, perfusionists, nurses and medical technicians, all are most welcome.

The Scientific program includes "best and worst" case presentations and discussions, surgical video sessions, pro and con controversy discussions, advanced clinical research presentations, specialized invited lectures, state-of-the-art symposia and industry workshops.

In response to increased demand for virtual educational programs, as the COVID pandemic remains an inhibitory factor for hosting physical events, the ECHSA set up a platform with its Secretariat, CONVIN SA, to host its events for as long as there are related restrictions. The platform, a state-of-the-art experience by itself, offered enhanced interaction opportunities and various branding and placement options. Through this platform, ECHSA has organized its 2021 and 2022 Annual Meetings in a virtual environment.

Time has now come for ECHSA to go back on track with live, face to face meetings. The 2026 ECHSA Annual Meeting will thus take place in Leuven, Belgium, at the The Irish College in full physical format. Information are posted on the meeting website <http://www.echsa2026.org/>, as well as on the ECHSA official website [www.echsa.org](http://www.echsa.org)

## ECHSA Leadership

---

The business of the Association is taken care by the **Board**, which is elected in the annual general meeting.

Operation of the ECHSA Congenital Database and coordination of ECHSA's research projects are handled respectively by the **Database Committee** and the **Research Committee**.

Membership and admissions to the Association is supervised by the **Membership Committee**.

<b>STS Representative:</b>	Jeffrey Jacobs (Gainesville FL, United States)
<b>AEPC Representative:</b>	Thomas Krasemann (Rotterdam, Netherlands)

## ECHSA Membership

ECHSA Members are distinguished pediatric heart surgeons from all over Europe and the world.

Membership is constantly expanding, representing more and more countries across the globe. At the moment, there are **122 members** from **34 countries**.

## ECHSA Contributors

In addition to the scientific meetings organized by ECHSA on a regular basis, the Association's contribution to the advancement of Pediatric Heart Surgery revolves around two major projects: **ECHSA Congenital Database (ECDB)** and **ECHSA Multi-Institutional Studies**.

ECHSA collaborates closely with the most significant scientific associations in the field of Congenital Heart Disease, with which joint meetings are frequently held:

- **CHSS** (Congenital Heart Surgeons' Society)
- **WSPCHS** (World Society for Pediatric and Congenital Heart Surgery)
- **AEPC** (Association for European Paediatric and Congenital Cardiology)

The official Journal of ECHSA is the **World Journal for Pediatric and Congenital Heart Surgery** (WJPCHS, <http://journals.sagepub.com/home/pch>), which is also the official journal of CHSS and WSPCHS.

### ECHSA Congenital Database

Participation in the ECHSA Congenital Database is a major benefit of Membership. An important aim of the founding members of ECHSA was to collect data on the outcomes of Congenital Heart Surgery procedures across Europe, thereby making possible comparison of results and identification of risk factors, as well as targeting research activities. This required good quality data obtained on a large scale from numerous European congenital cardiothoracic surgery units, as well as data validation and verification. Such data collection allows risk stratification and helps define optimal surgical treatment for certain subsets of patients. It is hoped that this effort will contribute to improved early and late survival, as well as improved quality of life for surgically treated patients with Congenital Heart Disease across Europe.

The European Congenital Heart Surgeons Foundation, which was established in 1992 and obtain legal entity as the European Congenital Heart Surgeons Association in 2003, created the European Congenital Heart Defects Database (ECHDD), precursor of today's ECHSA Congenital Database (ECDB).

Today, the immediate aim of the ECDB is to collect data relating to treatment of patients with congenital heart disease, including diagnoses, risk factors, surgical and other procedures, as well as early and, eventually, long-term outcome.

The ECDB is accessed on an Institutional Level, with an annual fee required. There are currently **410 registered centers from 86 countries**.

Further information and documentation are available at the dedicated ECHSA Congenital Database website <http://echsacongenitaldb.org/>

### ECHSA Multi-Institutional Studies

ECHSA Multi-Institutional Studies are planned and organized by initiatives from individual Members, and coordinated by the ECHSA Research Committee. The research plans are discussed, refined, approved, and their progress monitored at the Annual Meetings. They constitute an extremely powerful way of pooling together the experiences of a great number of centers on the treatment of important and often rare conditions. The ECHSA Multi-Institutional Studies have produced outstanding research papers, published in prestigious international peer-reviewed journals. There are always several ongoing multi-institutional studies, which, upon completion, will be presented at major scientific meetings and then submitted for publication.

Published and Ongoing Studies, as well as New Proposals and Ongoing Joint Studies are available on the ECHSA website <http://www.echsa.org/scientific-projects>

## Why sponsor ECHSA

**ECHSA is a fast-growing Association**, with members currently from 34 countries around Europe and across the globe. ECHSA Membership, Database Access, and Annual Meetings are receiving major recognition internationally, and are well sought after by medical professionals in the field of Congenital Heart Disease, and by related Industry.

The emergence of the **ECHSA Congenital Database** as the most important global Congenital Database, the **ECHSA Multi-Institutional Studies** which continue to be published in the most prestigious scientific journals in the field, and the newly open-to-all nature of **ECHSA's Annual Meetings**, all can promise Sponsors and Supporters of ECHSA effective exposure to the world of congenital heart disease and pediatric cardiac surgery.

Also, as of January 1, 2018, the **World Journal for Pediatric and Congenital Heart Surgery** is the Official Journal of ECHSA, which aligns the Association with both the Congenital Heart Surgeons' Society and the World Society for Pediatric and Congenital Heart Surgery, and reinforces ECHSA's collaboration with these sister Societies into the future.

Since 2016, CONVIN S.A. ([www.convin.gr](http://www.convin.gr)) has been assigned as core PCO of the Association, handling all its promotion, event management and administrative support; on behalf of the ECHSA Board, we will be happy to provide you with any information regarding levels and benefits of ECHSA Association Sponsorship.

Supporting Membership is granted to organizations showing interest in the Association and willing to support its goals, on a regular basis. Support Membership admission is to be decided exclusively by the Board.

### Sponsorship packages

Association sponsorship packages are offered as add-ons to the 2026 ECHSA Sponsorship opportunities. Please advise the appropriate section for benefits awarded per activity and level of support.

### Application for Sponsorship

Applications for Sponsorship must be made in writing using the enclosed Booking Forms, which should be sent at [sponsors@echsa2026.org](mailto:sponsors@echsa2026.org).

Please read carefully the Terms and Conditions applicable.

## ECHSA 2026 Meeting Guidelines

*In order to improve the organizing aspects of the Meeting and ensure the highest quality standards, the Professional Congress Organizer requires that the following guidelines are respected:*

- ▶ The technical services provided for all sessions of the ECHSA 2026 Annual Meeting will be managed by the official AV company; any other potential supplier proposed by the sponsoring companies will be taken into account only if the official AV company is unable to meet the same requirements.
- ▶ Communication agencies called to manage the exhibition or any other aspect of the Meeting on behalf of the sponsoring company, are requested to submit the draft project to the Professional Congress Organizer for final approval.
- ▶ The distribution of corporate promotional material is forbidden outside of the relevant area of the exhibition stand.
- ▶ All food & beverage services provided during the Meeting, in any area of the Venue, can be delivered only by the official supplier of the venue. Requests should always be made directly to the Professional Congress Organizer.
- ▶ All suppliers (of goods and services) must be provided for and approved by the Professional Congress Organizer.
- ▶ Use of the Meeting and/or Societies' logo is always, and in all cases subject to written approval by the Professional Congress Organizer (prior authorization of the ECHSA).

*All sponsoring companies are kindly requested to abide by the Guidelines listed above.*
