## Invitation from the EAPD Organizing Committee

Dear Sponsors & Exhibitors,

We are pleased to invite you to support the **4th EAPD Athena Master Class**, which will take place on **23–24 October 2026** in **Plovdiv, Bulgaria**.

This year’s scientific program, titled “**Compromised Teeth in Young Patients: Treat or Extract?**”, is designed as a high-level educational event aimed at young dentists from across Europe. The program brings together internationally recognized experts in paediatric dentistry and offers a comprehensive blend of lectures and hands-on clinical training.

The first day will feature lectures on key contemporary topics including minimal intervention dentistry, management of molar-incisor hypomineralisation (MIH), behavioural management techniques, and decision-making in restorative versus extraction approaches. Distinguished speakers from leading European institutions will deliver these sessions.

The second day is dedicated to intensive hands-on workshops focused on MIH molar restorations, providing practical training to a selected group of 50 participants. This interactive component ensures direct engagement with advanced clinical techniques and materials.

We anticipate strong participation from young professionals and members of the European Academy of Paediatric Dentistry, making this Master Class an excellent platform for visibility, networking, and meaningful engagement with the next generation of dental practitioners.

We would be honored to have your company as a sponsor of this educational initiative. Your support will contribute to the advancement of clinical knowledge and professional development in paediatric dentistry, while also offering valuable exposure for your brand among a targeted and highly relevant audience.

A detailed sponsorship package outlining the available opportunities and benefits is attached for your consideration. We would be happy to discuss a tailored collaboration that aligns with your organization’s goals.

Thank you for considering this opportunity. We look forward to the possibility of working together to make this event a success.

Yours sincerely,

On behalf of the Organizing Committee of the  
**4th EAPD Athena Master Class**

Prof. Sotiria Gizani

Prof. Norbert Krämer

## About ATHENA Project

The **ATHENA Project** is a distinguished educational initiative of the European Academy of Paediatric Dentistry, created to support the **continuous development of young and early-career paediatric dentists** across Europe. Built around a series of focused, high-level scientific events, **ATHENA offers a unique environment** where clinical knowledge is not only shared, but actively explored through discussion, case-based learning, and direct interaction with leading experts in the field.

What sets the **ATHENA Project apart is its intimate and highly specialized format**. Rather than large-scale congress settings, these meetings bring together a carefully selected audience of engaged clinicians, creating space for **meaningful dialogue, deeper understanding, and hands-on insights** into complex treatment approaches. This dynamic atmosphere encourages collaboration, critical thinking, and the practical application of evidence-based dentistry.

For sponsors, **ATHENA represents more than visibility**—it offers genuine connection. The format allows for direct engagement with a focused and influential professional audience, fostering stronger relationships and brand recognition within a niche yet impactful community. By supporting the ATHENA Project, partners align themselves with excellence, innovation, and the advancement of paediatric oral healthcare, contributing to the development of the next generation of dental professionals across Europe.
