Abstract from a first author in funded research time

The judges acknowledge that for some first authors, the abstract was written in funded research time. The first author must declare, when the abstract is submitted to UKBCG, whether or not the abstract was written in funded research time. To ensure that both type of author (funded or non-funded) is represented at the oral presentation section of the UKBCG Annual Meeting, a maximum of two (of the three) oral presentations will be of an abstract that was written in funded research time.

Acceptance categories:

All submitted abstracts will be reviewed by the Review Panel and then placed into one of the following categories:

1. Accepted for oral presentation + submission to Clinical Oncology online + (poster display + abstract printed in conference abstract booklet).

2. Rejected for oral presentation. Accepted for submission to Clinical Oncology online + (poster display + abstract printed in conference abstract booklet).
3. Rejected for oral presentation. Rejected for submission to Clinical Oncology online. Rejected currently for poster display/abstract booklet, but will be accepted for poster display, provided that the judges' comments are acted upon when the poster is designed. The abstract will not be included in the abstract booklet or submitted to Clinical Oncology. (Alternatively, depending on the preference of the author, abstracts in this category may be withdrawn from that year's meeting, re-written, then re-submitted to the following year's meeting).
4. Rejected for oral presentation. Rejected for submission to Clinical Oncology online. Rejected for (poster display + abstract printed in conference abstract booklet).
