

## About Lamboo Medical

We are a leading global provider of high-quality Mobile, Hybrid, and Relocatable Medical Accommodations. The family-owned company was founded in 1957 by Joost Lamboo. In 2019 the 3rd generation of Joost Lamboo had become the Director of Lamboo Medical. Our headquarters are located in Zoetermeer, The Netherlands.

### 1957

Joost Lamboo, the son and grandson of vehicle body sheet metal workers, started his coachwork factory in 1957.

### 1985

Lamboo Medical manufactured their first Mobile Mammography trailer for the Dutch government.

### 2003

Certification by OEM's and start production Mobile Medical Accommodations.

### 2004

Innovation design of the new glue machine to improve the quality of panel production.

**We believe that human health is the greatest good in our existence. That's why it is our mission to ensure quality healthcare for all.**

We demonstrate this by delivering self-sustaining mobile and relocatable health care centres to nearby hospitals and remote rural areas worldwide. Our clients use our mobile solutions to provide treatments and make diagnostics available closer to home and within the (government-mandated) waiting time limits.

**Officially certified for MRI, CT, PET/CT, Cath-Lab, and Digital mammography by all major OEM partners.**

## Our products

### MOBILE

Mobile solutions engineered with 30 years' experience with input from OEM, drivers, staff, and patients. This innovative leading approach is manufactured using our unique Lamboo Medical Sandwich Panels, making it the ideal solution for all climates worldwide.

**FULL CERTIFIED GLOBAL**

### HYBRID

Hybrid Solutions are developed for customers who use the accommodation between 3 and 6 months on-site. Hybrid systems eliminate the need for a crane on the ground floor and do not need a patient lift, allowing more convenience for both patients and workers.

**FULL CERTIFIED GLOBAL**

### RELOCATABLE

Relocatable solutions are a high-quality expansion for hospitals, adhering to all applicable building codes, including the relevant fire regulations.

**FULL CERTIFIED GLOBAL**
