Symposium Mammographicum 2025 will take place on the sunny south coast at the Bournemouth International Centre from Wednesday 9 – Friday 11 July 2025.

The conference and exhibition are at the leading edge of breast imaging technology. The programme reflects the unique multi-disciplinary nature of breast diagnostics and care and will be complemented by a large technical exhibition and hands-on workshops.

The event brings together Radiographers, Radiologists, Physicists, Mammographers, Breast Care Nurses, Breast Surgeons, Practitioners, Imaging Managers, Clinical Specialists, Technologists, Breast Clinicians and many other disciplines to examine topics at the forefront of breast imaging.

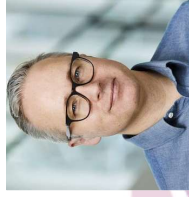

SPEAKERS INCLUDE

Giles Mastell
