

NUTRISON TUBE FEEDING PORTFOLIO

NUTRISON: PROVIDING LIFE SAVING NUTRITION
TO TUBE FEEDING PATIENTS FOR 50 YEARS

THE NUTRISON RANGE

The Nutrison range was first established in 1970 so Nutricia has been providing life saving nutrition to tube feeding patients for 50 years. We are proud of our scientific heritage and continue to adapt and improve our products to meet the needs of a wide variety of patients.

Nutricia offers a comprehensive and innovation tube feeding range intended for enteral nutritional support for those patients with a partially functional gastrointestinal tract who are unable or unwilling to eat sufficient quantities of foods to meet their nutritional requirements.

Nutrison is a Food for Special Medical Purposes (FSMP) for the dietary management of disease related malnutrition and must be used under medical supervision. All is packaged in a protective atmosphere.

Not all products are available in every region.
Please contact your local Nutricia team
for further information.

Nutrison Protein Intense

For the dietary management of disease related malnutrition in critically ill patients. High protein, nutritionally complete, ready to use, fibre free tube feed. Gluten and lactose free.

HIGH PROTEIN RANGE

Nutrison Protein Plus

For the dietary management of disease related malnutrition in patients with increased protein needs / metabolic stress. Nutritionally complete, ready to use, fibre free, high protein and DHA/EPA containing tube feed. Gluten and lactose free.

Nutrison Protein Plus Multi Fibre

For the dietary management of disease related malnutrition in patients with increased protein needs / metabolic stress. Nutritionally complete, ready to use, high protein and DHA/EPA containing tube feed. Gluten and lactose free.

Packaging	500 ml bottle 1000 ml bottle
Kcal per serving	126 kcal/100 ml
Protein	10 g/100 ml
Carbohydrates	10,4 g/100 ml
Fat	4,9 g/100 ml
Fibre	0 g/100 ml

Packaging	500 ml bottle 1000 ml bottle
Kcal per serving	125 kcal/100 ml
Protein	6,3 g/100 ml
Carbohydrates	14,2 g/100 ml
Fat	4,9 g/100 ml
Fibre	0 g/100 ml

Packaging	1000 ml bottle 500 ml plastic bottle
Kcal per serving	128 kcal/100 ml
Protein	6,3 g/100 ml
Carbohydrates	14,1 g/100 ml
Fat	4,9 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Protein Advance

For the dietary management of disease related malnutrition and with increased protein needs/metabolic stress. Nutritionally complete, ready to use, protein and fibre enriched tube feed. Gluten and lactose free.

HIGH PROTEIN RANGE

Nutrison Protein Plus Energy

For the dietary management of disease related malnutrition. Nutritionally complete ready to use, high protein, fibre free and DHA/EPA containing tube feed. Gluten and lactose free.

Nutrison Protein Plus Energy Multi Fibre

For the dietary management of disease related malnutrition. High protein, nutritionally complete, ready to use, fibre containing tube feed. Gluten and lactose free.

Packaging	500 ml bottle
Kcal per serving	128 kcal/100 ml
Protein	7,5 g/100 ml
Carbohydrates	15,4 g/100 ml
Fat	3,7 g/100 ml
Fibre	1,5 g/100 ml

Packaging	500 ml bottle 1000 ml bottle
Kcal per serving	150 kcal/100 ml
Protein	7,5 g/100 ml
Carbohydrates	16,9 g/100 ml
Fat	5,8 g/100 ml
Fibre	0 g/100 ml

Packaging	500 ml bottle 1000 ml bottle
Kcal per serving	153 kcal/100 ml
Protein	7,5 g/100 ml
Carbohydrates	16,9 g/100 ml
Fat	5,8 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Peptisorb Plus HEHP

For the dietary management of disease related malnutrition in patients with malabsorption and/ or maldigestion. Peptide based, nutritionally complete, ready to use, high energy, high protein tube feed. Gluten and lactose free.

A food for special medical purposes for the dietary management of disease related malnutrition in patients with malabsorption and/or maldigestion requiring a hydrolysed or semi -elemental enteral tube feed.

Packaging	500 ml bottle 1000 ml bottle
Kcal per serving	150 kcal/100 ml
Protein	7,5 g/100 ml
Carbohydrates	18,7 g/100 ml
Fat	5,0 g/100 ml
Fibre	0,28 g/100 ml

Available from June 2020

Nutrison Peptisorb

For the dietary management of disease related malnutrition in patients with severe impairment of digestion and/or absorption. Peptide based, nutritionally complete, ready to use, low fat, fibre free tube feed. Gluten free.

A food for special medical purposes for the dietary management of disease related malnutrition in patients with malabsorption and/or maldigestion requiring a hydrolysed or semi -elemental enteral tube feed.

Packaging	1000 ml bottle 500 ml plastic bottle
Kcal per serving	100 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	17,6 g/100 ml
Fat	1,7 g/100 ml
Fibre	0 g/100 ml

Nutrison Peptisorb Powder

For the dietary management of disease related malnutrition in patients with severe impairment of digestion and/or absorption. Peptide based, nutritionally complete, ready to use, low fat, fibre free tube feed. Gluten free.

A food for special medical purposes for the dietary management of disease related malnutrition in patients with malabsorption and/or maldigestion requiring a hydrolysed or semi -elemental enteral tube feed.

Packaging	4 x 125g box
Kcal per serving	100 kcal/100 ml
Protein	3,6 g/100 ml
Carbohydrates	17,6 g/100 ml
Fat	1,7 g/100 ml
Fibre	0 g/100 ml

Nutrison Diason

For the dietary management of disease related malnutrition in patients with diabetes mellitus or Hyperglycaemia. Nutritionally complete, ready to use, fibre enriched tube feed, clinically proven to reduce post prandial glycaemia and HbA1c compared to standard formulas in short and long term respectively. Gluten and lactose free.

Packaging	500 ml bottle 1000 ml bottle 500 ml plastic bottle tetrapak
Kcal per serving	103 kcal/100 ml
Protein	4,3 g/100 ml
Carbohydrates	11,3 g/100 ml
Fat	4,2 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Diason Low Energy

For the dietary management of disease related malnutrition in patients with diabetes mellitus or hyperglycaemia. Low energy, nutritionally complete, ready to use, fibre enriched tube feed, clinically proven to reduce post prandial glycaemia and HbA1c compared to standard formulas in short and long term respectively. Gluten and lactose free.

Packaging	1000 ml pouch
Kcal per serving	78 kcal/100 ml
Protein	3,2 g/100 ml
Carbohydrates	8,4 g/100 ml
Fat	3,2 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Diason Energy HP

For the dietary management of disease related malnutrition in patients with diabetes or hyperglycemia with higher energy and protein needs. Nutritionally complete, ready to use, high protein and fibre containing tube feed. Gluten and lactose free.

Packaging	1000 ml bottle 500 ml plastic bottle
Kcal per serving	150 kcal/100 ml
Protein	7,7 g/100 ml
Carbohydrates	11,7 g/100 ml
Fat	7,7 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Cubison

PRESSURE ULCERS OR CHRONIC WOUNDS

For the dietary management of disease related malnutrition in patients with pressure ulcers or chronic wounds. Protein and arginine rich, nutritionally complete, ready to use, fibre enriched tube feed. Gluten and lactose free.

Packaging	1000 ml bottle 500 ml plastic bottle
Kcal per serving	104 kcal/100 ml
Protein	5,5 g/100 ml
Carbohydrates	12,5 g/100 ml
Fat	3,3 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Soya

COW'S MILK PROTEIN ALLERGY

For the dietary management of disease related malnutrition in patients with cow's milk protein allergy. Soy based, nutritionally complete, ready to use, fibre free tube feed. Gluten and lactose free. Milk protein free.

Packaging	500 ml bottle 1000 ml bottle 500 ml plastic bottle
Kcal per serving	100 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	12,3 g/100 ml
Fat	3,9 g/100 ml
Fibre	0 g/100 ml

Nutrison Soya Multi Fibre

For the dietary management of disease related malnutrition in patients with cow's milk protein allergy. Soy based, nutritionally complete, ready to use, fibre containing tube feed. Gluten and lactose free. Milk protein free.

Packaging	1000 ml bottle 1500 ml bottle
Kcal per serving	100 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	12,3 g/100 ml
Fat	3,9 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Low Sodium

SODIUM RESTRICTED DIET

Nutrison Low Sodium is for the dietary management of patients requiring a sodium restricted diet. Low sodium, nutritionally complete, ready to use, fibre free tube feed. Gluten and lactose free.

Packaging	1000 ml bottle 500 ml plastic bottle
Kcal per serving	100 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	12,3 g/100 ml
Fat	3,9 g/100 ml
Fibre	0 g/100 ml

Nutrison MCT

FAT MALABSORPTION AND/OR MALDIGESTION

For the dietary management of disease related malnutrition in patients with fat malabsorption and/or maldigestion. High MCT, nutritionally complete, ready to use, fibre free tube feed. Gluten and lactose free.

Packaging	500 ml bottle 1000 ml bottle 500 ml plastic bottle
Kcal per serving	100 kcal/100 ml
Protein	5 g/100 ml
Carbohydrates	12,6 g/100 ml
Fat	3,3 g/100 ml
Fibre	0 g/100 ml

Nutrison Concentrated

FLUID RESTRICTION

For the dietary management of disease related malnutrition in patients with severe fluid restriction. Nutritionally complete in a low volume. Gluten and lactose free.

Packaging	500 ml bottle
Kcal per serving	200 kcal/100 ml
Protein	7,5 g/100 ml
Carbohydrates	20,1 g/100 ml
Fat	10 g/100 ml
Fibre	0 g/100 ml

Nutrison 800 Complete Multi Fibre

For the dietary management of disease related malnutrition in patients with low energy and /or low fluid requirements. Nutritionally complete in one litre ready to use fibre and DHA/EPA containing tube feed. Gluten and lactose free.

Packaging	1000 ml bottle
Kcal per serving	83 kcal/100 ml
Protein	5,5 g/100 ml
Carbohydrates	8,8 g/100 ml
Fat	2,5 g/100 ml
Fibre	1,5 g/100 ml

Nutrison 1000 Complete Multi Fibre

For the dietary management of disease related malnutrition in patients with lower energy and /or fluid needs. Nutritionally complete in one liter, ready to use, fibre and DHA/EPA enriched tube feed. Gluten and lactose free.

Packaging	1000 ml bottle
Kcal per serving	104 kcal/100 ml
Protein	5,5 g/100 ml
Carbohydrates	11,3 g/100 ml
Fat	3,7 g/100 ml
Fibre	2 g/100 ml

Nutrison 1200 Complete Multi Fibre

For the dietary management of disease related malnutrition in patients with lower energy and/ or fluid needs. Nutritionally complete in one liter, ready to use, fibre and DHA/EPA containing enriched tube feed. Gluten and lactose free.

Packaging	1000 ml bottle
Kcal per serving	124 kcal/100 ml
Protein	5,5 g/100 ml
Carbohydrates	15 g/100 ml
Fat	4,3 g/100 ml
Fibre	2 g/100 ml

Nutrison

For the dietary management of disease related malnutrition in patients requiring enteral nutrition. Nutrison is a nutritionally complete (1 kcal/ml), ready to use, fibre free tube feed. Gluten and lactose free.

Packaging	500 ml bottle 1000 ml bottle 500 ml plastic bottle
Kcal per serving	100 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	12,3 g/100 ml
Fat	3,9 g/100 ml
Fibre	0 g/100 ml

Nutrison Powder

For the dietary management of malnutrition and disease related malnutrition. Nutritionally complete oral and tube feed. Gluten, lactose and fibre free. Not suitable for patients with galactosaemia.

Packaging	430 g tin 860 g tin
Kcal per serving	99 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	12,1 g/100 ml
Fat	3,9 g/100 ml
Fibre	0 g/100 ml

Nutrison Multi Fibre

For the dietary management of disease related malnutrition in patients requiring enteral nutrition. High energy, nutritionally complete, ready to use, fibre and DHA/EPA enriched tube feed. Gluten and lactose free.

Packaging	500 ml bottle 1000 ml bottle 1500 ml bottle 500 ml plastic bottle
Kcal per serving	103 kcal/100 ml
Protein	4 g/100 ml
Carbohydrates	12,3 g/100 ml
Fat	3,9 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Low Energy Multi Fibre

For the dietary management of disease related malnutrition and malnutrition risk in patients with lower energy needs. Nutritionally complete, low energy, ready to use, fibre enriched tube feed. Gluten and lactose free.

Packaging	1000 ml bottle 500 ml plastic bottle
Kcal per serving	78 kcal/100 ml
Protein	3 g/100 ml
Carbohydrates	9,2 g/100 ml
Fat	2,9 g/100 ml
Fibre	1,5 g/100 ml

Nutrison Energy

For the dietary management of disease related malnutrition in patients with higher energy needs. High energy, nutritionally complete, ready to use, DHA/EPA containing, fibre free.

Packaging	500 ml bottle 1000 ml bottle 500 ml plastic bottle
Kcal per serving	150 kcal/100 ml
Protein	6 g/100 ml
Carbohydrates	18,3 g/100 ml
Fat	5,8 g/100 ml
Fibre	0 g/100 ml

Nutrison Energy Multi Fibre

For the dietary management of disease related malnutrition in patients with higher energy needs. High energy, nutritionally complete, ready to use, fibre and DHA/EPA enriched tube feed. Gluten and lactose free.

Packaging	500 ml bottle 1000 ml bottle 1500 ml bottle 500 ml plastic bottle
Kcal per serving	153 kcal/100 ml
Protein	6 g/100 ml
Carbohydrates	18,4 g/100 ml
Fat	5,8 g/100 ml
Fibre	1,5 g/100 ml

ADDITIONAL FLUID REQUIREMENTS

Nutrison Sterile Water

For the dietary management of patients with disease related malnutrition requiring additional fluid during enteral tube feeding.

Packaging	1000 ml bottle
Kcal per serving	0 kcal/100 ml
Protein	0 g/100 ml
Carbohydrates	0 g/100 ml
Fat	0 g/100 ml
Fibre	0 g/100 ml

OPTRI BOTTLE

THE WINNER OF MULTIPLE INTERNATIONAL PACKAGING AWARDS

At Nutricia we are committed to rethink tube feeding, as we understand the impact tube feeding can have. Therefore, we constantly seek advice from experts like you, to create solutions to make tube feeding better.

We talked and listened to parents, carers, patients, nurses and dieticians before developing the OpTri bottle. We transformed those ideas into a checklist for the new design. The result is a multi award winning bottle design that is better for safety and better for the planet.

DESIGNED FOR BETTER SAFETY.

- **Non-detachable, flip-top cap:**

- Perceived by HCPs as more hygienic than screw on cap, as it requires less contact with the bottle when opening
- Cap stays attached to bottle, avoiding contact with surfaces and preventing contamination when re-used²
- Avoids the risk of choking on a small, loose cap, especially for pediatric patients

- ISO compliant connection safeguards patients from the risk of accidental misconnections with other delivery systems, especially IV. The connection **spout also has a small surface area**, reducing the risk of contact-based contamination

- System is **closed**, therefore preventing contamination through handling.

System is non-venting and non-air-dependent, reducing the risk of air or environmental contamination

DESIGNED FOR A BETTER PLANET.

- Manufactured with 85% less water compared to the previous pouch production process (based on expected production volumes)

- *This is the equivalent of 55 Olympic size swimming pools per year*

- Manufactured using **21% less CO₂ emissions** compared to the previous pouch production process (based on expected production volumes)

- **Recyclable**

- **Reclaimable:** waste plastic from the **the OpTri bottle** production process is reused and re-integrated into the manufacturing process

DESIGNED WITH EXPERTS. YOU.

1. Statistics & testimonials taken from independent market research carried out between 2013 & 2015 with 401 HCPs (nurses and dietitians), patients, carers & buyers in 7 EU countries.
2. Handling instructions: "When connected to the giving set (aseptically handled, closed system) this bottle has a hanging time of max. 24 hours. If the cap has been removed (used as an open system) then the bottle has a hanging time of max. 8 hours".
3. Independent medical device Bench Marking study by the Boston Consultancy Group in 2015.

WORLDSTAR
WINNER 2020

NUTRISON: PROVIDING LIFE SAVING NUTRITION TO TUBE FEEDING PATIENTS FOR 50 YEARS

Nutricia offers the optimal nutrition delivery package for tube feeding patients

4 P_S FOR THE BEST RESULTS...

PRODUCTS

A comprehensive range of well tolerated products fully in line with international guidelines

PUMP

The new Flocare Infinity III enteral feeding pump:
The next generation in customisable enteral feeding

PACKAGING

Multiple* award winning packaging designed for better safety, better usability and a better planet

PERFORMANCE

The NutrICalculator App calculates the optimal enteral feeding regimen

*Starpack Bronze Star Award, NL Packaging Awards Winner, The Packaging Innovation Awards Diamond Award Finalist, WorldStar Packaging Awards Winner
