Patient Awareness Campaign on Urinary Incontinence (UI)

17th September 2025 | 13:30 – 17:30 (GMT+4)

Mediclinic Airport Road Hospital, Abu Dhabi – UAE | Auditorium

ABOUT THE EVENT

This unique, patient-centered side event—held for the first time in the Middle East—focuses on **urinary incontinence (UI)** and its profound impact on individuals and communities. Organized by **WFIPP** and endorsed by **ICS-EUS 2025**, the session brings together international and regional experts, healthcare professionals, and patient advocates to foster awareness, reduce stigma, and promote culturally respectful care.

LEARNING OBJECTIVES

By attending this event, participants will be able to:

- Recognize the different types and causes of urinary incontinence and their impact on patients' lives.
- Understand the importance of accurate diagnosis and the range of treatment options available.
- Apply patient-centered care principles, including shared decision-making and culturally sensitive communication.
- Explore the latest research and innovations in UI management.
- Identify strategies to reduce stigma and raise awareness in diverse cultural contexts.
- Evaluate sustainable practices in continence care, especially in long-term care settings.

TOPICS COVERED

Understanding Urinary Incontinence: Types (SUI, OAB, Mixed UI), causes, and risk factors

- **Impact on Quality of Life:** Physical, emotional, and social consequences
- **Diagnosis & Treatment:** Importance of accurate diagnosis and individualized care
- **Patient-Centered Approaches:** Communication, shared decision-making, and flexible treatment strategies
- **Innovations in Care:** Latest research, medications, and therapies
- **Sustainability in Continence Care:** Absorbents, waste management, and long-term care
- **Cultural Sensitivity:** Addressing stigma and taboo in the Middle East
- **Patient Voices:** Real-life experiences and advocacy

PANEL DISCUSSION: “VOICES, VALUES, AND VISION IN CONTINENCE CARE”

This dynamic, broad-based panel will bring together clinicians, researchers, patient advocates, and caregivers to:

- Share real-world challenges and solutions in UI care
- Discuss the role of culture, stigma, and communication in patient outcomes
- Explore how to build trust and empathy in the doctor-patient relationship
- Highlight the importance of multidisciplinary collaboration
- Offer practical, regionally relevant strategies for improving continence care

The panel aims to spark meaningful dialogue and inspire action across the healthcare spectrum.

PROGRAM SCHEDULE

- 13:30 – 14:00** Registration
- 14:00 – 15:30** Speaker Presentations (4 speakers, 15 min each + Q&A)
- 15:30 – 16:00** Coffee & Refreshment Break
- 16:00 – 17:00** Panel Discussion
- 17:00 – 17:30** Wrap-up & Informal Gathering

EVENT CHAIR

- Prof. Mohsen Elmekresh**
Head of Urology and Men's Health Mediclinic Airport Road Hospital - UAE

FEATURED SPEAKERS & PANELISTS
