De-risk the Path to Better Product Compliance

Let Sphera Simplify Your Transition to a More Powerful Compliance Solution.

Sphera's Compliance Engine solution gives you powerful, purpose-built software that integrates with SAP EHS to enhance your SDS authoring capabilities. An SAP Silver Partner, Sphera is certified for both NetWeaver and S/4HANA.

If you're considering a move to Sphera's best-in-class solution, here's what you need to know.

The Sphera Difference: An Easier, De-risked Transition

Change isn't always easy, but Sphera brings simplicity, stability and deep SAP expertise to complex situations, whether you're carrying out a greenfield implementation or 3rd party transition.

Leveraging SAP EHS best practices, the Sphera team will help you:

- ✓ **Reduce risk by leveraging a proven & repeatable migration process**
- ✓ **Reduce complexity by de-customizing your environment**
- ✓ **Minimize the timeframe with parallel systems**
- ✓ **Map & cleanse your data**
- ✓ **Provide customized support through implementation & testing**
- ✓ **Lower your TCO by reducing complexity & ensuring your ability to upgrade down the line**

More Power and Information in Your Hands

With Sphera's Compliance Engine, you're in total control.

FLEXIBILITY:
Tailor authoring rules to your interpretations & needs, or to updated standards during transitions, giving you greater agility and reducing the cost of changes.

MAINTAIN CONTROL:
Monitor product information and review changes prior to committing the data to your system.

Sphera's Managed Regulatory Content Provides the Information you need.

To-the-minute knowledge of regulatory changes including updates on legislation and standards such as GHS, REACH, EU CLP.

Lists covering occupational exposure limits, inventory lists, carcinogen lists and other categories.

Robust rules, regulatory phrases and associated translations to ensure compliance of your SDS.

Sustainment Services for Business as Usual

When you have confidence in your compliance solution, you can focus on what you do best. Sphera's Sustainment Services give you that confidence.

Complete IT and project management support for software upgrades and data updates to support business operations continuity in an ever-changing regulatory landscape.

Unlimited 24/7 global customer service built on defined, mature service level agreements that keep customers running in the event of a crisis.

Engage with a Community of Experts

The Sphera Customer Network enhances your Compliance Engine experience. Connect with other users, access support and have a say in how content is updated and defined within the system.

Our partners-and-community approach allows Compliance Engine users to participate in reviews of upcoming regulations with Subject Matter Experts. Our process helps to promote a common interpretation and enables us to build solutions that meet our customer's needs.

The Sphera Customer Network also connects you with the community of Compliance Engine users, as well as around-the-clock customer support.

Contact Sphera to begin your path to better **Product Compliance.**
