

ULTRUS™ ChemADVISOR® for SAP® Product Compliance

Comprehensive SDS authoring content for SAP® Product Compliance: including global regulatory data, GHS templates, expert rules and phrases

UL Solutions has developed a comprehensive content offering for the SAP® Product Compliance module with Helasoft, an official SAP service provider.

Navigating today's global market is riskier and more challenging than ever. Accelerating innovation, complex regulations and proactive risk mitigation require exceptional data management. Companies need trusted regulatory insight to protect their customers, workforce, brand and the environment.

The ULTRUS™ platform from UL Solutions provides the expert rules, templates, phrases and data you need for SDS authoring via our ChemADVISOR® database.

GHS templates, expert rules and phrases

Over 8,000 regulatory lists

Half a million substances

130+ countries

48 languages

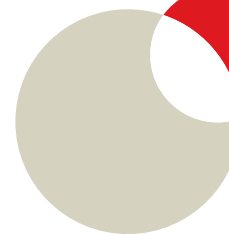

HELASOFT
We deliver expertise

Leverage the trusted regulatory content of ULTRUS ChemADVISOR®

- Robust data collection and management processes for superior quality
