Welcome

Innovative – Resilient – Sustainable: The Energy Industry of the Future

The Energy industry is transforming to balance energy security with sustainability and affordability, driven by stakeholder demands for low-to-no carbon systems and improved ESG performance. 2022 marked a dramatic change in the perception of the market: the provisioning of reliable and affordable energy is essential for the economy and preserving the living standards of our communities. Disrupted supply chains and surging demand for LNG and fuels have led to unknown price dynamics and discussions about the industry's future.

The energy product portfolio is diversifying with LNG, hydrogen, alternate fuels, renewables, CO_2 capture services and more. The industry needs to transition by providing the capability to simulate and optimize their supply chain and operations, manage both their carbon footprint to produce new products, and manage the carbon intensity of the products themselves. As an industry, we need to provide the opportunity for energy businesses to adapt, shape new alliances with other sectors and remain resilient.

The 2023 **International SAP Conference for Energy** marks these recent changes, with a shift towards sustainability, process efficiency, resiliency, and security at the heart of our agenda. We welcome you to Basel for strategic discussions with select industry experts, solution demos, group discussions, and peer networking.

The International SAP Conference for Utilities will take place in parallel – allowing attendees to benefit from a wider pool of use cases and expert insights. End-to-end processes from the reservoir to the meter, new processes for electrified mobility, and sustainability solutions along the entire value chain are just some of the synergies we will explore.

We invite you to take advantage of this unique opportunity to hear brand new customer use cases from across the world, along with inspiring talks from game changers, expert advice, an improved pre-conference day and, just as important, we hope you get to chance to catch up with old friends, meet new friends, grow your network, learn from your peers, and have fun!

Benjamin Beberness
Vice President and Global Head, Oil, Gas, and
Energy Industry Business Unit

Pre-Conference Day (Sold Out)
Tuesday 18 April, 2023

Our Pre-Conference Day is designed for individuals seeking a deeper understanding of specific SAP solutions ahead of the main conference. If you are new to the world of SAP, planning for a new project, or looking to maximize your existing IT landscape and get the most out of the infrastructure you already have, then this is perfect for you.

To ensure our attendees can fully maximize this learning experience and have enough time with our SAP experts, participants will register for a full day of content alongside the attendees of the co-located International SAP Conference for Utitlies. The fee to attend the Pre-Conference Day is € 800 + VAT. Below you can find a breakdown of what you can expect:

Location: Basel Marriott Hotel (Nextdoor to Congress Center Basel)

08:30 – 09:00: Welcome Refreshments and Briefing

Start your day by meeting with other attendees and presenters during our informal morning refreshments.

09:00 – 12:30: Deep Dive Workshops

Attendees are required to pre-book one of our five parallel workshops. Focusing on core SAP pillars, you will have the opportunity to hear detailed insights directly from SAP including the latest updates on solution releases, implementation tips and tricks, and best practice guidance:

- Workshop 1: Deep Dive – SAP Utilities Core and SAP S/4HANA ***SOLD OUT***
- Workshop 2: Deep Dive – SAP for Oil, Gas & Energy ***SOLD OUT***
- Workshop 3: Deep Dive – Close the Loop from Asset Investment Planning, Engineering, Master Data, and Maintenance Strategy to Execution ***SOLD OUT***
- Workshop 4: Deep Dive – SAP Service Cloud V2 and an SAP CX for Utilities Overview ***SOLD OUT***
- Workshop 5: Deep Dive – Smart Metering, Energy Management, and Distributed Energy Resources ***SOLD OUT***

12:30 – 13:15: Networking Lunch

13:15 – 16:45: Open Door Sessions (Two Rounds)

Pre-Conference Day (Sold Out)
Tuesday 18 April, 2023

Following lunch, we will have two rounds of interactive sessions focusing on industry hot topics. With an open-door policy, you don't need to worry about pre-booking, you'll have the option to pick-and-choose the sessions you would like to attend on the day.
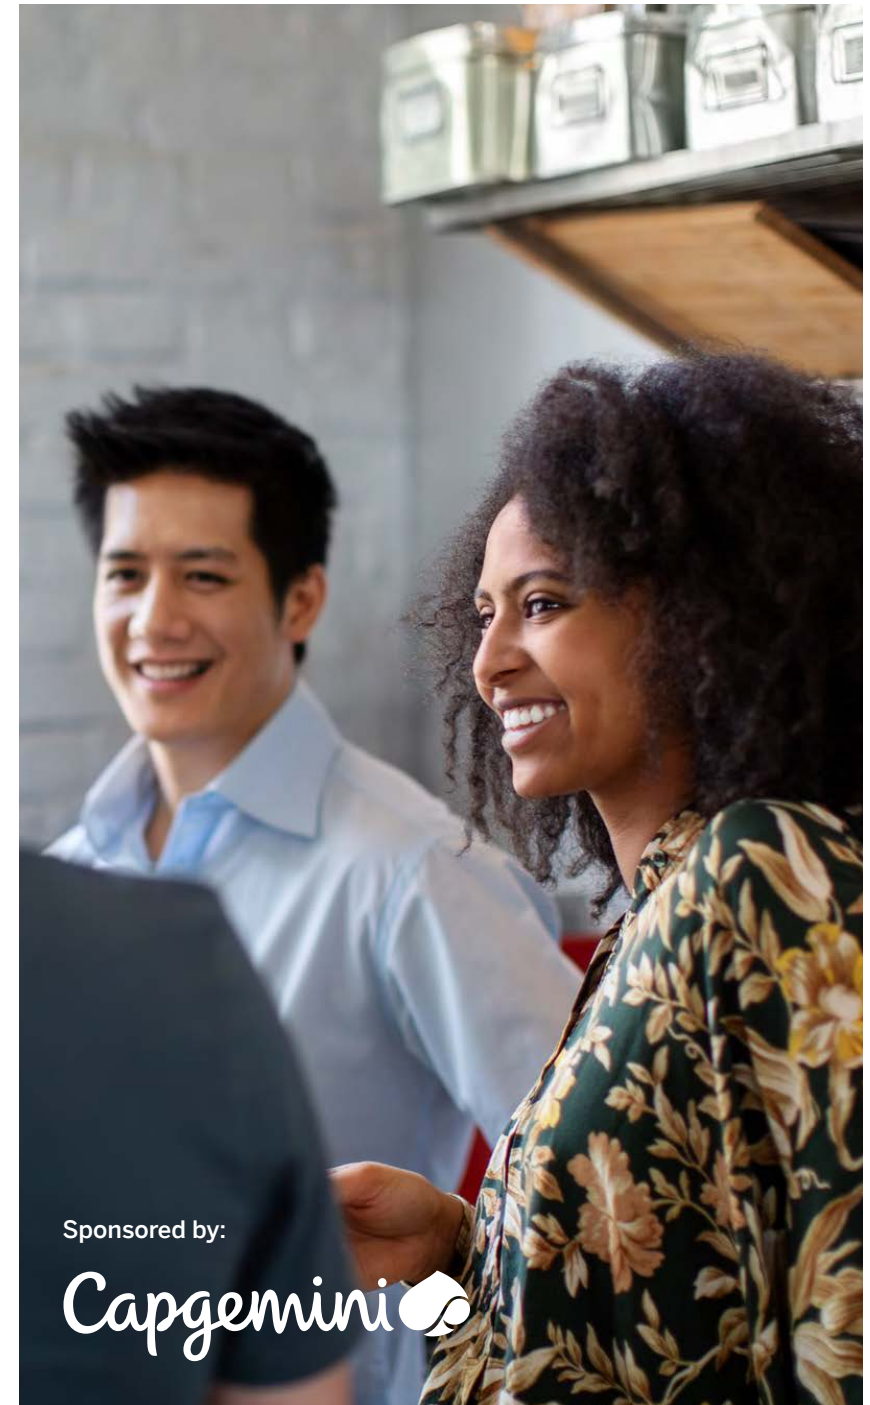

13:15 – 14:45 – Round One
- Accelerate Your Business Transformation with SAP Signavio
- Business Models in E-Mobility
- Diving Deep into Smart Water
- Implement Holistic Steering and Reporting with SAP Sustainability Control Tower to Transform Your Business
- Scheduling and Dispatch for the Modern Utility and Energy Industries

15:15 – 16:45 – Round Two
- SAP Industry Cloud for Utilities
- SAP Industry Cloud for Oil, Gas, and Energy
- SAP Sustainable Procurement
- SAP S/4HANA Transformation – Creating Value Through Digital Transformation
- Driving Innovations with SAP Business Technology Platform

17:30 – 19:00: Evening Drinks Reception
Sponsored by Capgemini, we invite delegates to kick-off the main conference by joining us for welcome drinks on the evening of
Tuesday 18th April. Whether you are looking to relax after participating in the Pre-Conference Day, or following a day of traveling
into Basel, this is your opportunity to unwind and connect with other attendees.

2023
Keynote Speakers

Our keynote presentations in Basel will be zeroing in on some of the biggest challenges currently facing the utility and energy sectors. We'll be exploring how to re-imagine leadership in order to accelerate new business models, identifying ways businesses can attract and inspire the future workforce, cementing the role that sustainability will play in empowering the future energy transition, and much more.

Wednesday 19 & Thursday 20, 2023

EVENING EVENT

We are delighted to be co-located with International SAP Conference for Utilities again. To celebrate, join us at the Altes Kraftwerk, a historic power plant built in 1895. This one-of-a-kind location is in the middle of a lively urban district unique to Basel. You'll have the opportunity to enjoy delicious food, great drinks, and music! An unmissable celebration!

Date: April 19, 2023
Location: Lehenmattstrasse 353, CH-4052 Basel, Switzerland
Departure: 19:00 (Coaches to and from the venue will be available on a first-come first-serve basis)

WELLNESS BREAKS

Finding a balance in the everyday work-life can be challenging for working professionals. Take a moment to participate in our wellness breaks, featuring expert-guided breathing and meditation exercises.

Date: Wednesday 19 April (During Afternoon Break) and Thursday 20 April (During Lunch Break)

BUSINESS WOMEN'S NETWORKING LUNCH

Take advantage of this unique opportunity to grab lunch, discuss aspirations, challenges, and ideas with some of the most influential professional women in the Energy and Utilities Industries. Open to all attendees.

Date: Wednesday 19 April (During Lunch Break)

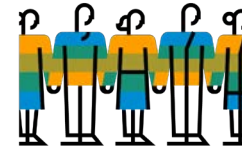

SUPPORT OUR 2023 TREE INITIATIVE

Natuvion and the team behind the International SAP Conference for Energy invite our 2023 attendees to sponsor a tree and contribute towards a greener, healthier, and more sustainable future.

Students at Colegio Fervan, located in one of Colombia's most endangered terrestrial ecosystems, are striving to save their local Cloud Forest by planting over 5000 trees. The project also aims to bring pupils and their families back into closer contact with nature and expand their knowledge of sustainable forestry. Find out more here.
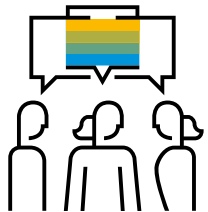

Sponsored by: Natuvion

What Can You Expect at the International SAP Conference for Energy?

1. You will become **members of an extensive industry-focused SAP community,** where you can expand your network internationally and learn from experienced, like-minded professionals
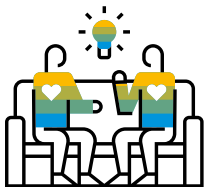

2. You will be able to collect **actionable solutions and lessons learned directly from established SAP customers. Learning how to improve your operations** by seeing exactly how someone else has tackled the challenges you face

3. Dedicated meeting facilities onsite will allow you to organize **one-to-one meetings** with the team at SAP, as well as other SAP users you are interested in learning from. **Helping you to secure answers to your most pressing questions**

4. The extensive exhibition will provide you with the opportunity to **meet with and vet a wide range of SAP partners,** with specific expertise in your field, and who can potentially support your company's future goals and ambitions

5. With more than 40+ case study-led presentations, roundtables, and extensive networking opportunities, **the knowledge gained during your time at the event will prove highly beneficial for your upcoming SAP projects**

6. All attendees will receive access to video recordings of the keynote and track presentations that we have permission to share, allowing you to **continue your learning experience beyond the conference** and catch-up on any missed content

EY

How EY's Global Energy & Resources team can help you "The energy industry is in transition, experiencing rapid, fundamental change due to a complex mix of forces, including decarbonization, digitization and geopolitical uncertainty. Mining and metals, oil and gas, and power and utilities companies must accelerate their own transition to unlock the opportunities this presents, while still addressing short-term operational and commercial pressures. EY's Global Energy & Resources team brings a breadth of experience and talent to help companies adapt for now and be ready for whatever comes next. By considering four key pillars of change — structure and culture, customers, technology, and skills and capabilities — we can help you adapt for today and reap the opportunities of tomorrow. And together we can build a better working world." The power and utilities sector is readying itself for a decarbonized, decentralized energy future. To thrive in this more complex and uncertain world, companies must reshape to address short-term commercial pressures, while also creating long-term value. EY's Global Power & Utilities team brings together the breadth of experience and talent needed to approach the entire transformation process. By considering four key pillars of change — structure and culture, customers, technology, and skills and capabilities — we can help you adapt for today and reap the opportunities of tomorrow. And together we can build a better working world.

In the adesso group we have a comprehensive industry and technology know-how built up over 25 years. We started as an expert for individual development and are now familiar with various solutions such as Microsoft, Salesforce and SAP. As an SAP Gold Partner, our more than 600 SAP specialists translate business strategy into technology and implement or enhance sustainable solutions together with our customers. Our SAP Powerhouse transforms and digitizes core and industry-specific business processes of utilities based on SAP. We successfully support our customers with our expertise in business and process consulting. Due to our distinctive industry expertise, we are pioneers in the S/4HANA transformation in energy supply. For SAP, we are co-developing as a partner on S/4HANA Utilities and have been a proud focus partner for SAP BTP since 2022. As experts in AI and machine learning, we influence the digital future of utilities.

SAP Industry Cloud

Innovating SAP's Industry Cloud with its Partners

The solutions on SAP's Industry Cloud aim to drive next practices and innovation at the vertical, as well as on the horizontal. Industry Cloud is the next evolution of SAP's innovation strategy – presenting a joint portfolio of SAP and partner's solutions. These solutions address a dedicated business priority whilst designed end-to-end. Deployed on a common platform with built-in integration to the systems and data at the center of their business – independent of the size of the company.

Please join us for further insights of SAP's Industry Cloud strategy with our experts and meet with SAP.iO and SAP partners AsInt, IntCom, LiveEO, Evolution Energie, Net2Grid to exchange how they grew their businesses as part of SAP's Industry Cloud ecosystem.

SAP.iO delivers new partnerships for SAP by accelerating and scaling startup innovation as well as incubating employee ventures. Since 2017, SAP.iO has helped 500+ startups and ventures accelerate their growth while enabling thousands of SAP customers to access innovation.

AsInt
Based in Houston Texas, AsInt is a market leader in developing asset intelligence software solutions for oil, gas & energy and utilities industry customers.

IntCom
Intuitive features for HR departments to control the energy workforce productivity through a timeline-based activity planner and guarantee projects in compliance with governmental rules and client's policies.

Live EO
By analysing satellite images and applying in-house developed AI, LiveEO offers an overview of the grid and identifies where vegetation could be a threat to the overhead line. LiveEO´s solution increases the grid uptime for the operator, as well as asset safety and reliability.

Evolution Energie
The dedicated ERP for utilities, energy intensive companies, cities, ports and airports, enabling for financial and technical efficiency on a multi-commodity, multi-site and multi-country basis. Jointly with SAP Subscription billing solution, you benefit from an integrated front to back solution.

Net2Grid
Using merely smart meter data, NET2GRID delivers rich AI generated residential customer profiles to engage your customers and improve your business results. Make the most of SAP for Utilities and engage your customers with energy consumption insights and personalized recommendations.
