

Choose Inuvi – Specialists in Health Data Collection

Through specialist health data collection services, and expert laboratory testing, Inuvi creates certainty in the worlds of life and health insurance.

From booking appointments and health assessments, to analysing test samples at our UKAS accredited laboratory, Inuvi owns every part of the health data and insight value chain. This allows us to deliver accurate results, fast, and give our clients full visibility at every stage of the customer journey.

Why choose Inuvi?

Specialist Medical Reporting - We're specialists in collecting medical records and reports, professionally managing the whole process from start to finish.

Flexible Health Assessments - Our flexible health assessments help our clients understand their customers' health, with results delivered quickly and securely.

Nationwide Sample Collection - Through our nationwide network of health professionals, we deliver speedy sample collection at scale, anytime, anywhere.

High-Net-Worth Service - From arranging priority appointments to proactively managing individual cases, our dedicated case handlers are there to support your High-Net-Worth clients every step of the way.

Expert Laboratory Testing - Through our UKAS accredited laboratory, we provide expert venous and capillary blood testing services, backed by outstanding customer service.

Exceptional Customer Service - We understand that every client's requirements are unique, which is why you'll never see a one size fits all approach. We are highly flexible, committed to customer satisfaction, and trusted to deliver exceptional service.
