

Supporting the future of astronomical research: the critical need for long-term funding of essential coordination and infrastructure roles Schedule

Talks

Thursday 09h00-10h30

9h00: Introduction to the session topic (Francesca De Angeli)

09h05: The Technical Research Scientist 5 Years On: Persistent Precarity and the Recognition Gap in Big Data Astronomy Infrastructure (Invited) (Online) (C. Clare Worley)

09h25: Integration Experts: Building Cohesion and Productivity in Complex Research Environments (Ulrike Kuchner)

09h45: Creative ground based projects and space missions in an era of little funding (Don Pollacco)

10h05: Discussion (All)

13h30: The Collaborative Turn in Modern Astrophysics: Aligning Institutional Infrastructure with the Evolution of Research (Invited) (Online) (Staša Milojević)
