

Early massive black holes as probes of cosmic structure formation

Schedule

Talks

Friday 14h15-15h45

14h15: Opening remarks

14h20: SMB0014: The significance of secular growth in galaxy-SMBH co-evolution in disk galaxies (*Sophie Jewell*)

14h40: CosmicStruc0003: The Cliff: Metallicity as a constraint on black hole evolutionary pathways in Little Red Dots (*Lucy Ivey*)

15h00: CosmicStruc0007: Pulsar timing arrays and the cosmic evolution of massive black holes (*Bence Becsy*)

15h20 CosmicStruc0006: The Impact of Dark Matter Models on Supermassive Black Hole Merger Rates and Pulsar Timing Array Observables (*Luke Williams*)

15h40: Closing remarks/overtime buffer
