

'RAS Early-Career Network - Jobs in Astronomy and Geophysics (RASECN)' Abstracts

Main organiser: Vishnu Vejayan.

The RAS Early-Career Network Steering Group will organise a careers panel featuring 4 panel members aimed at early-career researchers who are in astronomy and geophysics. The panel members will consist of professionals at different stages in their academic career as well as those who have transitioned into industry.

There will also be time for questions to all speakers, and presenters who are attending in person will be invited to join the early-career networking lunch to follow.

This careers panel is organised by the Early Career Network (ECN) of the RAS. We do not seek abstract submissions for this session but you are welcome to get in touch with the ECN with any questions.
