Each peer reviewer helps fulfill the mission of the journal to provide the highest quality content that spans the breadth of anesthesiology and its many subspecialties, as well as diverse viewpoints and voices.  This pragmatic, basic workshop will focus on undertaking a basic manuscript peer review.  The workshop facilitators will lead an interactive, roundtable session with a small group of workshop participants, using actual manuscripts submitted to Anesthesia & Analgesia.  Participants will be expected to read two manuscripts (provided) prior to the workshop.  This basic workshop is principally intended for less experienced clinician-scientists, who are beginning to make a contribution to scholarly publishing.
