

# Music for the environment? It's innovative and for everyone.

LEARN MORE

Music isn't just heard with your ears—  
it's experienced with **your whole body**.  
With Soundpotai, Rippotai's patented  
musical pouf, you can feel music in an  
entirely new way.

Thanks to sound **vibration technology**  
**and the eco-designed seating**,  
you'll enjoy a unique and innovative  
multisensory experience.

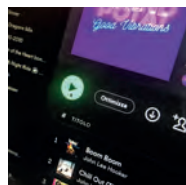

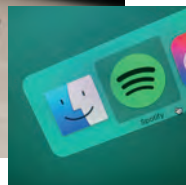

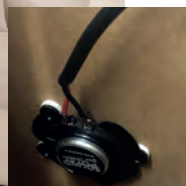

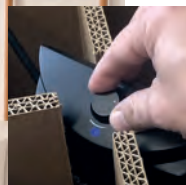

**Soundpotai: a new way  
to experience sound.**

## The new Rippotai speakers for home and office deliver sound in a multisensory way, creating inclusive spaces.

Music truly is for everyone, and Rippotai proves it with Soundpotai, creating **connections through sound and sensations** that provide a complete experience, **even for those with hearing difficulties**.

Sit back, relax, and let the sound embrace you. With Soundpotai, you become

part of the music.

Soundpotai connects to your device via Bluetooth. It is crafted with **eco-friendly, non-toxic materials**, assembled using interlocking techniques without glue, ensuring a sustainable and environmentally friendly design.
