

# Dvora Waldman

## Director, Enterprise Social Responsibility The Walt Disney Company

---

Dvora leads The Walt Disney Company's global commitment to delivering joy when it's needed most. This work comes to life through helping to reimagine the patient experience in children's hospitals and through granting transformative wishes together with organizations like Make-A-Wish.

Working with top nonprofits in the world and colleagues across every part of the business, Dvora enjoys being able to support kids and families from all backgrounds. A Los Angeles native, Dvora grew up going to Disneyland Resort with her family where her favorite attraction was the Country Bear Jamboree.

Dvora most identifies with Judy Hopps from *Zootopia* and Dory from Pixar's *Finding Nemo* and hopes to bring that spirit of optimism and hope to everything she does.
