I joined TAHPERD in 1972 as an undergraduate student at Texas A&M University. I have been fortunate enough to serve TAHPERD in many capacities including as President for the 75th Jubilee Celebration in 1998. At that 75th Anniversary Convention we had a large group of student members sitting together in the audience. I remember looking at that group of future professionals and asking them how many would be present for the 100th Anniversary? If, any of those students from 1998 are in attendance at this 100th Anniversary Convention, I would love for them to come up and introduce themselves to me. Membership in this organization is perhaps the best thing an HPERD professional can do. It provides opportunities to help shape the future, learn new things that can be used in the classroom and gym, and participate in positive social interaction with members. You were the future of our association 25 years ago, and you still are today.
