

1994-2024

Classes January 8-14, 2024, will be at University of Colorado in Colorado Springs

Classes February 5-9, 2024, will be at Marriott in Colorado Springs

- *Early Bird rate is \$80/day through October 31, 2023, includes breakfast and lunch.*
- *Regular rate is \$85/day as of November 1, 2023, includes breakfast and lunch.*
- *Schedule is subject to change; additional classes may be added.*
- *Session A or B indicate multiple offerings of a course, you do not need to attend both.*

Virtual Courses – December 2023		
ICS-300V	Intermediate ICS (Virtual) – special fee \$250	Dec 5-7, 2023
ICS-400V	Advanced ICS (Virtual) – special fee \$250	Dec 19-20, 2023
FEMA Courses		
G-191	ICS EOC Interface Workshop	Jan 8-9, 2024
L-956	NIMS ICS All-Hazards Liaison Officer (LOFR)	Jan 9-10
L-960	NIMS ICS All-Hazards Division/ Group Supervisor	Jan 8-10
L-965	NIMS ICS All-Hazards Resource Unit Leader	Jan 8-11
L-967	NIMS ICS All-Hazards Logistics Section Chief	Jan 8-12
Skill Specific Courses		
233	Fireline Paramedic	Jan 8-9
AFT	Intro into Aerial Fire Attack	Jan 11-12
CCBB	Certified Burner & Intro to Agency Burn Boss (RXB3)	Jan 11-13
IQS	Incident Qualification System	Jan 8-9
IROC	Interagency Resource Ordering Capability	Jan 13-14
RS	Responder Strong Train-the-Trainer	Jan 11
SIT	Advanced Share Situational Picture	Jan 11-12
SM	Social Media Workshop	Jan 12
Tech A	Field Mapping Tools for Operations (Session A)	Jan 11
Tech B	Field Mapping Tools for Operations (Session B)	Jan 12
NWCG Courses		
D-110	Expanded Dispatch Recorder with Intro to IROC	Jan 10-12
FI-110	Wildland Fire Observations & Origin Scene Protection for First	Jan 13

	Responders	
ICS-300	Advanced ICS: ICS for Supervisors & Expanding Incidents	Jan 8-10
ICS-400	Advanced ICS: ICS for C&G Staff and Complex Incidents	Jan 11-12
L-280 A	Followership to Leadership (Session A)	Jan 9-10
L-280 B	Followership to Leadership (Session B)	Jan 13-14
N9062	e-ISUITE	Jan 12-14
N9073	Community Wildfire Mitigation Best Practices Training	Jan 11-12
S-130/190	Firefighting Training & Intro to Wildland Fire Behavior	Jan 8- 12
S-130/ 190 Blended	Basic Firefighting Review & Field Day Only *Online modules must be completed to attend	Jan 13-14
S-131 A	Firefighter Type 1 (Session A)	Jan 8-9
S-131 B	Firefighter Type 1 (Session B)	Jan 13-14
S-200	Initial Attack Incident Commander	Jan 13-14
S-203	Introduction to Incident Information	Jan 8-11
S-215 A	Fire Operations in the Wildland/ Urban Interface (Session A)	Jan 8-10
S-215 B	Fire Operations in the Wildland/ Urban Interface (Session B)	Jan 12-14
S-219 A	Firing Operations (Session A)	Jan 11-12
S-219 B	Firing Operations (Session B)	Jan 13-14
S-230 A	Crew Boss, Single Resource (Session A)	Jan 8-10
S-230 B	Crew Boss, Single Resource (Session B)	Jan 10-12
S-231 A	Engine Boss, Single Resource (Session A)	Jan 11-12
S-231 B	Engine Boss, Single Resource (Session B)	Jan 13-14
S-236	Heavy Equipment Boss	Jan 8-10
S-260	Interagency Incident Business Management	Jan 8-10
S-261	Applied Interagency Incident Business Management	Jan 11-13
S-270	Basic Air Operations	Jan 13-14
S-290	Intermediate Wildland Fire Behavior	Jan 8-11
S-300	Extended Attack, Incident Commander	Jan 11-13
S-330	Task Force/Strike Team Leader	Jan 8-10
S-339	Division/Group Supervisor	Jan 8-10
S-340	Human Resource Specialist	TBD
S-359	Medical Unit Leader	Jan 10-12

February 5-9, 2024 at the Marriott in Colorado Springs

L-381	Incident Leadership	Feb 5-9
O-305	Type 3 All-Hazards Incident Management Team	Feb 5-9
S-390 Blended	Fire Environment Assessment and Fire Behavior Estimation *Online modules must be completed to attend	Feb 6-7

Refer to Course descriptions on the following pages.

Skills Courses

233: Fireline Medic

This course will cover necessary information for EMT's & Paramedics to function as a Single Resource on Wildland Fires. The class will review the typical emergencies, equipment needs, interface with the MEDL, emergency evacuations, wildland safety considerations, navigation & responsibilities. **Prerequisites: Current EMT or paramedic certification.**

AFT: Intro to Aerial Fire Tactics

Introducing Aerial Fire Tactics class, designed to elevate the skills of ground resources in their collaboration with aerial firefighting aircraft. Building upon the foundation of the NWCG S270 course, this advanced program is not a basic aircraft awareness class, but a comprehensive training experience dedicated to enhancing firefighter efficiency when working alongside both fixed-wing and rotor-wing aerial firefighting units.

At the heart of this course lies a scenario-driven approach, with a strong emphasis on digital and sand table scenarios. Students can anticipate leaving the class with a profound understanding of various aerial firefighting resources, including Helicopters, Large Air Tankers (LAT), Very Large Air Tankers (VLAT), Single Engine Air Tankers (SEATs), and aerial supervision assets such as Air Tactical Group Supervisor (ATGS), Lead Planes, and Helicopter Coordinator (HLCO). Through discussion and instruction, participants will gain valuable insights into which aircraft types are best suited for specific firefighting tactics and will improve student proficiency communicating with aerial assets. Ideal for students with prior aircraft experience. **Preferred candidates** are single resources or higher, with a special preference for those working towards Task Force, Strike Team, or Incident Commander Type 4 (ICT4) qualifications. If available seats permit, applicants with a minimum of FFT1 certification will also be considered.

CCBB/RXB3: Certified Burner & Intro to Agency Burn Boss

This course provides introductory training in the planning, design & implementation of low complexity "pile" burning projects. Topics include a review of basic fire behavior, project design, smoke management, legal liability, implementation techniques & the development of site-specific burn plans with risk management & project complexity. Upon successful completion of this course, private landowners can initiate the task book certification process through the CO Div. Fire Prevention & Control CDFPC as a Certified Burner Level B. Local, county, state & federal agency attendees are encouraged to initiate Burn Boss Type 3 Task Book. **Prerequisites: Private landowners: None. Agency attendees: qualified FFT1 or ICT5 & S-290.** Important Note: Private entities without any prior fire experience &/ or training must attend all three days. Agency attendees meeting the prerequisites will start the class on day 2.

IQS: Incident Qualification System

Description to come by September 27th

IROC: Interagency Resource Ordering Capability

Description to come by September 27th

SIT: Advanced Shared Situational Picture

This course supports all aspects of crisis and consequence management and specifically addresses the needs of the Communications and Information Management component of the

National Incident Management System (NIMS). Advanced Shared Situational Picture Course is designed to improve the skills, knowledge, and capabilities of individuals, organizations, and jurisdictions involved in emergency preparedness, response, and recovery. The goals of the course are to provide participants with an in-depth understanding of the concepts, relationships, challenges, and opportunities inherent to establishing and maintaining a Shared Situational Picture. Develop ideas and concepts for improving the Shared Situational Picture in jurisdictions, organizations, and individuals. Focus a new emphasis on analysis skills, processing information, confirming intelligence and creating usable elements that are actionable. Objectives include: Define the Advanced Shared Situational Picture and the relationship with various personnel involved in both crisis and consequence management; Explain how the Advanced Shared Situational Picture contributes to effective incident management and decision making; Identify that there is more than one component to achieving Advanced Shared Situational Picture and how technology assists in these processes; Develop or contribute to plans, procedures, or processes supporting the Advanced Shared Situational Picture in their own operating environment; Explore current and emerging technologies for the Advanced Shared Situational Picture.

SM: Social Media Workshop

This 1-day workshop includes: training on Inciweb, Facebook, Twitter with intro to ESRI Story Maps. We will discuss and learn to use each method of social media while talking about personal experiences as well as examples of good and bad uses. Together we can learn from one another in this ever-changing mass medium. **Prerequisites: none.**

RS: Responder Strong Mental Health Curriculum Train-the-Trainer Workshop

Our Responder Strong Mental Health Curriculum, written by responders for responders, has been adopted by many organizations, including the Colorado Peace Officer Standards and Training Board who named it the minimum, mandatory mental health training for LEO in Colorado. Agencies, peer support programs, community colleges and universities across the country have also integrated it into their public safety education. To better disseminate this training, we have adopted a Train the Trainer model in the form of a one-day class. We've structured it so that each class is sponsored by a corporation or foundation, making it always free to participants. The format for each event is hybrid, allowing in-person and virtual attendance. We are particularly interested in supporting volunteer and rural agencies who might not have access or funds to obtain this type of training or create in-house facilitators. To date, we have trained more than 1400 facilitators across the U.S. These personnel can then reteach the content as they choose within their agencies or communities. The content focuses on the stress injury model, stress injury statistics among emergency responders, suicidality recognition and prevention, and resilience. With the increasing need for informed discussion around stress injury, burnout, suicidality, and resilience, we are very pleased to be able to offer this content at no cost to agencies, eliminating budget barriers and preventing re-invention of the wheel. For more information, please see the attachments regarding the curriculum itself and our other offerings through All Clear Foundation. More information and registration can be found here: <https://allclearfoundation.org/trainer> **Prerequisites: none.**

Tech Class: Field Mapping Tools for Operations

Learn mobile field tools for gaining increased geospatial situational awareness as well as for creating and editing incident data. Students will use the web-based ArcGIS Online site managed by the National Interagency Fire Center (NIFC). This course includes a tutorial on the Colorado Wildfire Incident Management System (COWIMS) and its use in wildland fire and emergency management. Students will learn common apps such as Survey123, Field maps and

others. These apps can be used for both situational awareness and incident data management. The COWIMS section covers topics that include workflows and best practices while using Intterra's COWIMS, utilizing Colorado's Multi-Mission Aircraft data for greater situational awareness, and integrating COWIMS data with geospatial platforms such as ArcGIS and Google Earth.

Prerequisites: All students need COWIMS and NIFC ArcGIS Online accounts BEFORE the course. More details will be provided in class resource order.

FEMA Courses

G-191: ICS/ EOC Interface Workshop

The ICS/EOC Interface Workshop (G191) is designed to provide participants the ability to develop ICS/EOC interface implementation strategies or action plans for their communities. By proposing and discussing options in a neutral environment, and to help them understand that there are no rigid solutions to the ICS/EOC interface issues. This course will enable the participants to develop an effective interface between the Incident Command and the Emergency Operations Center (EOC) by applying Incident Command System (ICS) principles.

Prerequisites: ICS-100, ICS-200, ICS-700A, and FEMA IS-775

L-956: NIMS ICS All-Hazards Liaison Officer (LOFR)

This course provides local and state level emergency responders with an understanding of duties, responsibilities and capabilities of an effective liaison officer. Topics include, position concept, agency representatives, stakeholders, incident communications and work location, information flow, planning process, special situations, demobilization.

L-965: NIMS ICS All-Hazards Resources Unit Leader

As of October 1, 2013, NWCG recognizes the FEMA NIMS E/ L965, Resources Unit Leader course as an alternative to taking the NWCG S-349 course. This course is designed to train potential resources unit leader (RESL). It describes RESL responsibilities related to resource status systems, planning process, and resource products/outputs. **Prerequisites: Required: IS/ ICS - 100, 200, 300, 700 and 703. Recommended: ICS- 400, AHIMT Course or C&G Local Training**

L-960: NIMS All-Hazards Division/ Group Supervisor

The course prepares students to perform in the role of the Division/Group Supervisor on an All Hazards Incident Management Team (AHIMT). It provides instruction in support of the specific tasks of the DIVS. Topics include DIVS management, organizational interaction, division operations, all-hazard operations, and tactical decision games. **Prerequisites: ICS- 400, AHIMT Course or C&G Local Training.**

L-967: NIMS ICS All-Hazards Logistics Section Chief

This course is designed to provide State & local-level emergency responders with a robust understanding of the duties, responsibilities, & capabilities of an effective logistics section chief on an AHIMT. These responsibilities include fall into two categories: (1) responding to the incident; & (2) effectively fulfilling the position responsibilities of a Logistics Section Chief on an AHIMT. Exercises, simulations, discussions, & a final exam enable students to process & apply their new knowledge. **Prerequisites: IS- 100.b, 200.b, 700.a, 800.b, ICS-300.**

O-305: Type 3 All-Hazards Incident Management Team

As part of a technical assistance program to develop Incident Management Teams (IMT) across the country, the U.S. Fire Administration's National Fire Program Branch is coordinating the management of the All-Hazards Incident Management Team curriculum for State & specified Regional Incident Management Teams. The overall goal of USFA's IMT program is to develop state & regional IMTs to function under the National Incident Management System (NIMS) during a large &/or complex incident or a major event. This course is designed for those who are assigned to function in an All-Hazards IMT during a large/complex incident, typically extending into the second operational period. The AHIMT can either support an existing ICS structure, or can assume command of an incident if requested to do so. The AHIMT can ease the transition to a Type 2 or Type 1 IMT for incidents of national significance. **Prerequisites:** All responders who may serve in command or general staff positions must have the following: IS-100.B, IS-200.B, G-300/ICS300, G-400/ICS400, IS-700.A & IS-800.B courses.

NWCG Courses**D-110: Expanded Dispatch Recorder w/intro to IROC**

This course is an introduction to the expanded dispatch organization. Topics included: Interagency Resource Ordering Capability (IROC) process for established dispatch ordering channels, resource orders & forms. The course is centered around the core duties of dispatchers, with an emphasis on the importance of communication & working relationships. No prior dispatch or fire experience is required. **This course has no prerequisites. However, students are strongly encouraged to complete S-110, IS-100 & IS-700 online prior to attending.**

FI-110: Wildland Fire Observations & Origin Scene Protection for First Responders

The primary emphasis of this course is to teach sound wildland fire observations and origin scene protection practices that enable first responders to a wildland fire scene to perform proper origin scene protection procedures. The course is presented by short lectures, electronic presentations, exercises, and class discussion. Objectives include: Understand the roles and responsibilities of a first responder in support of the investigation of a wildland fire; List the key observations that should be made when responding to a wildland fire; List the five tasks to be performed upon arrival to a wildland fire; Understand basic fire behavior and fire pattern indicators that identify signs of a general origin area; Understand the various causes of wildland fires; Understand the requirements of the post-response phase, including the information transfer process. Recommended training for all first responders, including Single Resource Bosses, law enforcement officers, prevention technicians, and field resource personnel. **Prerequisites: none.**

ICS-300: Intermediate ICS: ICS for Supervisors & Expanding Incidents

This course is designed to enable personnel to operate efficiently using ICS in supervisory roles on expanding or Type 3 incidents. Topics include: ICS fundamentals review, incident/event assessment & agency guidance in establishing incident objectives, Unified Command, incident resources management, planning process, demobilization & incident transfer of command or close out. Qualifies for CO Post Credit! **Prerequisites: ICS-200.**

ICS-400: Advanced ICS: ICS for Command & General Staff & Complex Incidents

This course directs the student towards an operational understanding of large single agency & complex multiagency/multi-jurisdictional incident responses. Topics include fundamentals review for command & general staff, major &/or complex incident/event management, area

command, & multi-agency coordination. Interchangeable with G400 & H467, they are all NIMS compliant. Qualifies for CO Post Credit! **Prerequisites: ICS-300.**

L-280: Followership to Leadership

This training course is designed as a self-assessment opportunity for those stepping into a leadership role. One-day of classroom followed by a field day with students working through a series of problem-solving events in small teams. Topic areas include: Leadership values & principles; transition challenges for new leaders; situational leadership; team cohesion factors; & ethical decision-making. **Prerequisites: Experience on incident assignments in operations or support functions & L-180.**

L-381: Incident Leadership

This is a leadership development training recommended for incident response personnel who will function in Fireline command roles. This is an exercise/simulation-based training. The intent of this training is to provide future leaders of divisions, groups, & type 3 incidents with the leadership tools to effectively exert command & control over a quickly assembled team in a time constrained & rapidly changing incident environment. **Prerequisites: L-180, Qualified as any strike leader, (TFLD), (ICT4), any support unit leader, or supervisory dispatcher.**

N9062: e-Isuite

This course exposes a user to the basic application functions of each e-ISUITE module: Resources, Cost, Time, and the Incident Action Plan. These application modules are used within the Plans and Finance sections of an IMT as well as home units. Functional knowledge of the application is required to accomplish the responsibilities within those sections. Objective: to prepare students to work on an IMT in one or more of the following positions: SCKN, RESL, DMOB, PTRC, EQTR, COST, or COMP.

N9073: Community Wildfire Mitigation Best Practices Training 2-day short course

Community Wildfire Mitigation Best Practices (CW-MBP) is a national-level training from Coalitions & Collaboratives, Inc. (COCO) and the USDA Forest Service. It is designed for current or future mitigation specialists, wildfire program leads, and others working with residents and their communities to reduce wildfire risk. CW-MBP training concentrates on science, methods, and tools to help you engage communities and residents while also helping you to eliminate ineffective practices.

Participants should come with a basic understanding of wildfires, how structures ignite, and vegetation management practices. The course assumes you know how to mitigate but are seeking ways to engage your community. In this workshop, you will work through some of the greatest challenges facing our wildland-urban interface communities with a focus on how to increase engagement with residents and partners. The course will help you break down ineffective practices to make space for the more effective ones with a focus on on-the-ground mitigation activities. The 2-day short course covers all the same topics as our full course however some topics are covered at a higher level. ***If you are interested in getting the Incident Qualification and Certification System (IQCS) N9073 Training Certificate, you must complete pre-work, attend and actively participate in both days of training, and complete a Mitigation Action Plan (MAP) within two weeks of course completion. More details will be provided during the course.***

Registration - **Step one** register through the CWFIMA site. **Step two** - your registration for this class is not complete until you receive additional instructions from a COCO representative and fill out the additional paperwork to confirm acceptance into the course.

S-130/190 (Blended): Review & Field Day Basic Firefighting

This two-day class assists those students taking the online S-130/190 course with the necessary classroom review & field work to successfully complete the class for NWCG certification. **Pre-requisites: successful completion of online S-130/190 and L-180 modules (approx. 24 hours online) prior to attending 2-day class.**

S-130/190: Firefighter Training & Intro to Wildland Fire Behavior

This introductory course is designed to train entry-level firefighters referred to as a Firefighter Type 2 (FFT2). You will be introduced to & gain knowledge of the basic incident management organization, firefighting techniques, suppression equipment, safety, strategy/tactics along with fire behavior. Field exercises will be performed for valuable hands-on training. Includes L-180. **Prerequisites: None.**

S-131: Firefighter Type 1

This course is designed to meet the needs of an advanced Firefighter Type 1 (FFT1). The course is interactive & contains several tactical decision games designed to facilitate learning the objectives & class discussion. Topics include: Fireline reference materials, communications & tactical decision making. **Prerequisites: Qualified as FFT2.**

S-200: Initial Attack Incident Commander

Initial Attack Incident Commander The intent of this course is to provide students with the tools & techniques to make the transition from Single Resource Boss to Incident Commander. **Prerequisites: Qualified as any Single Resource Boss (SRB).**

S-203: Introduction to Incident Information

The purpose of this course is to provide students with the skills & knowledge needed to serve as Public Information Officers (PIOF). The course covers establishing & maintaining an incident information operation, communicating with internal & external audiences, working with the news media, handling special situations, & long-term planning & strategy. Students will demonstrate skills & knowledge of PIO by successfully participating in a simulation & written exam. **Prerequisites: completion of pre-course work.**

S-215: Fire Operations in the Wildland/Urban Interface

Instructional units include firefighter safety in the interface, managing human factors in the interface, pre-incident planning, size-up & initial strategy, structure triage, structure protection overview, tactics in the interface, tactical operations & resource use in the interface, action assessment, plan update, & after-action review. **Prerequisite: Agency personnel - (FFT1) qualified. Structural Fire Department- must complete Intro to ICS(I-100), (L-180), (S-130/190), & (S-131), or equivalent training.**

S-219: Firing Operations

This course was developed using a blended approach to learning. Students are required to complete the online training portion of the course prior to taking the ILT. The course introduces the roles and responsibilities of a Firing Boss, Single Resource (FIRB), and outlines duties of other personnel who may engage firing operations. The course discusses and illustrates common firing devices and techniques.

Prerequisites: a minimum of FFT2 qualified and RT-130.

****Students seeking (FIRB) certification must successfully complete, ICS-200, S-230, S-290 and RT-130.**

S-230: Crew Boss

This is a classroom course designed to produce student proficiency in the performance of duties associated with the single resource boss position from initial dispatch through demobilization to the home unit. Topics include operational leadership, preparation & mobilization, assignment preparation, risk management, entrapment avoidance, safety & tactics, offline duties, demobilization, & post incident responsibilities. **Prerequisites: S-290 & FFT1 qualified.**

S-231: Engine Boss

This is a skill course designed to produce student proficiency in the performance of the duties associated with engine boss, single resource (ENGB). Topics include engine & crew capabilities & limitations, information sources, fire size-up considerations, tactics, & wildland/urban interface. **Prerequisites: S-230 & FFT1 qualified.**

S-236: Heavy Equipment Boss

This is a skill course is designed to meet the training needs of a Heavy Equipment Boss on an incident as outlined the PMS 310-1 and the Position Task Book developed for the position. Primary considerations are tactical use and safety precautions required to establish and maintain an effective dozer operation. A field exercise is required as part of the course. **Prerequisites: includes completion of pre-course work (2 hours) and qualified as firefighter type 1 (FFT1).**

S-260: Interagency Incident Business Management

Discusses business management principles associated with incidents. This course includes employee responsibilities & conduct; recruitment personnel time recording; pay & commissary; correct reporting procedures for injuries; procurement & equipment time recording; property documentation; cooperative agreements with other agencies; claims/accident investigations. **Prerequisites: none.**

S-261: Applied Interagency Incident Business Management

This course is designed to provide the prerequisite skills/knowledge necessary to perform the task of the entry-level finance positions for commissary manager, personnel time recorder, equipment time recorder, compensation for injury specialist & claims specialist. **Prerequisites: S-260.**

S-270: Basic Air Operations

This course offers information on the uses of aircraft in fire suppression and provides instruction on how to conduct oneself in and around aircraft. It will familiarize the trainee with tactical and logistical uses of aircraft in fire suppression, as well as describe the specifications for helicopter landing areas. **Prerequisites: None.**

S-290: Intermediate Wildland Fire Behavior

This fire behavior course provides students with the knowledge of wildland fuels & fire behavior to make safe & effective fire management decisions on prescribed & wildland fires. **Prerequisites: S-130/190.**

S-300: Extended Attack Incident Commander

This course is designed to meet the training needs of the Incident Commander Type 3 (ICT3). The focus is on the lessons of leadership and command as they relate to the ICT3 position. It is presented in participative lecture format with multiple tactical decision games for students to practice new knowledge. The seven instructional units cover Foundation Skills, Situational Awareness, Command and Control, Managing the Incident, Transitional Activities, Post-Fire Activities and a Final Simulation. **Prerequisites: Qualified ICT4 and Strike Team Leader & preferably having two single resource boss positions (including either Crew Boss or Engine Boss). Must have satisfactory completion of pre-course work.**

S-330: Task Force/Strike Team Leader

This course meets the training requirements for the positions of Task Force & Strike Team Leader. The course is designed to be interactive with several scenarios & exercises specific to wildland fire suppression. **Prerequisites: Qualified as any Single Resource Boss; completion of pre-course work.**

S-339: Division/Group Supervisor

This course prepares students to perform in the role of Division/Group Supervisor. Topics include division/group management, organizational interaction, division operations, all-hazard operations, & tactical decision games. **Prerequisites: Qualified TFLD or ICT3 OR ICT4 along with any two strike team leader positions (one must be STCR or STEN).**

S-340: Human Resource Specialist

This course is designed to equip an individual with the technical skills and knowledge needed to fulfill the role of Human Resource Specialist (**HRSP**) on emergency incidents. The primary purpose of the **HRSP** is to assist the Incident Management Team in maintaining a harmonious and professional environment by facilitating the resolution of a wide range of human resource issues. **Prerequisites: None**

S-359: Medical Unit Leader

This course is designed to provide the skills & knowledge needed to perform in the role of medical unit leader (MEDL). Topics include gathering information, organizing the medical unit, supervising the unit, evaluation, documentation, & demobilization. **Prerequisites: Current certification as an Emergency Medical Technician (EMT) or equivalent.**

S-390: Fire Environment Assessment and Fire Behavior Estimation (Blended)

This newly revised course is blended with online and 2-day class. It is designed to instruct prospective fire line supervisors in wildland fire behavior for effective & safe fire management operations. **Prerequisites: S-290, Qualified as any Single Resource Boss and completion pre-selection assessment and pre-course work.**

REGISTRATION: ONLINE @ www.cwfima.org
